		Toano		
	Pilot	Goshute	---	540
		Toano		

There is no AML shown by allotment in the Wells Area. The allotments are, for the most part, not fenced and horses move around between allotments. In the Wells Range Program Summary (RPS) we have shown wild horse AUMs by allotment but these are only estimates. Wild horse use within these allotments varies every year depending on weather, water distribution, and forage availability.

The information presented above is found in the Wells and Elko Draft and Final RMP/EISs and in the Wells RPS. The Draft and Final RMP/EISs have to be read together in order to have the advantage of all the tables and background information.

I hope this response answers your questions. If you need further information, please do not hesitate to call.

Sincerely yours,

for 
 RODNEY HARRIS
 District Manager
