

Our seniors are being robbed.

The national debt keeps piling up. The federal deficit is still enormous.

That means another attempt will be made to rob senior citizens by cutting their Social Security.

Who'll stop the thief? Harry Reid's record proves he'll be there. Every time.

Harry's earned a 100% rating from the National Council of Senior Citizens during his four years in Congress.

And Harry's career voting attendance record is 99%.

He's fought hard to protect seniors on fixed incomes from cuts in Social Security cost-of-living adjustments (COLAs).

He opposes raising the retirement age for Social Security eligibility.

Harry's an original co-sponsor of H.R. 4287, the Catastrophic Health Insurance Act of 1986. This bill would set up a voluntary insurance plan to prevent our life's savings from being wiped out by long-term illnesses like cancer.

Harry fought hard against crime and drugs before it became the "in" thing to do. He serves on the International Task Force on Narcotics Control, which developed many recommendations for this year's anti-drug legislation. And he fought for the landmark Comprehensive Crime Control Act of 1984.

Harry says, "Social Security is not welfare. It's a binding contract between the government and the working people of America who've paid into the system all their lives.

"As your Senator, I'll do everything I can to make sure the federal government keeps its commitments."

Harry Reid's given us his word on Social Security. His record proves he'll keep it.
