IN REPLY REFER TO:
4400.4 (NV-015)

Bertrand Paris and Sons
HC 33 Box 33840
Ely, NV 89301-9403

NOV -8 1994

Dear Mr. Paris:

An evaluation of the multiple use objectives identified for the West Cherry Creek Allotment was completed and an Area Manager's Final Multiple Use Decision issued on August 30, 1994. No appeals were received. This multiple use decision identified the management actions necessary to meet these multiple use objectives.

The enclosed grazing permit is a statement of your recognized grazing preference on the public lands administered by the BLM, and it includes the terms and conditions under which the authorized grazing use will be made. The term of the grazing permit will remain unchanged, that is, from May 19, 1986 to February 28, 1996. This new grazing permit reflects the changes identified in the Area Manager's Final Multiple Use Decision for the West Cherry Creek Allotment.

Please review the terms and conditions printed on both sides of the grazing permit. If you accept the terms, conditions, and information stated herein, please sign and return both copies to this office.

If you have any questions about this document, please contact Bruce Thompson at (702) 753-0200.

Sincerely yours,

BILL BAKER, Manager
Wells Resource Area
