HC 30 Box 320  
Elko, NV 89801

Dear Mr. Paris:

We have reviewed your grazing permit and have found the dates shown for periods of use are not in conformance with historic use authorized on the Mitchell Creek, Pony Creek and Red Rock Allotments. The periods of use on your grazing permit should be consistent with authorized use. In order to revise your term grazing permit, we need to have the attached "Acceptance of Terms and Conditions" form signed and returned as promptly as possible. The terms and conditions include the needed changes in the season of use.

The new grazing regulations also require the authorized officer to consult, cooperate, and coordinate with affected permittees, the State agencies having lands or responsible for managing resources within the area, and the interested public prior to the issuance or renewal of grazing permits (43 Code of Federal Regulations 4130.2(b)). Therefore, a copy of this letter, the enclosed acceptance form, and a map showing the location of the Mitchell Creek, Pony Creek and Red Rock Allotments will be sent to anyone who has expressed an interest in these allotments. **The interested public is being asked to provide comment by March 17, 1997.** You will be notified of any changes to terms and conditions that may be warranted as a result of comments received.

The changes outlined in the terms and conditions reflect historic use on these allotments, are consistent with the Elko Resource Management Plan and have been analyzed in the Elko Resource Management Plan Environmental Impact Statement.

The Red Rock Allotment is within the Diamond Hills North Wild Horse Herd Area. An Appropriate Management Level (AML) has not been set for the Red Rock Allotment, however, an evaluation of the allotments in the entire Diamond Mountains area, which includes three BLM districts, is currently ongoing and will set AML and livestock stocking levels upon its completion.

If you have any questions please contact Chuck Petersen, your assigned Rangeland Management Specialist at (702) 753-0359. If you would prefer to discuss this matter in person, please call to set up an appointment with us so that we may respond to any questions you may have.

Sincerely,

CLINTON R. OKE, Assistant District Manager

Subject: Permit Issuance - Diamond Hills North HMA

Dear Ms. Hankins:

The Commission for the Preservation of Wild Horses has reviewed the notice concerning Red Rock Allotment. This allotment is within the Diamond Hills North Wild Horse Herd.

We are unaware of any multiple use decision, allotment management plan or functional equivalent for this grazing authorization. In accordance to 43 CFR 4120, additional information and consultation are required. Whether historic use is compatible with the land use plan is subject to an evaluation of monitoring data. We support the present commitment to the Diamond Mountains planning effort.

Sincerely,
