Cedarville, California 96104-0460

Dear Susie,

Thank you for all of the information that you've sent us on the recent gather for Buckhorn and Coppersmith HMA's. I do appreciate all of the time you've spent not just on the phone with Roy or myself but for the understanding you've shown us for the issues.

Now that the gathers have been completed we would like to request the post gather information. At your convenience would you please provide us with the age and sex composition from the gather, both from retained animals for adoption and from the released animals.

Also, could you please provide us with the use pattern mapping data for the 7 key management areas for riparian sites that were not used by livestock for 1996 and 1997.

Thank you in advance for the above requested information. If you have any questions or if the data is not obtainable, please let me know.

Sincerely,

A handwritten signature in cursive script that reads "Cathy".
