There is no change in the total number of animal unit months of specified livestock grazing, authorized period of use, kind of livestock, or other terms and conditions for this permit.

The Clifton and Rawe Peak allotments are "M" (maintain) allotment. Portions of both allotment are within the Pine Nut HMA. Allotment evaluations were completed in 1995. A Multiple Use Decision for both allotments and Pine Nut HMA was issued in 1995. The allotment is within the Pine Nut Wildlife Habitat Management Plan, 1987. There is no change in the total number of animal unit months of specified livestock grazing, authorized period of use, kind of livestock, or other terms and conditions for these permits.

The Stockton Flat allotment is a category "C" (Custodial). This allotment does not contain or include any portion of a wild horse herd management area. There is no change in the total number of animal unit months of specified livestock grazing, authorized period of use, kind of livestock, or other terms and conditions for this permit.
