Kellyville

Don't be buncoed by buying small tracts of land around Reno without free water and ditches. Kellyville is the only tract of land that has been correctly and officially subdivided. In this tract we will sell you five (5) acre tracts, with free water and ditches, and a good title.

Kellyville is just one mile East from our office. You can grow all kinds of grains and hay on this land; no better under the sun to grow small fruits or berries. Potatoes in abundance can be grown on this land. Tracts also for ideal chicken ranches. This is a chance in a life time for a poor man to become a country gentleman, and still do business in Reno. Kellyville is only a ten minute walk or a five minute drive from the heart of the city. We will make the proper terms to the proper people. A new school house will be built at Kellyville this fall. The best drinking water can be obtained at nominal cost. We also handle the best of city property. Bonds bought and sold. For all information call on us.

CITY OF RENO

A progressive City of 12,000 inhabitants, situated in Washoe County, in the extreme western part of the State of Nevada.

For several years past Reno has been growing in population with astonishing rapidity, numbering in 1900, 4500 people, reaching in 1906, in the short space of six years, the sum of 12000, proving its wonderful growth and desirability for home seekers.

The City is not excelled by any municipality in the West in police and fire protection, lighting and electrical power facilities and climatic conditions.

Reno is divided by the Truckee river, which affords an adequate supply of water for domestic and irrigating purposes the year round, making farming an important industry in its vicinity.

The City is also endowed with an excellent Public School system; and for the higher branches of education what better facilities have we in America than the Nevada State University with its spacious and commodious quarters and competent instructors?

Reno is the Metropolis of the State of Nevada, being to Nevada what Denver is to Colorado; and taking into consideration the daily discoveries of fresh gold deposits in the heart of the State, the influx of people traveling to and from the mineral centers, Reno with its healthful climate, general attractiveness and progressiveness, is destined to be one of the leading Cities of the West.

STREET GUIDE

AND

*Key to numbering as adopted by the Council of the City of Reno.
A complete Directory of all the streets in the City and
how to find them.*

The dividing line for streets running North and South is the Truckee river. Where streets extend across the river, that part lying South of the river is indicated by S, and that part lying North is indicated by N, viz. S. Virginia St. means Virginia St. south of the river, and N. Virginia St. means Virginia St. north of the river. The dividing line for streets running East and West is Virginia St. Where streets extend across Virginia St. that part lying East of Virginia St. is indicated by E, and that part lying West is indicated as W, viz. E. 4th St. means 4th St. east of Virginia St. and W. 4th St. means 4th St. West of Virginia St. 100 numbers or such part of 100 as is necessary are used for each block. Consequently 700 S. Virginia indicates that the house is 7 blocks south of the Truckee river on Virginia St., and 700 N. Virginia indicates that the house is 7 blocks

RENO STEAM LAUNDRY

Ladies and Gents Fine Work a Specialty

north of the river on Virginia St. Where streets do not extend across the river nor across Vir. St. N, S, E, or W is not indicated, as in the case of Sierra St; there being no S. Sierra it is not necessary to use N. Sierra St.

Safeguard Your Interests

SUPPOSE: If you were to build a house, would you attempt to put the roof on before you had prepared the foundation? This may seem a foolish question to ask conservative business men, yet many pursue methods equally as foolish.

Many buy real estate or lend money on real estate security without giving a single thought to title. Many invest money in mining claims to learn later that their location is on land patented to the Railroad or some individual, and their improvements and investment have inured to another's benefit. Some buy farm land, a part of which may consist of one or more unpatented "forties," when it becomes necessary to secure title from the government. Some buy realty which has a cloudy or imperfect title owing to some estate being improperly probated, or perhaps all the parties required by law were not joined in some foreclosure proceeding or maybe a married woman did not join in the deed, or properly acknowledge a transfer of homestead property as required by the laws of this state. In fact, for many reasons, a title may be cloudy or even worthless, so before closing your next deal, insist that the vendor or mortgagor furnish you with our abstract of title, and then don't part with your good money until your attorney has examined the abstract and told you that the title is good.
