

1989
88-89

In 1988-89 I worked at Palomares
under BLM Supervisor Fred Wyatt
and documented from the records the
death loss from helicopter capture was 15%

Mr Spang, Director NSO implemented
a Task Force of BLM employees, Milt Frie,
Dick Wheeler, Les Sweeney & myself. We went
into the field our observations were:
contractor D pushing horses too far, too fast
was

BLM employees were not sufficiently supervising
contractor. Thus a monitor helicopter was
used for several years to finite capture
processes.

Hence capture deaths were brought to
less than 2%.
