JUN - 9 1986

From: Supervisory Range Conservationist

Subject: Addendum to Wild Horse Census of the Fish Creek Herd Use Area -
September 21, 1982

On June 3, 1986, I reviewed the wild horse count maps for the Fish Creek Herd Use Area and compiled a more detailed listing of horse numbers by allotment and area of use as follows:

<u>Allotment/ Area of Use</u>	<u>Horses Inside HUA (Adults/Colts)</u>	<u>Horses Outside HUA (Adults/Colts)</u>	<u>Total</u>
LUCKY C			
Lone Mountain ¹	11/1	0	11/1 = 12
Antelope Subunit ¹	47/3	4	51/3 = 54
		Subtotal	66
FISH CREEK RANCH			
Antelope Subunit ²	68/6	37/4	105/10 = 115
Little Smoky Subunit ²	149/11 ³	13	162/11 = 173
		Subtotal	288
ARAMBEL	75/17	0	75/17 = 92
		Subtotal	92
TOTAL	350/38 = 388	54/4 = 58	404/42 = 446

- 1 The Lone Mountain subunit is separated from the Antelope subunit by the fence along U.S. 50.
- 2 The Antelope subunit is separated from the Little Smoky subunit by the watershed divide of the Fish Creek Mountains.
- 3 The Moody Peak Map is missing in the files, with a note on an adjoining map which says there were 85 adults/6 colts counted on the Moody Map. The Little Smoky subunit includes these numbers.
