Medical School donates library to local hospital

WINNEMUCCA--A bigger and better medical reference library is coming to Humboldt General Hospital.

The University of Nevada School of Medicine Department of Family and Community Medicine is donating \$2,000 worth of medical textbooks and references to the hospital library. Winnemucca physicians have long been members of the medical school's clinical faculty and provide training to medical students and residents. The reference books will increase the resources available for physicians and the students when in Winnemucca, according to Dr. George Hess, chairman of the Department of Family and Community Medicine. These books will also complement the computer-based library services at the hospital provided by the medical school's Area Health Education Center.

Funding for the books came from a grant by the U.S. Public Health Service Training program.

The donation will be made Tuesday, Aug. 24, noon, at Humboldt General Hospital. Dr. Hess and other faculty will be on hand to discuss the library additions.
