Dear Fellow Citizen:

The Lincoln County Resource Action Council will initiate a follow-up Coordinated Resource Management and Planning process on the 28 grazing allotments in the Bureau of Land Management's Caliente Planning Unit on which some intensive work was done last year. While the results of that work is valuable and will be retained, Bureau of Land Management's new direction in grazing management requires some important additional work to accomplish.

The kickoff for this process will be at 9:00 a.m. on May 16, 1981, in the Caliente Elementary School. We realize that is a weekend, but we consider this process one that all interests should have ample opportunities to participate in. I earnestly solicit your involvement.

Sincerely yours,

Lenard Smith, Chairman  
Lincoln County Resource Action Council
