RENO, NEVADA

50843

THE CITY OF RENO

RENO, as the County seat of Washoe County and metropolis of the State of Nevada, has experienced in the past year substantial growth in all lines of business and social life, and now has a population of 12,920 people. Situated 244 miles east of San Francisco and 576 miles west of Salt Lake City at the eastern base of the Sierra Nevada mountains on an elevation of 4,500 feet with the beautiful Truckee River running through the center of the city, and surrounded by a wonderfully fertile valley called Truckee Meadows, the climatic conditions are ideal. The summers are cool and the winters short, but with just enough cold atmosphere and snow to give such a change in seasons as to make living conditions delightful the year around.

The city itself is widely commented upon for its beauty. The business district is compactly built of substantial brick, stone and frame buildings. The streets are of the most modern paving and well lighted. In the residential section are beautiful homes surrounded by well kept gardens and lawns, while the city has such a multitude of shade trees along the streets as to give the stranger the impression it is situated in a magnificent natural park.

Here is the center of the vast mining industry of a State famous for its precious metals. At the present time the development of rich farming lands in the State, heretofore spoken of as a desert, is opening up to Reno a marvelously promising future. Vast irrigation works, now in course of construction, both governmental and private, will soon put thousands of acres of rich land under cultivation in various parts of the State, and Reno, being the natural trade center for the inter-mountain country, will surely become the market center of agricultural products in addition to its great mining industry. The transportation facilities are constantly increasing. It has the Southern Pacific system, which is steadily improving and extending its lines, the Nevada-California-Oregon Railway, which now reaches as far north as Lakeview, Oregon, and is opening up a rich tributary country for Reno wholesale and jobbing merchants, and the Virginia & Truckee Railway. In the city an electric street car system, with modern equipment, furnishes adequate transportation. That the days of the mining "boom" are past and that the commercial and industrial future for Reno, as well as the entire State, is on a firm and substantial foundation, is shown by the high class of business houses in the city now doing a large and steadily increasing volume of business. Already the city has several large manufacturing enterprises which show wonderful growth, and with unlimited electric power cheaply generated from the swift moving Truckee River, and a constantly increasing amount of raw material close at hand, there is every reason to have faith in Reno's future as a manufacturing city second to none west of the Rocky Mountains.

Being the seat of the University of Nevada, one of the leading educational institutions of the West, with good schools, both public and private, churches, clubs, theatres, social and fraternal organizations of all kinds, and a people with the western spirit of progress and hospitality, the moral, intellectual, social and civic life here compares favorably with any city in America.

The public buildings, County Court House, City Hall, Masonic Temple, Odd Fellows' Hall, Public Library, Elks' Home, Y. M. C. A. building, Majestic Theatre, State Asylum, County and private hospitals, all give to the city a handsome array of modern architectural structures seldom found in a city of its size.

1911-12

RENO COMMERCIAL CLUB

By C. T. STEVENSON, Secretary.

THE RENO COMMERCIAL CLUB is a corporation existing under the laws of the State of Nevada. The objects for which it was organized are: To encourage educational and social intercourse, disseminate information, foster peace, harmony and fair dealing, promote the interests of capital and labor, and aid in the civic, social, civil and material upbuilding of the City of Reno and State of Nevada, and acquire, hold and dispose of all personal and real property incident to its said objects and purposes.

Its membership now numbers about 200, composed of merchants, professional and mining men interested in the commercial and social development of Reno and the State at large. The control of the affairs of the Club is vested in a board of fifteen directors, five of whom retire yearly. The officers and directors of the Club for 1911 are: F. M. Lee, president; F. J. Shair, vice-president; F. W. Thomas, treasurer; C. T. Stevenson, secretary; Charles Gulling, W. H. Johnston, W. S. Settle, R. C. Turriffin, H. J. Darling, R. L. Fulton, E. C. O'Brien, Paul D. Roberts, A. M. Britt, M. R. Walker, George H. Taylor and Sardis Summerfield.

The clubrooms, occupying the entire west wing on the third floor of the Odd Fellows' building, are handsomely furnished, commodious and well equipped to the requirements of the Club, but at the rate the Club is growing, larger quarters will be necessary.

Letters from every State in the Union, as well as from Alaska, the Hawaiian Islands and the Philippines, are received and answered daily, accompanied with literature pertaining to the resources of the State and business opportunities in Reno. These letters and illustrated literature are spreading a propaganda that is making Reno and the State a Mecca for the home-seeker and the investor. It is from the outside that the Reno Commercial Club received its testimony as to the beneficial work that is being done at home to advance the interests of the community.

The most important initial work of the Club was the struggle to obtain just and reasonable freight rates for the State. The original complaint was filed with the Interstate Commerce Commission by the Railroad Commission of Nevada in 1908, and after several hearings the Interstate Commerce Commission, June 6, 1910, decided in favor of the State of Nevada and made the west-bound class rates less than to Sacramento. Since January, 1911, Reno has been enjoying these rates. The commodity rates will, probably, be adjusted in the near future.

The Club has joined with other Commercial Clubs of the Union and filed a complaint with the Interstate Commerce Commission to make a comprehensive investigation as to the justice and reasonableness as to the entire body of express rates and to express practices. The hearing of this complaint will take place before the Interstate Commerce Commission in the near future.

The Club took an active part in urging our Senators and Congressmen to vote for the "railroad bill" which was passed by the last Congress. This bill is the most important passed by Congress since the creation of the Interstate Commerce Commission.

At each session of the Legislature the Club's "Committee on Legis-

lation" co-operates with its County delegation to the State Legislature in urging the enactment of just and beneficial measures, and opposes the passage of such bills as in its judgment will serve no good purpose. The following are a few of the important measures it has advocated and opposed, viz:

The Club took an active and prominent part against the repeal of the Nevada Police Law.

Through the Club's efforts the Legislature repealed the "maximum rate" clause of the State Railway Commission Act at the 1909 session of the Legislature.

It protested the granting of a charter which would fasten a gambling and horse-racing act on the State.

Framed an act to have legislation passed whereby grand jury powers are enlarged so as to permit them to carry out or enforce their recommendations.

Opposed a bill requiring the printing of transcripts and briefs upon appeal of cases from the District to the Supreme Court of the State.

Assisted in having the Anti-Gambling Act passed by the Legislature of 1909.

Framed a bill and secured its passage by the Legislature whereby all incorporated cities in the State can issue street improvement bonds payable in annual payments of one to ten years, at five per cent interest on deferred payments.

Opposed passage of Assembly Bill 32, relative to the creation of a Highway Commission, and which bill was defeated.

Opposed passage of Senate Bill 71, relative to stock yards. This bill did not pass.

Memorialized Congress to pass the Griggs amendment to the Agricultural Bill, increasing the appropriation to Nevada, and at the Club's request the State Legislature acted likewise.

Co-operated with the Board of School Trustees in 1909 for the issuance of \$100,000 in bonds, and \$250,000 in 1910, for the erection of new school houses.

Secured an agreement from the coal dealers of Reno to reduce the price of coal \$1 per ton upon like reduction in freight rates.

Made a direct appeal to President Taft to be heard in the matter of the Lake Tahoe dam and watershed of the Truckee River.

In conjunction with the Business Men's Association, the Club distributed some 60,000 pieces of literature, relating to Reno and the State, during July, 1910.

Commended the building of a railway connecting Reno with Lake Tahoe.

After making a thorough investigation of the affairs of the Nevada Sugar Company, the Club has co-operated with the Board of Directors of the Sugar Company in building the sugar factory at Fallon. This is an industry that will be most beneficial to the State, and its success means the building of many others.

The Club is in active co-operation with all national organizations of the Union on economic and industrial matters.

It has used its best efforts to have the following industries located at Reno, namely:

Western Woolen Mills and Scouring Plant.

Northwesters Art Glass Company

Wet Block Concrete Company.

Riverside Brass Foundry Company.

A smelter (with individual subscriptions to same).

Steelite Powder Company.

Paper Box Factory.

Glass Works.

Silk Factory.

Knitting and Hosiery Mills.
 Industrial Alcohol Distillation Plant.
 Canneries.
 Cracker Factory (now in operation).
 Sanitarium.
 Modern Buildings for Business.
 Homes for Renting and Sale.
 Chicken Farms.

The Club's efforts are continually directed to the encouragement of new enterprises, the investment of capital and the immigration of settlers on the agricultural lands of the State.

Delegates from the Club attended the Trans-Mississippi Dry Farming Congress at Cheyenne, Irrigation Congress at Spokane, first Conservation Congress at Seattle, twelfth annual session of American Mining Congress at Goldfield, American Mining Congress at Los Angeles, the National Irrigation Congress at Pueblo, and the Western Development Association at Portland, Oregon.

The following Commercial Clubs are now in affiliation with the Reno Commercial Club, namely:

Commercial Club of Portland, Oregon.
 Commercial Club of Tacoma, Washington.
 Commercial Club of Salt Lake City, Utah.
 Commercial Club of Boise, Idaho.
 Commercial Club of San Francisco, California.
 Commercial Club of Kansas City, Missouri.
 Commercial Club of Oklahoma City, Oklahoma.
 Commercial Club of Minneapolis, Minnesota.
 Commercial Club of Omaha, Nebraska.
 Commercial Club of Fargo, North Dakota.
 Commercial Club of Indianapolis, Indiana.
 Colorado Traffic Club of Denver, Colorado.
 The Business Men's Club of Toledo, Ohio.
 Weber Club of Ogden, Utah.
 Sagebrush Club of Carson City, Nevada.
 Commercial Club of Cedar Rapids, Iowa.

The following Reso Associations hold their meetings in the club-rooms:

Washoe County Medical Society.
 Fish and Game Society.
 Business Men's Association.
 The Wholesale Merchants.
 The Retail Grocers' Association.
 Nevada Poultry Association.

Gave its hearty and loyal support for the holding of the Panama-Pacific Exposition at San Francisco in 1915.

STREETS OF RENO

Following will be found a complete list of the streets and avenues of Reno. The city has the 100 to the block system of numbering and for the purpose of uniformity all numbers on streets running east and west commence at Virginia street, the prefix E or W indicating whether the number on any such street is east or west of Virginia street. Streets running north and south are similarly divided by the Truckee river, N or S being used to show which side of the river the street number is on. There are many short streets that neither cross Virginia street nor the river, and of course there is no prefix necessary in giving the numbers on these streets.

- AITKEN ST—From Truckee st E to city limits; 3rd st S of river.
- ALAMEDA AV—From S P Ry track N to city limits; 8th st E of Virginia
- ALVARO ST—From 6th st N; 9th st W of Virginia st

Pay 17 Cents a Day And Own The Printype Oliver Typewriter

IMPORTANT: The introduction of the Printype Model came as the climax to our great advertising campaign in which we offered The Oliver Typewriter No. 5 on the 17-Cents-a-Day Purchase Plan. For months past we have devoted all our advertising announcements to the new Printype Oliver Typewriter, with its revolutionary improvement in typewriting type.

The impression has gained ground that the 17-Cents-a-Day Purchase Plan does not apply to the Printype Model. In some instances the idea prevails that we can even charge extra for the Oliver Typewriter equipped with Printype.

We desire to state with all possible emphasis that The Printype Oliver Typewriter can be purchased on the "17-Cents-a-Day" Plan at the regular price of \$100.

THE MACHINE THAT "TYPE- WRITES PRINT!"

America rings with praise for The Printype Oliver Typewriter—the first writing machine that successfully TYPE-WRITES PRINT.

This remarkable machine combines all the operative conveniences, all the practical improvements of the most highly perfected typewriter, with the type that from time immemorial has been used for magazines and books.

It is infinitely superior to the old style, thin outline Pica typewriter type—a fact which none will deny. It ranks in importance with visible writing, which the Oliver introduced.

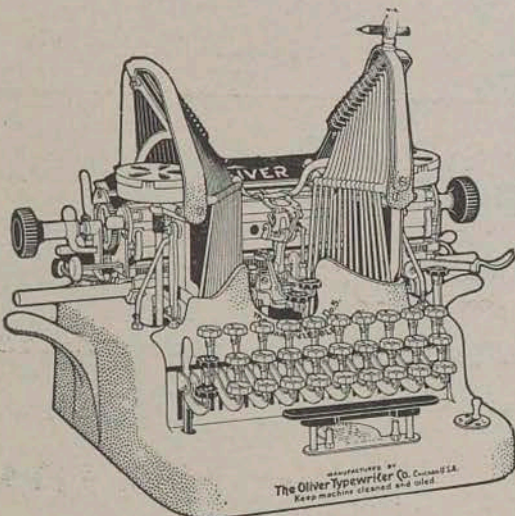

The preference of typewriter buyers is so overwhelming in favor of Printype that already over 70 per cent of our total output are "Printypes."

The advantages of Printype are self-evident. The story is told at a glance.

Its beauty, its symmetry, its clearness and character lend a new distinction to typewritten correspondence.

PRINTYPE INCREASES SPEED

Not only does Printype enhance the artistic appearance of typewritten matter, but it enables the operator to attain greater speed, as the type is so easy on the eyes. It relieves the tension on the nerves and thus gives wings to the fingers.

The OLIVER Typewriter

The Standard Visible Writer

With all its commanding advantages from purely mechanical standpoint, and its new artistic triumph, its supremacy is unquestioned. Its simplicity, versatility and extreme durability all revolve around the great basic feature—THE OLIVER DOUBLE TYPE-BAR.

Without this Double Type-Bar the successful use of Printype would be absolutely impossible.

"17-Cents-a-Day" Plan

This machine—THE PRINTYPE OLIVER TYPEWRITER—offered on the famous "17-CENTS-A-DAY" PLAN—has all the improvements, all the exclusive features which our experts have developed. It has the Vertical and Horizontal Line-Ruling Device, the Disappearing Indicator, the Back Spacer, the Tabulator, the Adjustable Paper Feed, the Double Release, the Automatic Spacer, the Locomotive Base and many other innovations which contribute to high efficiency. It operates with the lightest touch and, of course, writes in sight.

Why Don't You Write Us Today?

How can you resist the attractions of "Printype" and the appeal of the "Penny Plan?"

Here is the world's greatest writing machine—THE PRINTYPE OLIVER TYPEWRITER—the standard visible writer—the regular \$100 machine—ACTUALLY OFFERED FOR PENNIES.

A small first payment brings The Printype Oliver Typewriter. Then you save 17 cents a day and pay monthly.

Your request will bring the special Printype Catalog, the details of the Penny Plan and a letter written in Printype. Whether you are "Commander-in-chief" of a business or a private in the ranks, you will be greatly interested in the literature we will send you.

The Oliver Typewriter Co.

When you think of Wine—Pure Wine—think of

The Alpine Winery

IT'S THE PLACE

Wholesale and Retail

Owing to the fact that we make our own wines, are able to give better prices than any other house in Nevada. The quality too, can always be depended upon. We suggest that you try our special brand—the Mendose Wine. It's a red wine of the highest quality, neither too sweet nor too sour—Just the thing for table use.

The Southern Pacific

Company's rails pass through Nevada; they are laid on the shortest, best and most natural route from the Pacific to the Atlantic. It is second to no Railroad in America. To live on the line of the greatest of all Transcontinental Railroads means much.

The Southern Pacific company paid out \$75,000 in 1911, advertising Nevada, the result of which will be felt in 1912.

For Rates, FREIGHT or PASSENGER, apply to Agents or the

District Freight and
Passenger Agent

RENO, NEV.

Report compiled by the railroads show that during 1911 not a single passenger was killed on the Union Pacific, Southern Pacific or Southern Railway lines in Nevada a total of 17,100 miles. During that period there was carried on those lines an aggregate of 41,441,700 passengers, or, in other words, 1,460,000,000 passengers were carried one mile. This is the result of strictly first class service and other services, and is believed to have no parallel in the railroad world—see Standard 1912.

For knowledge about a trip to Reno
look up New Orleans and Ocean
City. IT TAKES NO MORE.

DR. T. H. WESTERN

EUROPEAN OPTICIAN

- ☞ Do not neglect your eyes.
- ☞ I give a thorough scientific examination and supply correct lenses.
- ☞ Frames accurately fitted for the most difficult cases.
- ☞ Consult me if others have failed to give you proper relief.
