:60 PSA

UP TO FORTY-PERCENT OF THE PEOPLE IN THE UNITED STATES -- AS MANY AS 80-MILLION PERSONS -- WILL HAVE -- AT SOME TIME OR ANOTHER -- TMJ PAIN...THAT'S PAIN FROM THE TEMPOROMANDIBULAR (OR JAW) JOINT, USUALLY SIGNALLED BY A HEADACHE. DR. DAVID GROVE OF THE UNIVERSITY OF NEVADA SCHOOL OF MEDICINE BELIEVES IT IS MOST OFTEN STRESS RELATED:

.15 "The head, neck and face pain...can have medical causes...dental causes and stress is... one of the most important causes of TMJ pain."

TO TREAT TMJ PAIN, THE MEDICAL SCHOOL HAS A UNIQUE CLINIC IN ITS RENO FAMILY MEDICINE CENTER THAT UTILIZES THE HELP OF DOCTORS, DENTISTS AND PSYCHOLOGISTS:

.10 "The TMJ clinic will evaluate the causes of pain...report back to the doctor as to what should be done."

THIS IS "HEALTHLINE" FROM THE UNIVERSITY OF NEVADA SCHOOL OF MEDICINE.
