INTRODUCTORY

This is the first edition of R. L. Polk & Co.'s Reno, Sparks and Washoe County Directory, and it is presented with the assurance that the experience of more than forty years in this line of work has been used to advantage in the compilation of this volume.

The general features of the work consist of a Reno Street Guide, a department of Miscellaneous Information, an Alphabetical List of Reno followed by that of Sparks and the other postoffices and stations in Washoe County. Following this is a list of Farmers and Land Owners in Washoe County and a complete Classified Business Directory. Attention is called to the General Index (opposite) which will be found helpful in looking up any desired information.

To the many friends who have kindly furnished needed information and to the business men who have stood by us so loyally in this publication, we return our hearty thanks, and promise on our part that we will publish the Directory regularly hereafter, with such improvements from time to time as the wants of our patrons may require.

RENO

Situated on the banks of the beautiful Truckee River is Reno, the county seat of Washoe County. The largest city in Nevada and the business metropolis of Nevada, Eastern California and Southeastern Oregon. It is on the main line of the Southern Pacific Ry and is the terminus of the Virginia & Truckee Railroad running to the south, and the Nevada, California & Oregon Railroad running to the north.

The financial center of the State, Reno is a live, bustling city with all modern improvements, electric street railways, gas, water, electric light and power, telephone and telegraph service, sewers, fine public buildings, unexcelled public schools, churches, public library, theatres, good hotels, restaurants and department stores. The State University is located here, connected with which is the College of Agriculture and the Experiment Station Farm.

Street railways connect Reno with the railroad town of Sparks, which has a monthly payroll of \$140,000; also with the various resorts noted for their baths and medical springs.

Reno is surrounded by a large agricultural district with surface water rights, and is the center of the great mining industry of Nevada, a state famous for its precious metals.

Reno has an enterprising Commercial Club, embracing the social features, numbering over 200 members, composed of the leading merchants, financial and professional men of the city and state. Its activities are not confined to Reno; its policy and work being to promote and foster the commercial, industrial, moral and social welfare of the state at large as well. In all matters for the common good, the club is constantly active and its efforts are continually directed to the encouragement of new enterprises, the investment of capital and the immigration of settlers on the agricultural lands of the state.

The population of Reno and environs, estimated from the names contained in this section of the book is 10938.

VOL. 1913-1914 I.

RENO STREET AND AVENUE GUIDE

(Copyright Secured 1913.)

EXPLANATORY.

Following will be found a complete list of the streets and avenues of Reno. The city has the 100 to the block system of numbering and for the purpose of uniformity all numbers on streets running east and west commence at Virginia street, the prefix E or W indicating whether the number on any such street is east or west of Virginia street. Streets running north and south are similarly divided by the Truckee river, N or S being used to show which side of the river the street number is on. There are many short streets that neither cross Virginia street nor the river, and of course there is no prefix necessary in giving the numbers on these streets. Note—The word "Street" is understood.

What Health and Accident Insurance in the Continental Casualty Company Means to You

A serene mind in the face of certain bodily injury or sickness; immeasurable comfort in the thought of doctor's fees paid, hospital bills defrayed, a comfortable weekly income until you can return to work, a snug fortune for the loss of a limb, independence for your family should your injuries prove fatal.

A few cents a day pays for it--You can't afford to be without it.

Names Appearing in Black Letters

in this Directory represent the ENERGY AND PUSH of the city, and it is a pleasure for the publishers of the Directory to have the opportunity to make the public acquainted with them through our pages. Those in BLACK LETTERS are the people who ACCOMPLISH THE WONDERS in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city. They are NOT DRONES and SPONGES who never support anything, and thereby gain by others' hard work and money. When you PATRONIZE THOSE IN BLACK LETTERS you patronize men and firms who will patronize you in the same broad manner in which you patronize them.
