Commission for the Preservation
of Wild Horses and Burros
Stewart Facility
Capitol Complex
Carson City, NV 89710

Dear Ms. Barcomb:

As you and Dawn Lappin requested in your telephone conversations January 13 with Dave Stockdale, Paradise-Denio Wild Horse and Burro specialist, I am enclosing information pertaining to the Little Owyhee Desert HMA: a copy of the latest census/distribution map (7/31/91) and a map and description of the water sources. This is not a complete list of water sources, only the ones observed to date.

Also enclosed is a list of the wild horse sightings on the Paradise-Denio resource area since Dave joined the program in July 1991. This may be helpful to you; it includes not only the Little Owyhee but also the other HMAs mainly Black Rock East. Most of these records are of Dave's observations; a few are by other persons who reported them to him.

The results of this census are not included in the draft Little Owyhee allotment evaluation in the list on page 21. The 1991 count reported there of 823 animals was of a census taken in January 1991. The count in July was 856 animals (756 adults 100 foals), including four in Antelope field in the summer pastures outside the HMA. Also, the census data is for all animals (i.e. includes foals) not adult animals. There was also a census in September 1984 which counted 833 horses (total).

If you need anything else or have any questions please let me or Dave know.

Sincerely yours,

Lynn A. Clemons
Acting Area Manager
Paradise-Denio Resource Area

705 East 4th Street
Winnemucca, Nevada 89445

Dear Mr. Billing,

I have just received the information we requested on Little Owyhee regarding census/distribution and the list of water sources.

We have a concern with the way you have documented your horse numbers and have reported those numbers in your draft allotment evaluation. According to this letter dated January 14, 1992, it states that your census numbers include adult animals as well as foals (756 adults 100 foals). When documenting livestock numbers a cow and calf are reported as one animal. As has been done for the last twenty years, mares with foals at their side are to be counted as one unit. Please correct this in your final AE or adjust your livestock numbers to reflect a cow and calf as being two animals.

If you have any questions, please feel free to call.

Sincerely,

DAWN Y. LAPPIN
Director
