BUREAU OF LAND MANAGEMENT

Ely District Office
Star Route 5, Box 1
Ely, Nevada 89301

March 5, 1979

Mrs. Dawn Lappin, Chairman
WHOA
P. O. Box 555
Reno, Nevada 89504

Dear Mrs. Lappin,

I wish to thank you for your fine comments concerning the Monte Cristo roundup and it was a pleasure to have you in attendance. We feel we have the expertise and professionalism within the Ely District not only to develop and implement wild horse management plans of excellent quality, but also to conduct wild horse roundups in a most efficient manner.

I had the understanding that the Portuguese Spring situation was fully explained to you by Tooter Burdick, Egan Resource Area Range Rider; and Steve Sherman, Egan Resource Area Manager, during the Monte Cristo roundup. However, since there appears to be continued confusion, I hope the following explanation will clear up the matter. Portuguese Spring was apparently fenced 2 years ago with one strand of heavy gauge smooth wire, the wire is no longer up and there is unrestricted access for wild horses, cattle, and wildlife to the water. As soon as road conditions permit I will have one of my resource area people totally remove the wire from the site.

I also must challenge your field reports substantiating extensive sheep use within the Chin Creek Area. The enclosed copies of Mr. Reed Robison's licenses and Mr. Ray Staley's crossing permits and attached map should give you a very good indication of the sheep utilization or lack of such utilization. Also, a recent field inspection of the area by Alden Kerr, Range Rider, Schell Resource Area, turned up no evidence of extensive sheep utilization. One trespass for sheep was issued in 1973, and a copy of the trespass and settlement is attached.

We have tried to keep your organization informed in the past out of professional courtesy, not because we felt obligated to do so. Perhaps we should have contacted you in this case, however, it was not done and we can only strive to improve our lines of communication with regards to situations of this nature.

Save Energy and You Serve America!

Mrs. Dawn Lappin
Chairman, WHOA

-2-

March 5, 1979

I will not deny the fact that we were aware of the problem, however, one must consider that there are approximately 8 millions acres within the Ely District, manpower and funding at the time was limited, particularly within the wild horse program and emergency funding was not readily available to alleviate the problem. You should be interested to know that data collection has been initiated in the area and an interdistrict (Elko and Ely) herd management plan is being developed for the Chin Creek (Ely) - Ferber Flat (Elko) area.

As provided under the Freedom of Information Act computation of charges for copies and professional records search are computed on the enclosed billing No. A075727.

I sincerely appreciate your interest and concern with regards to this matter and hope that our differences can be resolved with mutual respect and understanding of one another's position.

Sincerely,

Richard T. Watts, Manager
Egan Resource Area

If this notice relates to any lease which issued, or was extended, after July 29, 1954, or which has been made subject to the automatic lease termination provision of Public Law 555, approved July 29, 1954, upon your failure to pay the rental on or before the anniversary date of the lease (if there is no well capable of producing oil and gas in paying quantities on the leased lands) the lease will automatically terminate by operation of law.

This is a courtesy billing notice for a rental payment due. The amount shown on the bill should be verified with the terms of the lease involved. If the amounts do not agree, the amount required by the lease should be paid. If the correct amount is not paid on or before the anniversary date, the lease will terminate automatically by law.

Mr. Richard T. Watts, Manager
Regan Resource Manager
Bureau of Land Management
Star Route 5, Box 1
Ely, Nevada 89301

Ref: 1270.11
4700
(N-047)

Dear Mr. Watts:

Thank you for the copies and professional records regarding the Chir Creeks area. Enclosed is check for the charges of copying and search.

Had I had an explanation of the incident questioned at Portuguese Springs, I would not have questioned it further. I did not speak to Mr. Burdick at all in that regard and Mr. Sherman had assured me that he would get the information back to me, which he did not do. Evidently one employee does not recognize smooth wire when seen, as questioned a second time, still insists that the wire was barbed and did restrict horse utilization. Since it should not be fenced at all, we greatly appreciate your attention to its removal when conditions allow it.

The non-use looks good on paper, if voluntary, but it also points up that if he were to pick up the option to graze those allotments, along with the burgeoning horse population that the resource would be severely depleted. What happens to the horse population should he wish to utilize those allotments and what impact on the range would occur, even if the horses should be reduced to the number the District advises.

I thank you for the time and explanations.

Most sincerely,

Dawn Y. Lappin (Mrs.)
Chairman

Enclosure
