SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

Garfield Flat Wild Horse Removal (Carson City District)

The work consists of helicopter capture of 425 head of wild horses from areas located just southeast of Hawthorne, Nevada (see attached map). In addition, the contractor shall provide transportation of captured horses from the capture site to a temporary holding facility within or near the gathering area (as agreed upon by the COR/PI and the contractor). The holding facility shall be on public land unless an agreement is made between the contractor and a private land owner for use of private facilities. When private land is used, the Contractor must guarantee BLM and the public access to the facility and accept all liability for use of such facilities. The contractor shall provide all feed, water, labor and equipment to care for captured horses at the holding facility; and transportation of captured horses from the temporary holding facility to the Nevada Distribution Center, Palomino Valley (Reno), Nevada. All work will be done according to the following specifications and attached work location map. All labor, vehicles, helicopters, traps, troughs, feed, temporary holding facilities and other equipment, including but not limited to the aforementioned, shall be furnished by the contractor. BLM will furnish only contract supervision and radio equipment for air to ground communications.

INFORMATION FOR BIDDING PURPOSES

The most recent census of wild horses in the Garfield Flat Herd Use Area (HUA) was conducted on September 15, 1983. The estimate of the population was based on marked/resighted animals to obtain a Lincoln-Peterson Estimate. The count resulted in 538 head of wild horses being counted, however, only 57 of 61 marked animals were resighted. Therefore, the population at that time was estimated at 585 head. The rate of increase for this population has been calculated at 12%. The current population is estimated at 655 head.

Detailed Specifications

- 1. Roundup procedures within contract area:
 - a. Work will be suspended on March 1, 1985, due to the foaling period. Work will restart on July 1, 1985, to capture the remaining number of horses needed to fulfill this contract.
 - b. Horses will be gathered from locations within the gathering area as directed by the Contracting Officer's Representative (COR) or the Project Inspector (PI).

SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT (cont'd)

- c. Horses will not be gathered when a combination of temperature, humidity, distance to the trap site, and terrain causes undue stress and fatigue to the horses as determined by the COR or the P.I.
- d. The work will be limited to 12 hours per day including loading time. (See Section H, page 18, paragraph entitled "Work Hours".)
- e. No fence modification will be made without authorization.

Helicopter and Pilot:

The helicopter(s) and pilot(s) furnished by the Contractor shall be certified under provisions of FAR, Part 135, "Air Taxi Operator/Commercial Operators." His operations specification shall authorize operation of the category and class of aircraft and conditions of flight required under this contract and both the aircraft and pilot must be carded by the Office of Aircraft Services, Department of the Interior. Further, under the terms of 43 CFR 4730 7-2, the contract shall be governed by the following reservations and restrictions: 1 2

The Contracting Officer's Representative (COR) and/or the Project a. shall have the means to communicate with Inspector (PI) the pilot and be able to direct the use of the helicopter at all times. The frequency(s) used for this contract will be 122.9 MHz. The Contractor shall furnish a VHF/AM radio transceiver operating on a frequency of 122.9 MHz, (or 122.85 MHz, or other available air-ground FAA frequency) installed in the support truck. The same frequency shall be available in the helicopter VHF/AM airways communication radio. A company owned FM radio system in the support truck and the helicopter may be used in lieu of the VHF/AM system. The Contractor shall obtain the necessary FCC licenses for the radio system used. If the contractor is unable to communicate on this frequency(s) through the aircraft VHF/AM transmitter/receiver, or does not have a company owned FM system, the Government shall furnish a "slip in" portable radio. The Government radio will be:

Manufacturer: G.E. Model: HN-56 Porta-Mobil II

(Special requirement for "slip-in" VHF/FM portable radio.) The transmitter selector system shall supply microphone excitation voltage (talk-voltage) (from the aircraft 28-volt DC system through a suitable resistor network) to the microphone jack for the "slip-in" portable radio ("Forest Net" or FM-II) transmit positions. A blocking capacitor shall be provided to separate the aircraft microphone excitation

Both the pilot(s) and helicopter(s) shall have valid federal, state, and local certificates and permits.
- c. The proper operation service and maintenance of all helicopters is the responsibility of the contractor. The Bureau of Land Management reserves the right to remove from service pilots and helicopters which, in the opinion of the Contracting Officer, COR or Project Inspector, violate contract rules, are unsafe or otherwise unsatisfactory. In this event, the contractor will be notified in writing to furnish replacement pilots or helicopters, as the case may be, within 48 hours. All such replacements must be approved, in advance of operation, by the Contracting Officer or his representatives.

After award of contract, and prior to start of work, inspection of Contractor's helicopter, pilot, relief pilot or pilots and service facilities may be made. The inspection will take place at the designated base of operations or such other location as may be approved by the Contracting Office. Each pilot shall, at the discretion of the Contracting Officer, pass an agency flight evaluation check in make and model of helicopter supplied by the contractor at no expense to the Government. The contractor shall make available an aircraft of the make and model to be used in this contract with dual controls for this evaluation.
- g. Substitution of helicopter and pilot During the period of this contract, the contractor may furnish substitute helicopters and pilots. Department of the Interior form DI-83, Notice of Assignment, and Form DI-84, Instrument of Assignment shall be used by an assignce when complying with the requirements in FAR 32.803(e). SECTION I - CONTRACT CLAUSES (continued)

SERVICE CONTRACT ACT OF 1965, AS AMENDED

(a) This contract is subject to the Service Contract Act of 1965, as amended (41 U.S.C. 351 et seq.) and is subject to the following provisions and to all other applicable provisions of the Act and regulations of the Secretary of Labor issued thereunder (29 CFR Part 4).

(b) (1) Each service employee employed in the performance of this contract by the contractor or any subcontractor shall be paid not less than the minimum monetary wages and shall be furnished fringe benefits in accordance with the wages and fringe benefits determined by the Secretary of Labor or authorized representative, as specified in any wage determination attached to this contract.

(2) (i) If there is such a wage determination attached to this contract, the contracting officer shall require that any class of service employee which is not listed therein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed class of employees shall be paid the monetary wages and furnished the fringe benefits as are determined pursuant to the procedures in this section. (The information collection requirements contained in the following paragraphs of this section have been approved by the Office of Management and Budget under OMB control number 1215-0150.)

(ii) Such conforming procedure shall be initiated by the contractor prior to the performance of contract work by such unlisted class of employee. A written report of the proposed conforming action, including information regarding the agreement or disagreement of the authorized representative of the employees involved or, where there is no authorized representative, the employees themselves, shall be submitted by the contractor to the contracting officer no later than 30 days after such unlisted class of employees performs any contract work. The contracting officer shall review the proposed action and promptly submit a report of the action, together with the agency's recommendation and all pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. The Wage and Hour Division will approve, modify, or disapprove the action or render a final determination of the event of disagreement within 30 days of receipt or will notify the contracting officer within 30 days of receipt that additional time is necessary.

(iii) The final determination of the conformance action by the Wage and Hour Division shall be transmitted to the contracting officer who shall promptly notify the contractor of the action taken. Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination.

(iv) (A) The process of establishing wage and fringe benefit rates that bear a reasonable relationship to those listed in a wage determination cannot be reduced to any single formula. The approach used may vary from wage determination to wage determination depending on the circumstances. Standard wage and salary administration practices which rank warious job classifications by pay grade pursuant to point schemes or other job factors may, for example, be relied upon. Guidance may also be obtained from the way different jobs are rated under Federal pay systems (Federal Wage Board Pay System and the General Schedule) or from other wage determinations issued in the same locality. Basic to the stablishment of any conformable wage rate(s) is the concept that a pay relationship should be maintained between job classifications based on the skill required and the duties performed.

(B) In the case of a contract modification, an exercise of an option or extension of an existing contract, or in any other case where a contractor succeeds a contract under which the classification in question was previously conformed pursuant to this section, a new conformed wage rate and fringe benefits may be assigned to such conformed classification by indexing (i.e., adjusting) the previous conformed rate and fringe benefits by an amount equal to the average (mean) percentage increase (or decrease, where appropriate) between the wages and fringe benefits specified for all classifications to be used on the contract which are, listed in the current wage determination, and those specified for the corresponding classifications in the previously applicable wage determination. Where conforming actions are accomplished in accordance with this paragraph prior to the performance of contract work by the unlisted class of employees, the contractor shall advise the contracting officer of the action taken but the other procedures in paragraph (b)(2)(ii) of this section need not be followed.

(C) No employee engaged in performing work on this contract shall in any event be paid less than the currently applicable minimum wage specified under section 6 (a)(1) of the Fair Labor Standards Act of 1938, as amended.

(v) The wage rate and fringe benefits finally determined pursuant to paragraphs (b)(2)(i) and (ii) of this section shall be paid to all employees performing in the classification from the first day on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or finally determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract.

(vi) Upon discovery of failure to comply with paragraphs (b)(2)(i) through (v) of this section, the Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be retroactive to the date such class of employees commenced contract work.

(3) If, as authorized pursuant to section 4(d) of the Service Contract Act of 1965 as amended, the term of this contract is more than 1 year, the minimum monetary wages and fringe benefits required to be paid or furmished thereunder to service employees shall be subject to adjustment after 1 year and not less often than once every 2 years, pursuant to wage determinations to be issued by the Wage and Hour Division, Employment Standards Administration of the Department of Labor as provided in such Act.

(c) The contractor or subcontractor may discharge the obligation to furnish fringe benefits specified in the attachment or determined conformably thereto by furnishing any equivalent combinations of bona fide fringe benefits, or by making equivalent or differential payments in cash in accordance with the applicable rules set forth in Subpart D of 29 CFR Part 4, and not otherwise.

(d) (1) In the absence of a minimum wage attachment for this contract, neither the contractor nor any subcontractor under this contract shall pay any person performing work under the contract (regardless of whether they are service employees) less than the minimum wage specified by section 6(a)(1) of the Fair Labor Standards Act of 1938. Nothing in this provision shall relieve the contractor or any subcontractor of any other obligation under law or contract for the payment of a higher wage to any employee.

(2) If this contract succeeds a contract, subject to the Service Contract Act of 1965 as amended, under which substantially the same services were furnished in the same locality and service employees were paid wages and fringe benefits provided for in a collective bargaining agreement in the absence of the minimum wage attachment for this contract setting forth such collectively bargeined wage rates and fringe benefits, neither the contractor nor any subcontractor under this contract shall pay any service employee performing any of the contract work (regardless of whether or not such employee was employed under the predecessor contract), less than the wages and fringe benefits provided for in such collective bargaining agreements, to which such employee would have been entitled if employed under the predecessor contract, including accrued wages and fringe benefits and any prospective increases in wages and fringe benefits provided for under such agreement. No contractor or subcontractor under this contract may be relieved of the foregoing obligation unless the limitations of 4.1b(b) of 29 CFR Part 4 apply or unless the Secretary of Labor or his authorized representative finds, after a hearing as provided in 4.10 of 29 CFR Part 4 that the wages and/or fringe benefits provided for in such agreement are substantially at variance with those which prevail for services of a character similar in the locality, or determines, as provided in 4.11 of 29 CFR Part 4, that the collective bargaining agreement applicable to service employees employed under the predecessor contract was not entered into as a result of arm's-length negotiations. Where it is found in accordance with the review procedures provided in 29 CFR 4.10 and/or 4.11 and Parts 6 and 8 that some or all of the wages and/or fringe benefits contained in a predecessor contractor's collective bargaining agreement are substantially at variance with those which prevail for services of a character similar in the locality, and/or that the collective bargaining agreement applicable to service employees employed under the predecessor contract was not entered into as a result of arm's-length negotiations, the Department will issue a new or revised wage determination setting forth the applicable wages rates and fringe benefits. Such determination shall be made part of the contract or subcontract, in accordance with the decision of the Administrator, the Administrative Law Judge, or the Board of Service Contract Appeals, as the case may be, irrespective of whether such issuance occurs prior to or after the award of a contract or subcontract. 53 Comp- Gen. 401 (1973). In the case of a wage determination issued solely as a result of a finding of substantial variance, such determination shall be effective as of the date of the final administrative decision.

(e) The contractor and any subcontractor under this contract shall notify each service employee commencing work on this contract of the minimum monetary wage and any fringe benefits required to be paid pursuant to this contract, or shall post the wage determination attached to this contract. The poster provided by the Department of Labor (Publication WH 1313) shall be posted in a prominent and accessible place at the worksite. Failure to comply with this requirement is a violation of section 2(a)(4) of the Act and of this contract. (Approved by the Office of Management and Budget under OMB control number 1215-0150.)

(f) The contractor or subcontractor shall not permit any part of the services called for by this contract to be performed in buildings or surroundings or under working conditions provided by or under the control or supervision of the contractor or subcontractor which are unsanitary or bazardous or dangerous to the health or safety of service employees engaged to furnish these services, and the contractor or subcontractor shall comply with the safety and health standards applied under 29 GFR Part 1925.

(g) (1). The contractor and each subcontractor performing work subject to the Act shall make and maintain for 3 years from the completion of the work records containing the information specified in paragraphs (g)(1)(i) through (vi) of this section for each employee subject to the Act and shall make them available for inspection and transcription by authorized representatives of the Wage and Hour Division. Employment Standards Administration of the U.S. Department of Labor. (Sections 4.6(g)(1)(i) through (iv) approved by the Office of Management and Budget under OMB control number 1215-0017 and sections 4.6(g)(1)(v) and (vi) approved under OMB control number 1215-0150.):

(i) Name and address and social security number of each employee.

(ii) The correct work classification or classifications, rate or rates of monetary wages paid and fringe benefits provided, rate or rates of fringe benefit payments in lieu thereof, and total daily and weekly compensation of each employee.

(iii) The number of daily and weekly hours so worked by each employee.

(iv) Any deductions, rebates, or refunds from the total daily or weekly compensation of each employee.

(v) A list of monetary wages and fringe benefits for those classes of service employees not included in the wage determination attached to this contract but for which such wage rates or fringe benefits have been determined by the interested parties or by the Administrator or authorized representative pursuant to the labor standards clause in paragraph (b) of this section. A copy of the report required by the clause in paragraph (b)(2)(ii) of this section shall be deemed to be such a list.

(vi) Any list of the predecessor contractor's employees which had been furnished to the contractor pursuant to 4.6(1)(2).

(2) The contractor shall also make available a copy of this contract for inspection or transcription by authorized representatives of the Wage and Hour Division.

(3) Failure to make and maintain or to make available such records for inspection and transcription shall be a violation of the regulations and this contract, and in the case of failure to produce such records, the contracting officer, upon direction of the Department of Labor and notification of the contractor, shall take action to cause suspension of any further payment, or advance of funds until such violation ceases.

(4) The contractor shall permit authorized representatives of the Wage and Hour Division to conduct interviews with employees at the worksite during normal working hours.

(h) The contractor shall unconditionally pay to each employee subject to the Act all wages due free and clear and without subsequent deduction (except as otherwise provided by law or Regulations, 29 CFR Part 4), rebate, or kickback on any account. Such payments shall be made no later than one pay period following the end of the regular pay period in which such wages were warned or accrued. A pay period under this Act may not be of any duration longer than semi-monthly.

(i) The contracting officer shall withhold or cause to be withheld from the Government prime contractor under this or any other Government contract with the prime contractor such sums as an appropriate official of the Department of Labor requests or such sums as the contracting officer decides may be necessary to pay underpaid employees employed by the contractor or subcontractor. In the event of failure to pay any employees subject to the Act all or part of the wages or fringe benefits due under the Act, the agency may, after authorization or by direction of the Department of Labor and written notification to the contractor, take action to cause suspension of any further payment or advance of funds until such violations have ceased. Additionally, any failure to comply with the requirements of these clauses relating to the Service Contract Act of 1965, may be grounds for termination of the right to proceed with the contract work. In such event, the Government may enter into other contracts or arrangements for completion of the work, 'charging the contractor in default with any additional cost.

(j) The contractor agrees to insert these clauses in this section relating to the Service Contract Act of 1965 in all subcontracts subject to the Act. The term "contractor" as used in these clauses in any subcontract shall be deemed to refer to the subcontractor, except in the term "Government prime contractor."

(k) (1) As used in these clauses, the term "service employee" means any person engaged in the performance of this contract other than any person employed in a bona fide executive, administrative, or professional capacity as those terms are defined in Part 541 of Title 29, Code of Tederal Regulations as of July 30, 1976, and any subsequent revision of those regulations. The term "service employee" includes all such persons regardless of any contractual relationship that may be alleged to exist between a contractor or subcontractor and such persons.

B. ARITHMETIC DISCREPANCIES

 - c. Apparent errors in extension of unit prices will be corrected; and
 - d. Apparent errors in addition of lump-sum and extended prices will be corrected.

For the purposes of bid evaluation, the Government will proceed on the assumption that the bidder intends his bid to be evaluated on the basis of the unit prices, extensions, and totals arrived at by resolution or arithmetic discrepancies as provided above and the bid will be so reflected on the abstract of bids.

- It shall be the responsibility of each bidder to promptly check his own figures and advise the contracting officer of any instance where his bid as thus corrected does not represent his intentions.
