SUBJECT: Inventory

DATE: May 16, 1980

On May 6 and 7 George Fairchild and I inventoried the Fish Creek Herd Area near Eureka. The inventory was conducted in a B-1 Helicopter from El Aero with Jim Hicks as pilot.

Weather conditions were fair to poor, due to thunderstorms, sporadic rain, and low clouds. Very little flying was done on top of Ninemile, and some horses were probably missed there.

15' Quads were used to record horse numbers and locations, and are attached for reference. The following is a breakdown by 15' Quad of the horses counted.

<u>Quad</u>	<u>Mature</u>	<u>Colts</u>
Cockalorum Wash	143	23
Bellevue Peak	485	61
Moody Peak	101	11
Whistler Peak	39	7
Pinto Summit	26	8
Bartine Ranch	3	0
	<u>797</u>	<u>110</u>
