(NV-22.11)

**AUG 14 2001**

Dear Interested Public:

On August 13, 2001, Roger Johnson submitted a grazing application to modify his grazing permit for the Pumpnickel Allotment. As per 43 CFR 4130.3-3, the Bureau is required to consult, cooperate, and coordinate with affected permittees and interested publics prior to the modification of an existing grazing permit.

Roger Johnson is requesting the following livestock use on the Pumpnickel Allotment:

110 C 08/27 to 09/20 = 90 AUM's  
and 110 C 10/22 to 02/28 = 462 AUM's

Roger Johnson is currently permitted to use on the Pumpnickel Allotment as follows:

100 C 03/01 to 05/08 = 227 AUM's  
and 100 C 09/01 to 02/28 = 595 AUM's

Roger Johnson has requested authorization to use the area within the Pump Fire of Summer/Fall 1998. The rehabilitation efforts for the Pump Fire of Summer/Fall 1998 have been deemed a failure on Aug 6, 2001. Mr. Johnson has planned to haul water to several locations within the temporary fence to water his livestock.

If you have comments or concerns with this proposal, please contact me in writing by August 27, 2001. If comments are not received by this date, I will authorize this request. Should you have any questions please feel free to contact Everett Bartz at (702) 623-1500.

Sincerely yours,

Colin P. Christensen
