The appeal shall state the reasons, clearly and concisely, why the appellant thinks the final decision is in error. If within 30 days following receipt of the final decision by all parties, no appeals are filed, I will approve the Grazing Permit. If the final decision is appealed, you will either be granted a license reflecting your previous year's authorized use or one which reflects the enclosed permit. The option taken will depend upon whether a stay of the decision is requested and granted.

Should you wish to file a motion for stay in accordance with 43 CFR Sec. 4.21 (b)(1), the appellant shall show sufficient justification based on the following standards:

1. The relative harm to the parties if the stay is granted or denied;
2. The likelihood of the appellant's success on the merits;
3. The likelihood of immediate and irreparable harm if the stay is not granted;
4. Whether the public interest favors granting the stay.

The appellant requesting the stay bears the burden of proof to demonstrate that a stay should be granted. As noted above, the petition for stay must be filed in the office of the authorized officer.

Sincerely,

Curtis G. Tucker  
Field Station Manager

Subject: 10 Year Uvada/Black Hills Allotments

Dear Mr. Tucker:

Thank you for considering the concerns of the Commission regarding the issuance of a 10 year grazing permit for the Uvada and Black Hills Allotments. Implementation of your land use plan is your obligation and duty to protect natural resources.

The additional terms and conditions better reflect the grazing limitations of these allotments. We support the use of key species, key management areas and allowable use levels for the determination of carrying capacities and the allocation of forage.

We look forward to working with the Caliente Field Office in the near future.

Sincerely,

A handwritten signature in cursive script that reads "Catherine Barcomb".
