Dear Paul:

Here's an editorial on Reagan which I think is fairly important. From what I read in the papers, you agree with me, too, that he shouldn't delay too long in his announcing.

Nackey and I will be at home in Reno all of September so let's plan to get together during that time.

As far as I can find out, John Sears has been doing a good job organizing the State of New Hampshire for Ronnie and I think with the Governor's help and the paper's help, we can do rather well and if Ronnie really campaigns in the state, I think we can win it. No one is mad at Ford in New Hampshire but they are not particularly enthusiastic one way or the other about him. A strong personality doing a really good campaign job I think would win.

Regards.

Very sincerely,

Bill
