Dear Respective Permittees:

Your applications for the transfer of grazing privileges have been received by this office. These include Crestline Allotment (Malin F. Gardner), Lower Lake West and Pahrnat East Allotments (Ron and Lorrie Green), Bennett Springs and Black Canyon Allotments (Bradley K. Guymon), and Bennett Springs, Black Canyon and Klondike Allotments (Thomas L. and Warren Williams), respectively. All allotments are Category "C" allotments with the exception of Pahrnat East which is Category "M". The signed "Acceptance of Terms and Conditions" forms were also received.

The new grazing regulations require the authorized officer to consult, cooperate, and coordinate (CCC) with affected permittees, the State agencies responsible for managing resources within the area, and the interested public prior to the issuance of grazing permits (43 CFR §4130.2 (b)). Therefore, a copy of this letter and a copy of the Acceptance of Terms and Conditions form will be sent to individuals, groups and organizations that have expressed an interest in the management of livestock grazing on the aforementioned allotments.

You meet all of the qualifications as grazing permittees, outlined in 43 CFR §4110.1, and this offering and issuance of each permit complies with the regulations governing issuance of permits outlined in 43 CFR §4110.2-1, §4110.2-2, and §4110.3-2.

The terms and conditions outlined in the enclosed acceptance forms, with respect to each allotment, are those which have historically appeared on previous annual licenses and permits authorizing grazing use within each of the allotments. The terms and conditions outlined are also consistent with the Caliente Management Framework Plan (MFP) and Caliente Final Grazing Environmental Statement (ES).

Environmental Assessments are in the process of being completed for issuance of each of the proposed term grazing permits. The proposed grazing use is within the array of options identified for the alternatives and proposed actions analyzed in the Caliente ES.

The Bennett Springs, Black Canyon and Klondike Allotments are located within the Highland Peak Wild Horse Herd Management Area (HMA). Desert Tortoise Habitat exists on the Pahrangat East and Lower Lake West Allotments.

If we proposed to change the terms and conditions of any of the proposed grazing permits, following the comment period, we will keep the affected permittee and other interested parties informed. If we determine that it is necessary to offer any of you a permit via proposed decision, the decision will be sent to the interested public and will include a 15-day period for protest and a 30-day period for appeal.

With respect to this letter, the interested public is being asked to provide comments by September 15, 2000. Any comments in writing should be sent to James M. Perkins, Assistant Field Manager-Renewable Resources, at the letterhead address.

If you have any questions please contact Domenic A. Bolognani, Rangeland Management Specialist, at (775) 726-8124. If you would prefer to discuss this matter in person, please call to arrange an appointment, so that we may respond to any question you have.

Sincerely,
