

manville gallery - march

Susan A. Stookey, medical school information  
March 8, 1985

"Composition," a collection of photographic works by Elke Morris is now on display through March 29 at the Manville Gallery, University of Nevada School of Medicine.

Ms. Morris describes her work as "Images which deal with subjects and parts of subjects that are selected and cropped so as to project them as simple two-dimensional geometric shapes and lines that relate to each other."

The artist was born in Hamburg, Germany in 1958. She came to Reno in 1981 and is currently a senior art major at UNR, specializing in photography. She has exhibited at the annual student art shows of Truckee Meadows Community College and UNR, during 1983 and 1984.

Ms. Morris' exhibit will be followed by a display of student, faculty and staff art work, April 1 - May 3. An opening reception will be held April 1 from 5 - 7 p.m.
