# INTRODUCTION

This is the second edition of R. L. Polk & Co's Reno, Sparks, Washoe County & Carson City Directory and it is presented with the assurance that the information will be found as complete as is possible to make a work of this kind.

This volume contains by actual count 5,938 names and by using the multiple of 2, which is the usual number used in estimating the number of inhabitants, gives Reno a population of 11,876, or nearly 1,000 more than we estimated the population to be in our 1913-14 edition.

Reno is the county seat of Washoe County and the metropolis of the State of Nevada. It is situated on the east base of the Sierra Nevada mountains at an elevation of 4,500 feet and is 244 miles east of San Francisco and 576 miles west off Salt Lake City. It is on the main line of the Southern Pacific and is the terminus of the Virginia & Truckee R. R. running to the south and the Nevada, California & Oregon R. R. running to the north.

It is a live enterprising city with all modern improvements consisting of an electric street railway, gas, water, electric and power facilities; public and private schools; churches of all denominations; hospitals; clubs, commercial and social; a public library; Y. M. C. A.; theatres, good hotels and restaurants.

We wish to extend our sincere thanks to our many patrons and others who have so kindly assisted us in gathering together the needed information for this directory and for the loyal support given us and we promise to publish the next edition of this work containing the various changes, additions and such other improvements one year hence.

We wish to call your attention to the fact of our having established an up-to-date library in connection with the Reno Commercial Club for the free use of our many patrons and friends and we will appreciate your making a liberal use of these books. We will also have a copy of the Reno City Directory placed in the Directory libraries of all the principal cities in the United States in keeping with our exchange system. This in itself is quite an advertisement for any city and the loyal support given us by the Reno business and professional men make it possible for Reno to be placed with other cities we publish on this Library Exchange list.

## RENO STREET AND AVENUE GUIDE

(Copyright Secured 1916).

### EXPLANATORY.

Following will be found a complete list of the streets and avenues of Reno. The city has the 100 to the block system of numbering and for the purpose of uniformity all numbers on streets running east and west commence at Virginia street, the prefix E or W indicating whether the number on any such street is east or west of Virginia street. Streets running north and south are similarly divided by the Truckee river, N or S being used to show which side of the river the street number is on. There are many short streets that neither cross Virginia street nor the river, and of course there is no prefix necessary in giving the numbers on these streets. ## Names Appearing in Black Letters

in this Directory represent the **ENERGY AND PUSH** of the city, and it is a pleasure for the publishers of the Directory to have the opportunity to make the public acquainted with them through our pages. Those in **BLACK LETTERS** are the people who **ACCOMPLISH THE WONDERS** in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city. They are **NOT DRONES** and **SPONGES** who never support anything, and thereby gain by others' hard work and money. When you **PATRONIZE THOSE IN BLACK LETTERS** you patronize men and firms who will patronize you in the same broad manner in which you patronize them.
