The impacts of livestock grazing under these terms and conditions have been analyzed in the Caliente Environmental Impact Statement.

If we propose to change the terms and conditions of these grazing permits, following the comment period, we will keep you and other interested parties informed. If we determine that it is necessary to offer you this permit via proposed decision, it will be sent to the interested public and will include a 15-day period for protest and a 30-day period for appeal.
