Senator Paul Luxalt
Senate Office Building
Washington, D. C.

Dear Senator Luxalt:

Thank you for the great job you did at the Republican convention. It was an uphill fight with all the buddies who had served with Ford the last twenty years there trying to see what else they could get out of him. Ford and the rest of them in the Senate and House of Representatives have feathered their nest all this time and would continue to do so, but for the fact Carter has promised a little more.

After voting the straight Republican ticket for years we will not be voting for Mr. Ford, and the woman called first lady and don't know how to be a lady. The young man living at the White House doing nothing, but having a good time better get out and earn his own living. He could join the army.

We have been around as long as Mr. Rockefeller, and have heard many speeches but he sure did make a fool of himself. Here is a man who couldn't buy the Presidency, doesn't know what a days work is trying to tell the rest of us who to vote for. The same goes for Barry Goldwater. This RNC Chairman Smith should have been kicked out. She should not have taken sides to begin with, and I understand our state Chairman will be kicked out this fall. Why is it a few damn fools have to ruin the party?

Nixon was crucified for doing less than the democrats yet nothing was said to bring out what has been going on in the Senate and House. They could have gone back to LBJ and Bobby Baker, and Billie Sol. To Kennedy and the Bay of Pigs, to Truman and Pendergast, and God only knows the things FDR did, but seems their only goal was "get Reagan".

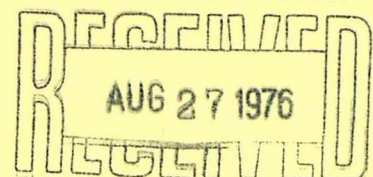

So now lets kneel to Russia with detante, give away the Panama Canal and all the rest. Thanks again for your great job.

Sincerely

Mr. & Mrs. Carl H. Ager
