122. Allocations to States from Taylor Grazing Act (Section 15) receipts, June 28, 1934-June 30, 1975	180
123. Allocations to counties from revested Oregon and California and reconveyed Coos Bay Wagon Road and land grant funds, June 8, 1916-June 30, 1975	181
124. Amounts credited to the reclamation fund from public land sales, 1901-1975	182
Subject index	183

PART 1

LANDS OF THE UNITED STATES AND POSSESSIONS

Including Alaska and Hawaii, the gross area of the United States is 2.3 billion acres. (Less than 2 percent of this is inland water surface; see table 1.) The Federal Government has, at various times in U.S. history, held title to about four-fifths of the Nation's gross area. Today, Federal civil and defense agencies administer about 762 million acres, or about one-third of the gross area (table 7).

The Bureau of Land Management has exclusive responsibilities for about 60 percent, or 448 million acres, of Federally-owned lands (table 10). More than half of this area is in the State of Alaska.

Other major land holding agencies in the Department of the Interior include the National Park Service, Fish and Wildlife Service, and Bureau of Reclamation. The Forest Service, U.S. Department of Agriculture, has jurisdiction over 24 percent of the total Federally-owned land.

Up to the present, title to approximately 1.1 billion acres has been transferred to individual citizens, business and non-Federal governmental organizations under Federal legal authority generally referred to as the "land laws." Substantial portions, amounting to 278 million acres, were removed from Federal ownership by authority of the Homestead Laws. Another 328 million acres were granted to States to help support public schools, develop transportation systems, and for general economic development (table 4).

In western Oregon an area of 2.6 million acres comprise the O&C lands. Originally public domain, this acreage was reconveyed and revested to the United States from grants made to private concerns to construct the Oregon and California Railroad and the Coos Bay Military Wagon Road.

DEFINITIONS OF TERMS

Acquired land:

Lands in Federal ownership which are not public lands. Acquired lands were obtained by the Government through purchase, condemnation or gift, or by exchange for purchased, condemned or donated lands, or for timber on such lands.

Disposition:

A transaction which leads to the transfer of title of public lands, and/or resources upon or in these lands, from the Federal Government.

Inland water area:

Includes permanent inland water surface, such as lakes, ponds, and reservoirs having acres or more of area; streams, sloughs, estuaries, and canals $\frac{1}{8}$ of a statute mile or more in width; deeply indented embayments and sounds, and other coastal waters behind or sheltered by headlands, or islands separated by less than 1 nautical mile of water, and islands having less than 40 acres of area.

Land area:

Includes dry land and land temporarily or partially covered by water, such as marsh land, swamps and river flood plains; streams, sloughs, estuaries, and canals less than $\frac{1}{8}$ of a statute mile in width; and lakes, reservoirs, and ponds having less than 40 acres of water-surface area.

National forest:

A designated area of reserved Federal land, set aside for timber, watershed or a variety of purposes determined by the natural resource values involved and administered and managed by the Forest Service in the U.S. Department of Agriculture.

O&C lands:

Public lands in western Oregon which were granted to the Oregon Central railroad companies (later the Oregon & California Railroad Company) to aid in the construction of railroads, but which were later forfeited and returned to the Federal Government by revestment of title. The term "O&C" lands as often used includes reference also to the reconveyed Coos Bay Military Wagon Road lands, which are public lands in western Oregon that were once granted to the State of Oregon to aid in the construction of the Coos Bay Military Wagon Road, but were later forfeited and returned to Federal ownership by reconveyance.

¹ Permanent inland water surface, such as lakes, reservoirs, and ponds having 40 acres or more area; streams, sloughs, estuaries, and canals 1/8 of a statute mile or more in width; deeply indented embayments and sounds, and other coastal waters behind or sheltered by headlands or islands separated by less than 1 nautical mile of water; and islands having less than 40 acres of area. Does not include water surface of the oceans, bays, and the Gulf of Mexico, the Great Lakes, Long Island Sound, Puget Sound, and the Straits of Juan de Fuca and Georgia, lying within the jurisdiction of the United States but not defined as inland water.

² Under jurisdiction of United States in accordance with treaty of Nov. 18, 1903, with Republic of Panama.

³ Under the United States Trusteeship System with the United States as administering authority since July 18, 1947.

Granted to States for:	
Support of common schools	77,600,000
Reclamation of swampland	64,900,000
Construction of railroads	37,100,000
Support of miscellaneous institutions ³	21,700,000
Purposes not elsewhere classified ⁴	117,500,000
Canals and rivers	6,100,000
Construction of wagon roads	3,400,000
Total granted to States	328,300,000
Granted to railroad corporations	94,300,000
Granted to veterans as military bounties	61,000,000
Confirmed as private land claims ⁵	34,000,000
Sold under timber and stone law ⁶	13,900,000
Granted or sold under timber culture law ⁷	10,900,000
Sold under desert land law ⁸	10,700,000
Grand total	1,144,100,000

¹ Chiefly public, private, and preemption sales, but includes mineral entries, scrip locations, sales of townsites and townplots.

² The homestead laws generally provide for the granting of lands to homesteaders who settle upon and improve vacant agricultural public lands. Payment for the land is sometimes permitted, or required, under certain conditions.

³ Universities, hospitals, asylums, etc.

⁴ For construction of various public improvement (individual items not specified in the granting acts), reclamation of desert lands, construction of water reservoirs, etc.

⁵ The Government has confirmed title to lands claimed under valid grants made by foreign governments prior to the acquisition of the public domain by the United States.

⁶ The timber and stone laws provided for the sale of lands valuable for timber or stone and unfit for cultivation.

⁷ The timber culture laws provided for the granting of public lands to settlers on condition that they plant and cultivate trees on the lands granted. Payment for the lands was permitted under certain conditions.

⁸ The desert land laws provide for the sale of arid agricultural public lands to settlers who irrigate them and bring them under cultivation.

NOTE.—Data are estimated from available records.

¹ The following types of surveyed and unsurveyed public and ceded Indian lands are included: Areas withdrawn under the Executive Orders of November 26, 1934, and February 5, 1935 (43 CFR 2410.0-3 et seq.); areas embraced in mineral withdrawals and classifications; areas withdrawn for resurvey; and areas restored to entry within national forests (Act of June 11, 1906, 34 Stat. 233, 16 U.S.C. 506-509), within reclamation projects (Act of June 17, 1902, 32 Stat. 388), and within power site reserves (Act of June 10, 1920, 41 Stat. 1063, 16 U.S.C. 791). These lands are not covered by any non-Federal right or claim other than permits, leases, rights-of-way, and unreported mining claims.

² Data are incomplete.

³ "Land Utilization Project" lands purchased by Federal government under Title III of the Bankhead-Jones Farm Tenant Act, and subsequently transferred from jurisdiction of the U.S. Department of Agriculture to the U.S. Department of the Interior and now administered by the Bureau of Land Management.

⁴ Excludes reclamation and forest homesteads.

⁵ Includes Secretarial withdrawals under the Alaskan Native Claims Act of December 18, 1971 (85 Stat. 688) Public Land Order 5418 dated March 25, 1974, withdrawals.

⁶ Excludes approximately 23 million acres in Naval Petroleum Reserve No. 4.

⁷ Includes 2,071,997 acres O&C lands and 74,547 acres CBWR lands.

PART 2

BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS

LAND DISPOSITION AND USE

Under the nonmineral public land laws, the Bureau administers some 451 million acres of Federally-owned lands. In so doing, the Bureau issued 1,072 patents during fiscal year 1975 which transferred 806,927 acres of public lands from Federal ownership (table 15). There were also 822 original entries and selections covering 11,761,718 acres and 513 final entries covering 728,390 acres (tables 13 and 14). Patents or certificates were issued for 40 homesteads which involved 3,847 acres (table 15). The total of other patents and certifications was 1,032 and these covered 803,080 acres (table 16).

As of June 30, 1975, there were 63,283,754 acres of patented lands on which the minerals were reserved to the United States. A total of 80,945 acres was patented with minerals reserved to the United States during 1975 (table 17).

The Bureau of Land Management allowed homestead entries on 1,868 acres (table 13) during 1975 and 3,847 acres (table 15) of homesteads were patented during the same period.

In 1975, 65,310 acres of Federal lands were exchanged for 94,287 acres of State or private land (table 26).

During the same period 267,605 acres were withdrawn from all forms of entry, while withdrawals were revoked on 133,093 acres (table 27).

On June 30, 1975, there were 127 small tract leases covering 351 acres in effect. The annual rental paid to the Bureau for these leases was \$12,973; 12 of these leases covering 20 acres were issued during the past year; 26 small tracts covering 49 acres were sold in the same period (table 31).

Special land use permits covering 1,838,070 acres were in effect as of June 30, 1975. Rentals of \$229,998 were charged for 432,738 of these acres (table 32).

There were 1,341 miscellaneous leases in effect on June 30, 1975, covering 171,145 acres. The annual rental for these leases was \$247,863 (table 33).

On June 30, 1975, there were 7,525 unperfected entries pending involving 5,662,321 acres (table 23).

DEFINITIONS OF TERMS

Acquired land:

Lands in Federal ownership which are not public lands as defined below, acquired lands having been obtained by the Government through purchase, condemnation or gift, or by exchange for purchased, condemned or donated lands, or for timber on such lands.

Carey Acts:

The acts of August 18, 1894 (28 Stat. 372), and March 15, 1910 (36 Stat. 237, 43 U.S.C. sec. 643), which provide for grants of desert lands to States for disposition to bona fide settlers.

Ceded Indian lands:

Public lands, Indian tribal title to which was relinquished to the United States by the Indians on condition that part or all of the proceeds from their sale or other disposition would be covered into the Treasury in trust for the Indians.

Certification:

The act of final approval of a State selection by the Director; also, the document which passes title to the selected lands to the State; also, a document which attests to the truth or authenticity of papers attached to it.

Disposition:

A transaction which leads to the transfer of public lands and/or resources in these lands, from the Federal Government.

Entry:

An application to acquire title to public lands:

Entry allowed:

An application to acquire title to public lands which has been approved, either as an

Original entry:

Where the applicant is permitted to proceed with earning title to the land or as a

Final entry:

Where all the requirements of law and regulations have already been complied with. A final entry may be a

Cash entry:

Where the entryman pay cash or its equivalent, or a

Commuted entry:

When the entryman pays the statutory price for the lands, in consideration for reduction of residence and improvement requirements.

Entry unperfected:

An original entry has been allowed, but the entryman has not met all of the requirements of the law and/or regulations to permit him to make final entry for patent.

Exchange:

A transaction whereby the Federal Government receives land in exchange for other land and/or timber.

Private exchange:

An exchange between the Federal Government and any landowner other than a State.

State exchange:

An exchange between the Federal Government and a State.

Taylor Act exchange:

An exchange which is consummated under the provisions of section 8 of the Taylor Grazing Act.

Federal land:

All classes of land owned by the Federal Government.

Isolated tract:

A parcel of vacant public lands, not exceeding 1,520 acres, which is surrounded by appropriated lands.

Patent:

A document which conveys legal title to public land.

Pittman Act entry:

An entry of public lands in Nevada made by an individual or association of individuals who earned the right to acquire title to the lands through discovery of underground sources of water.

Public auction:

A sale of lands through competitive, usually oral, bidding.

Public land or public domain lands:

Original public domain lands which have never left Federal ownership; also, lands in Federal ownership which were obtained by the Government in exchange for public lands or for timber on public lands.

Public purpose:

Any authorized activity undertaken by a government agency or unit; also, any activity which serves the interest of the general public consistent with public policy.

Reclamation homestead entry:

An entry initiated under the act of June 17, 1902 (32 Stat. 338; 43 U.S.C., sec. 43 et seq.), which provides for the issuance of patents to entrymen who settle upon and improve agricultural public lands, not exceeding 160 acres in size, within reclamation projects.

Reclamation sale:

Sale of excess or nonirrigable public lands within reclamation projects.

Recreational entry:

A cash entry for public lands by a State, country, municipality, or other local governmental agency, or by a nonprofit organization, which are to be used for recreational purposes.

Reservation:

A withdrawal, usually of a permanent nature; also, any Federal lands which have been dedicated to a specific public purpose.

Reserved land:

Federal lands which are dedicated or set aside for a specific public purpose or program, and which are, therefore, generally not subject to disposition under the operation of all the public land laws.

Restoration:

An action, concurrent with or following a revocation, which affects the opening to disposition of public lands in a withdrawal; also, in respect to ceded Indian lands, an action which returns lands to tribal ownership.

Revocation:

Generally, an action which cancels a previous official act; specifically, an action which cancels a withdrawal.

Selection:

In general, an application to acquire title to public lands which is submitted by an applicant who acquired the right to apply for such lands by receipt of a grant surrender of his own lands in an exchange, by relinquishment of his rights to other lands (lieu selection), by surrender of scrip or by similar means.

Small tract:

A parcel of public lands of 5 acres or less which has been found chiefly valuable for sale or lease as a home, recreation, business, or community site under the act of June 1, 1938 (53 Stat. 609; 43 U.S.C. 682 a-c), as amended.

Special land use permit:

A permit which authorizes the use of public lands for purposes not specifically authorized, or forbidden, by law.

Vacant public land:

Public land or public land which is not reserved, appropriated, or set aside for a specific or designated purpose.

Withdrawal:

An action which restricts the disposition of public lands and which holds them for specific public purposes; also, public lands which have been dedicated to public purposes.

¹ Reclamation homestead.

² Includes one(1) Reclamation Homestead on Flathead Ceded Indian land, (39.19 acres), \$5.00 fee, of April 23, 1904, as amended.

³ Includes 3 entries issued under public land sale Act of September 19, 1964 (78 Stat. 988), one(1) entry in Nevada, 10 acres, \$22.50 fee, \$3,525.00 purchase money; 2 entries in Wyoming, 660 acres, \$2,920.00 purchase money.

⁴ Includes 37 entries, Act of June 14, 1926 (44 Stat. 741), as amended under the special pricing schedule; 10 entries in Arizona, 1,343.21 acres, \$100.00 fee, \$6,418.00 purchase money; 7 entries in California 11,704.70 acres, \$70.00 fee, \$2,570.00 purchase money; 4 entries in Idaho, 339.03 acres, \$8.03 purchase money, 8 entries in Nevada 881.17 acres, \$80.00 fee, \$2,465.43 purchase money; 2 entries in Oregon, 5.74 acres, \$100.00 purchase money; 3 entries in Utah, 875.74 acres, \$30.00 fee, 190.00 purchase money; 1 entry in Washington, 37.40 acres, \$93.00 purchase money; 2 entries in Wyoming 321.50 acres, \$803.75 purchase money.

⁵ Includes 15 trade and manufacturing sites, 386.72 acres, \$490.00 fee, \$2,641.83 purchase money; homesites and headquarters, 259.34 acres, \$1,130.00 fee, \$672.59 purchase money; 6 townsites, 3.44 acres, \$119.60 fee, \$1,990.00 purchase money; 10 entries under Act of August 1, 1956 (70 Stat. 3).

⁶ Mining Claims Occupancy Act of October 23, 1962 (76 Stat. 1127).

⁷ Includes 1 entry issued under the Mining Claims Occupancy Act of October 23, 1962 (76 Stat. 27), .93 acres, \$5.00 purchase money, and 1 Reclamation sale under the Act of March 31, 1950 (64 Stat. 39) 120 acres.

⁸ Reclamation sales issued under the Act of March 31, 1950 (64 Stat. 39), purchase money collected the Bureau of Reclamation.

⁹ Act of September 26, 1968 (82 Stat. 870).

¹⁰ Includes 31 entries under the Reclamation sales Act of March 31, 1950 (64 Stat. 39) 9,863.55 acres, chase money collected by the Bureau of Reclamation, 3 Unintentional Trespass sales, Act of September 26, 1968 (82 Stat. 870), 294.62 acres, \$15,908.00 purchase money.

¹¹ Includes 34 general purposes grants (637,953.43 acres) under the Statehood Act of July 7, 1958 (72 Stat. 339), 26 Native allotments, (2,083.27 acres) under the Act of May 17, 1906 (34 Stat. 197) 4 SCA Village Selections (27,954.07 acres), under the Alaska Native Claims Settlement Act of December 1971 (43 U.S.C. 1601); 1 patent (4.96 acres), under the Soldiers' Additional Homestead Law, titles 2306 and 2307, Revised Statutes (43 U.S.C. 274, 276).

¹² Includes 9 Scrip, (285.63 acres) \$90.00 fee; 1 Airport patent, (28.96 acres) \$40.00 fee; 2 Indian fee patents, (79.63 acres).

¹³ Indian allotments.

¹⁴ Includes 3 Indian allotments, (594.25 acres) and 2 Scrip (28.12 acres) \$20.00 fee.

TABLE 15.—*Patents issued, 1975—Continued*

¹ Includes 5 patents (831.22 acres) issued under Public Law Sale Act of September 19, 1964 (78 Stat. 988); 1 patent in Nevada, (10 acres); 4 patents in Wyoming (821.22 acres).

² Includes 57 millsites (271.21 acres); 56 millsites in Arizona, (266.73 acres); 1 millsite in Montana, (4.48 acres).

³ Includes 15 trade and manufacturing sites (386.72 acres), 56 headquarters and homesites (259.34 acres) under the Act of May 14, 1898 (30 Stat. 413); 6 Townsites (446.44 acres) 10 patents, (35.36 acres) issued under Public Law Order 1613, Act of August 1, 1956 (70 Stat. 898).

⁴ Mining Claims Occupancy Act of October 23, 1962 (76 Stat. 1127).

⁵ Includes 1 patent, (1 acres) under the Mining Claims Occupancy Act of October 23, 1962 (76 Stat. 1127); 1 patent, (20 acres) under the act of March 1, 1907 (34 Stat. 1052); 3 patents (119 acres) under act of September 26, 1968 (82 Stat. 870).

⁶ Includes 1 patent (.93 acres) under the Mining Claims Occupancy Act of October 23, 1962 (76 Stat. 1127) and 1 patent (120 acres), Reclamation sale under Act of March 31, 1950 (64 Stat. 39).

⁷ Reclamation Sales Act of March 31, 1950 (64 Stat. 39).

⁸ Includes 1 patent (.21 acres) under the Mining Claims Occupancy Act of October 23, 1962 and 1 patent, (40.20 acres) under the Reclamation sales Act of March 31, 1950 (64 Stat. 39).

⁹ Includes 32 patents (9,372.47 acres) under the Reclamation Sales Act of March 21, 1950 (64 Stat. 39) and 4 Unintentional Trespass Sales (259.23 acres) under the Act of September 25, 1968 (82 Stat. 870).

¹⁰ Acres not included in total, previously reported as patented.

¹¹ Includes 35 patents (15,186.99 acres) issued under the special pricing schedule, Recreation and Public Purposes Act of June 14, 1926 (44 Stat. 741); 10 patents in

Arizona (1,343.21 acres); 7 patents in California (11,704.70 acres); 4 patent in Idaho (339.03 acres); 8 patents in Nevada (881.17 acres) 2 patents in Oregon (5.74 acres); 3 patents in Utah (875.74 acres) and 1 patent in Washington (37.40 acres).

¹² General purposes grants issued under the Statehood Act of July 7, 1958 (72 Stat. 339).

¹³ Includes 26 Native Allotments, (2,083.27 acres) under the Act of May 17, 1906 (34 Stat. 197); 4 ANSCA Village Selections (27,954.07 acres) under the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601); 1 patent, (4.96 acres) under the Soldiers' Additional Homestead Law, Sections 2306 and 2307, Revised Statutes (43 U.S.C. 274,276).

¹⁴ Includes 1 Airport patent, (28.96 acres), and 9 Script, (285.63 acres).

¹⁵ School Indemnity Selection, Act of August 27, 1958 (72 Stat. 928), as amended.

¹⁶ Swamp patent - Title 43 U.S.C. 982, 983 and 984.

¹⁷ Confirmed private land claims.

¹⁸ Script.

¹⁹ Confirmatory school land patent under the Act of June 21, 1934 (48 Stat. 1185) 43 U.S.C. 871 A.

²⁰ Cemetery patent under Act of March 1, 1907.

²¹ Act of June 16, 1894 applicable to the State of Utah by Act of May 3, 1902 (32 Stat. 188).

²² This total does not include 31,348.80 acres in Indian Fee and Reissue Trust; 13,732.39 acres in Curative and Supplemental Patents; 360,790.93 acres in School Land Confirmatory patents, and 3,096.85 acres in Private Land Claims, a total of 408,968.97 acres not included in total.

Grand total	267,605	133,093

¹ Transferring jurisdiction over 434 oil and gas deposits within Fort Chaffe Military Reservation to the Department of the Interior, Public Law Order No. 5506.

² Withdrawal for preservation of historic Fort Soda and to protect an endangered specie—The Mojave Chub, Public Land Order No. 5437.

³ Withdrawals of 320 acres of national forest research natural area, Public Law Order No. 5467, and 40 acres for Atomic Energy Commission as communication site, Public Law Order No. 5489.

⁴ Withdrawal of 243,000 acres for multiple use management, Public Law Order No. 5490, and withdrawal and reservation of 160 acres for the Sprague Orchard clone storage area, Public Law Order No. 5481.

⁵ Partial revocation of 73 acres of a stock driveway, Public Law Order No. 5486.

NOTE.—Land involved is gross acreage. No distinction is made between withdrawals from all forms of use and appropriation and withdrawals from only a particular type of use. Withdrawals may be superimposed upon existing withdrawals, i.e., a reclamation withdrawal upon a national forest withdrawal. When a withdrawal is revoked, some of the lands may remain in earlier existing withdrawals. This table, therefore, is not intended to conform to tables elsewhere in this edition detailing existing acreage responsibilities of Federal Agencies. It is an indication of the volume and scope of the public land order process for the period of time covered.

Source: Public Land Order No. 5432 through Public Land Order No. 5509

Attention: This table does not include lands withdrawn under the Alaska Native Claims Settlement Act. Public Land Order Nos. 5438, 5442, 5448, 5550, 5451, 5452, 5454, 5459, 5460, 5501, 5509, all relate to actions in connection with ANCSA. Because of the overlapping withdrawals in many areas, neither the actions nor the acreages are reflected in this report.

Other public land orders covering corrective actions or actions which do not fall in the strict category of withdrawals or revocations are Nos. 5444, 5463, 5464, 5470, 5492, 5493, 5495, 5497, 5498, 5500, 5508.

TABLE 28.—Original and final desert land entries, March 3, 1877—June 30, 1975

Rental was paid on a one-time basis amounting to \$95.00.¹³ 1 Bentonite lease, 160 acres (royalty); 1 uranium lease, 2,560 acres, \$2,560.00 Reorganization Plan No. 3 of July 16, 1946 (60 Stat. 1099).

PART 2
BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS
FOREST MANAGEMENT

The Bureau of Land Management is responsible for the management, development, and protection of more than 23 million acres of commercial forest land (tables 34 and 35).

Of the total, 1,991,000 acres in western Oregon are generally recognized to be one of the Nation's most productive and valuable commercial forest properties. During 1975 approximately 1,158,660 MBF of timber, valued at \$186 million, were sold (table 38).

Over 1 billion board feet of timber, valued at more than \$192 million, were sold from the public lands during 1975 (table 42).

Reforestation accomplishments totaled 32,144 acres planted and seeded during 1975 (table 47).

DEFINITIONS OF TERMS

Allowable cut:

The volume of timber that may be harvested annually from a well managed and regulated forest property.

Access roads:

Mainline roads constructed primarily to facilitate the removal of timber from forest areas, and financed by appropriated funds.

Commercial forest land:

Lands growing stands of forest trees which possess present or potential merchantable value.

Cord:

A standard unit of measurement of round or split wood filling a stack 4 × 4 × 8 feet and occupying approximately 128 cubic feet, commonly used in measuring fuel or pulpwood.

Forest cover:

All trees and other woody plants in the forest.

Master unit:

A sustained yield operating area for which an allowable cut has been computed.

MBM or MBF of M bd. ft.:

Thousand board feet. The board foot is a unit of lumber measurement 1 foot long, 1 foot wide, and 1 inch thick, or its equivalent. It is the standard

unit of measurement in the logging and lumber industry by which standing timber is measured and sold, and manufactured lumber is merchandized.

Producing capacity:

The amount of wood fiber which forest land is capable of growing.

Right-of-way:

A permit or an easement which authorizes the use of lands for certain specified purposes, as the construction of forest access roads.

Sawtimber:

Trees that will yield logs suitable in size and quality for the production of lumber.

Set aside sales:

A timbered area designated for sale on which bidding is limited to small business concerns as defined by the Small Business Administration in its regulations under the authority of section 15 of the Small Business Act of July 18, 1958.

Sustained yield:

Management of the forest to assure continuous production with the aim of achieving, at the earliest possible time, an approximate balance between growth and harvest, either by annual or somewhat longer periods.

Woodland:

Forest lands usually supporting open-grown, widely scattered trees of marginal merchantability, and generally more valuable for watershed or wildlife protection purposes than for the production of timber for commercial purposes.

¹ Includes O&C timber on non-Federal land as follows: Columbia County, 322 acres; Yamhill County, 243 acres.

² Under the provisions of Public Law 426, 83rd Cong. approved June 24, 1954, these lands were declared to be revested O&C railroad grant lands. They were placed under the jurisdiction of the Secretary of Agriculture, to be administered with National Forest lands; *Provided*, that all revenues derived from such lands shall be handled in accordance with the provisions of Title II of the O&C Act of August 28, 1937 (50 Stat. 874) as amended by Public Law 426.

³ Certain O&C areas were set aside by various Acts of Congress to be administered by the Forest Service without losing their O&C identity. The lands in Benton, Clackamas, Jackson and Polk Counties are watershed lands, and the land in Josephine County is an administrative site.

⁴ Excludes Coos Bay Wagon Road timber on 87 acres of non-Federal land in Coos County.

¹ Includes withdrawn commercial forest land shown in footnote 2.

² Includes all lands withdrawn from planned harvesting to protect other forest values such as wildlife, fish, watershed and recreation.

³ Includes the revested O&C lands, the reconveyed Coos Bay Wagon Road lands west of Range 9 E., Willamette Meridian, under the administrative jurisdiction of the Bureau of Land Management.

⁴ Includes all timber greater than 11 inches DEH as measured by the Scribner Log Rule. Does not consider growth since the completion of the inventory.

⁵ The Allowable Cut represents the annual sustained yield productive capacity of the forest land base. It includes volumes from all forms of harvest: commercial thinning, mortality salvage and final harvest.

¹ Regular sales includes all advertised and negotiated sales, rights-of-way sales, additional sales (under terms of contract) and small sales not let under specific provisions of the Joint agreement between the Bureau of Land Management and the Small Business Administration, dated Mar. 10, 1959.

² All types of sales let under the terms of the Bureau of Land Management and the Small Business Administration set-aside sale agreement of Mar. 10, 1959.

NOTE.—This table includes data for timber sold by the Bureau of Land Management during fiscal year 1966, but the timber was not necessarily all cut,

removed, and paid for during the same period. Data does not include timber dispositions made by free use permit or sales of other nontimber forest products.

Depletable timber is that which has been included in the inventory. Nondepletable timber is that which has not been included in the inventory and usually consist of salvageable logging debris, sanitation thinnings, etc. In compiling this table, depletable timber is equivalent to the former "green timber" designation and nondepletable to "salvage timber."

Western Oregon includes the revested O&C lands, the reconveyed Coos Bay Wagon Road land and the public lands west of Range 9 E., Willamette Meridian. Eastern Oregon includes the public lands east of Range 8 E., Willamette Meridian.

¹ "Regular sales", as used in this table, means all timber sale actions not effected specifically under the terms of the set-aside agreement between the Bureau of Land Management and the Small Business Administration, dated March 10, 1959. "Set-aside sales" are all such sale actions effected under the terms of and in accord with procedures laid down by that agreement.

² Available: includes the declared allowable cut plus volume of salvage and thinning.

NOTE.—Data include only timber sold during the fiscal year (not necessarily cut) through advertised sales, negotiated sales, additional sales (under the terms of contract), rights-of-way sales, and contract reappraisals. Sales of nontimber forest products, and timber dispositions made under free use permits or affected through a trespass action, are excluded.

Western Oregon includes the revested O&C lands, the reconveyed Coos Bay Wagon Road lands, and the public lands west of Range 9 E., Willamette meridian. Eastern Oregon includes the public lands east of Range 8 E., Willamette Meridian.

PART 2

BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS

OUTDOOR RECREATION AND WILDLIFE

The Bureau of Land Management protects, preserves, and manages the public land resources, much of which is valuable for outdoor recreation and wildlife. This includes preservation, protection and enhancement of open space values, land and water resources, natural phenomena and archeological and historic values.

Because of the increasing importance of the public lands in satisfying the increased public needs and demands for outdoor recreation, BLM is maintaining an inventory system that provides statistics on the use of public lands for recreation and wildlife purposes. It includes data on visitor use of established and potential recreation sites as well as lands or sites leased to non-Federal interests for recreation purposes (tables 50, 51, 52).

Outdoor recreation

To further protection and development of the public's recreation resource, revised outdoor recreation regulations were issued in January 1969. They relate to the use and development of recreation lands and identify circumstances under which use of such lands may be restricted in order to protect the public health, safety, natural resources and values. The object of the regulations is to promote public use and enjoyment of the public lands for outdoor recreation use in the manner that will protect the health, safety, and comfort of the public and preserve and protect natural resources and values.

Recreation facilities for camping and picnicking were first constructed in western Oregon in 1960. As of 1975, 426 recreation sites had been developed on all BLM lands (table 49).

Long-term recreation objectives of the Bureau are: To provide the maximum variety and supply of quality outdoor recreation uses on the public lands commensurate with public needs and resource potentials; and to preserve and protect significant natural historic and cultural resources, and provide for their public use and enjoyment where consistent with preservation goals. Within these objectives two major programs have developed.

The public needs are reflected in the BLM's urban program which orients and increases recreation opportunity where the people are. The urban program will focus BLM's supply of public outdoor recreation in the western States and Alaska on those areas directly accessible to the 16 major areas of more than 50,000 population.

The preservation goals and protection of significant resources are reflected in BLM's preservation, protection and environment program. Environmental quality in relation to people and the Nation's natural resources are of primary importance in this program.

Through comprehensive recreation planning for the public lands it administers, BLM recognizes many different recreation values. Various opportunities associated with these values will be realized such as new camping and picnicking sites; peripheral facilities to alleviate much of the pressure on national forests and parks; development and preservation of Wild and Scenic Rivers; management responsibilities associated with the National Trails System; identification of historic and archeological sites; wildlife habitat improvement; arid land development for recreation purposes; and water-based recreation on our reservoir and rivers.

Specific recreation activities are coordinated government-wide within the framework of the Bureau's recreation programming and planning system. This provides an orderly planning process for the proper and timely utilization of the recreation resources.

Wildlife

Annually public land fish and wildlife resources contribute hundreds of thousands of dollars to sport and commercial users.

The BLM's wildlife program provides for the protection and enhancement of fish and wildlife habitat and for access to hunting and fishing areas. Rare and endangered species habitat receives priority treatment. Recreationists, hunters, fishermen, birdwatchers, and nature viewers are assisted by the Bureau's wildlife programs of nature interpretation, hunting and fishing camp development, road construction to wildlife areas, wildlife maps developed in cooperation with State game and fish agencies, directional and interpretive signing programs and wildlife habitat management and improvement. Commercial values of wildlife habitat, such as salmon spawning areas, are protected

by coordinated land planning and enhanced through positive wildlife habitat programs.

Central to the program is cooperation with State and Federal agencies engaged in the conservation and management of fish and wildlife and their habitats. State wildlife agencies are primarily responsible for the management of wildlife. The primary concern of the Bureau is for development and management of wildlife habitat. Policies and procedures for cooperation are defined in Memorandums of Understanding between each BLM State Office and State wildlife agencies.

DEFINITIONS OF TERMS

Archaeological and historical site:

Site which contains objects of antiquity or cultural values relating to history, that warrant special protection.

Buffer zone and scenic strip:

A public land area adjacent to a recreation site, road, lake, reservoir, or major stream of value for outdoor recreation. The area is important to protection of scenic beauty, vegetation, water supply, or other factors that contribute to the attraction concerned.

Family Unit:

An installation with camping, picnicking, or trailer camping facilities to serve the needs of one family-sized group.

Recreation Lands:

A tract of public land (usually several thousand acres in size) on which outdoor recreation or wildlife has been determined to be the primary use. Recreation lands may have facilities for intensive recreation use or they may remain in a relatively undeveloped condition for extensive forms of use. Where wilderness values predominate, an area may be preserved in a primitive, roadless condition.

Recreation Site:

A tract of public land, generally less than 500 acres, on which concentrated recreation use is the primary value. A recreation site may be administered by the Bureau of Land Management, or by BLM and another agency; or it may be suitable for lease or sale to State or local government or nonprofit organizations.

Recreation visit:

A visit to lands and waters under the jurisdiction of the Bureau of Land Management by a person for the purpose of engaging in any activities except those which are part of or incidental to the pursuit of a gainful occupation, whether for a few minutes or for a full 24-hour day.

Recreation visitor day:

An aggregation of 12 visitor hours, where a visitor hour is the presence of one or more persons on land and waters for outdoor recreation purposes for continuous, intermittent, or simultaneous periods aggregating 60 minutes, e.g., one person for one hour, two persons for one-half hour each, or N persons for $1-N$ hours each.

PART 2

BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS

RANGE MANAGEMENT

The range management activities of the Bureau of Land Management are carried out as one of the multiple-uses of rangelands which comprise a substantial portion of the public lands in the 11 Western States and Alaska.

The most universal use of the rangelands at this time, by livestock, wild free-roaming horses and burros, and wildlife, is the utilization of the forage produced and natural habitat provided. The Bureau administers 52 grazing districts under the authority of the Taylor Grazing Act. These districts encompass 157,282,886 acres of Federal range (table 57). During calendar year 1974, 13,774 operators (table 59) held 15,825 licenses or permits (table 60) to graze 5,265,966 livestock animals to the extent of 10,393,079 animal unit months (table 59). Gross receipts from grazing use returned to the U.S. Treasury from public lands within the districts totaled \$9,585,312. In addition, \$524,831 (table 110) was received for grazing use on 12,316,086 acres of LU lands and other reserved lands administered by the Bureau (table 57).

Public lands outside of the districts in the Western States are used for grazing purposes under authority of Section 15 of the Taylor Grazing Act. Approximately 17,144,121 acres (table 65) were leased to 7,634 operators (table 64) under 7,785 separate leases (table 65). Receipts from Section 15 grazing authorizations totaled \$1,548,804 (table 110). Under the Alaska Grazing Act, 34 leases were issued for a total of 1,361,180 acres (table 65). Alaska grazing use totaled 76,500 animal unit-months by 4,000 cattle and horses, and 2,400 sheep and goats, and reindeer (table 66).

DEFINITIONS OF TERMS

Animal unit:

A standardized unit of measurement for range livestock which is equivalent to one cow or one horse or five sheep or five goats, four reindeer all over 6 months of age.

Animal unit month:

A standardized unit of measurement of the amount of forage necessary for the complete sustenance of one animal unit for a period of 1 month; also a

unit of measurement of grazing privileges which represents the privilege of grazing one animal unit for a period of one month.

Grazing district:

An administrative subdivision of the rangelands under jurisdiction of the Bureau of Land Management, established pursuant to Section 1 of the Taylor Grazing Act, to facilitate management of their resources.

Grazing permit:

An authorization which permits the grazing of the specified number and class of livestock on a designated area of grazing district lands during specified seasons each year.

Grazing lease lands:

Lands outside grazing districts, which are owned, leased or otherwise controlled by the United States, are administered by the Bureau of Land Management, and are subject to leasing for grazing purposes under the Alaska Grazing Law of 1927, the Taylor Grazing Act of 1934, the O&C Act of 1937, or the Reindeer Act of 1937.

Grazing lease:

An authorization which permits the grazing of livestock on public lands outside the grazing districts during a specified period of time (Section 15 of the Taylor Grazing Act).

Exchange-of-use agreements:

An agreement with a rancher having control over non-Federal lands interspersed and normally grazed in conjunction with the surrounding Federal range for Bureau control and management for grazing purposes of these non-Federal lands.

Crossing permit:

An authorization issued for trailing livestock across Federal range for proper and lawful purposes.

Free Use License:

An authorization issued only for livestock kept for domestic purposes whose products are consumed or whose work is directly and exclusively used by the family of the applicant, provided further that such free use livestock will be grazed in the immediate vicinity of the applicant's place of residence. No grazing fee is charged for this authorization.

Nonuse:

An authorization issued to an applicant for nonuse of grazing privileges in whole or part and usually for one grazing season.

Wild free-roaming horses and burros:

All unbranded and unclaimed horses and burros on national resource lands managed under the Wild Horse and Burro Act of 1971 (PL 92-195).

PART 2

BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS

RESOURCE CONSERVATION AND DEVELOPMENT

Bureau of Land Management programs in resource conservation and development emphasizes the rehabilitation and development of public lands to control water runoff, to minimize soil erosion, siltation and other destructive consequences of uncontrolled water flows, and to maintain and improve the quality and quantity of surface and subsurface water. Such operations are conducted under authority of the National Soil Conservation Act, the Taylor Grazing Act, and the Multiple Use Act. A range improvement program authorized by the Taylor Grazing Act provides range use facilities to aid range management and utilization. The National Halogeton Control Act provides authority for control of poisonous and noxious weeds on the public lands.

Table 71 shows the major accomplishments under these programs during fiscal year 1975.

PART 2

BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS

MINERALS LEASED OR SOLD AND LOCATABLE MINERALS

The Bureau of Land Management administers the public mineral resources of the United States and encourages their development in accordance with statutory provisions and the principles of conservation. The lands subject to mineral development aggregate approximately 822 million acres, including the remaining public lands administered by BLM and other agencies, acquired lands, and lands which have been patented with some or all minerals reserved to the United States. Additionally, submerged lands of the Outer Continental Shelf are subject to mineral development.

Authority for disposition of mineral lands and resources is contained in the General Mining Laws of 1872, the Mineral Leasing Act of 1920, the Outer Continental Shelf Act of 1953, leasing act which pertain to acquired lands and special areas, and the Materials Disposal Act of 1947. Resulting activities are the location and patenting of mining claims; competitive and noncompetitive leasing of lands for oil, gas, potash, coal and other minerals; competitive leasing on the Outer Continental Shelf for oil gas, and other minerals; and the sale and free use disposal of mineral materials not subject to the mining or leasing laws.

The Bureau issued 30 mineral patents during 1975 covering 6,068 acres of Federal land (table 15).

A total of 50 mineral patent applications on all Federal lands was adjudicated during fiscal year 1975. Field investigation of 23 patent applications on Bureau of Land Management administered lands were made and 11 cases were recommended for allowance (table 83).

As of June 30, 1975, there were 103,762 mineral leases in effect on 81,885,130 acres of public domain lands (T. 78). There were 313 prospecting permits and coal licenses outstanding on another 733,389 acres of public lands (T. 72). Also in force were 11,892 mineral leases, licenses, and permits on 8,398,197 acres of acquired lands (T. 77). The great majority of leases, licenses, and permits are for oil and gas.

Mineral production from both public domain, acquired, and other Federal lands during fiscal year 1975 included 174,355,716 barrels of petroleum; 1,112,339,985 thousand cubic feet of natural gas; 515,529,962 gallons of gasoline and liquid petroleum gas; 50,919,472 short tons of coal, potash, and other minerals (Ts. 73, 74, and 76). In addition, 339,333,547 barrels of petroleum, 3,382,645,182 thousand cubic feet of natural gas, 1,384,739 short tons of sulfur, and 237,361 short tons of salt were produced from the submerged lands of the Outer Continental Shelf (T. 75).

A total of 702 sales of materials other than vegetal, principally mineral materials, yielded \$9,846,019 and the estimated value of material in 561 free use permits to governmental agencies and nonprofit groups amounted to \$10,731,101 during the fiscal year (T. 81).

Total receipts during fiscal year 1975 from all mineral leasing activities including rentals, royalties, and bonuses from lands and the Outer Continental Shelf conducted by the Bureau of Land Management were \$2,757,634,298 (T.110).

DEFINITIONS OF TERMS

Bonus:

The cash consideration paid to the United States by the successful bidder for a mineral lease, such payment being made in addition to the rent and royalty obligations specified in the lease.

Competitive Lease:

A lease issued by the United States where there are known minerals, or inference of probable mineralization shown can be drawn from knowledge of the geology of the land. The lands are offered for lease by competitive bidding after publication of the offer of the lands for leasing. The lease issues to the high bidder, who is determined at a sale by public auction.

Field Examinations:

An on-the-ground investigation of certain public lands in regard to valuation, land use, application for entry, mineralization, etc.

Free Use Permit:

A permit to a governmental agency or non-profit group to use mineral materials or other resources at no charge.

Lease:

A contract or instrument by which interests are created or transferred to another subject to specified obligations and given in consideration of rent or some other recompense.

License:

An authority granted by the United States to do a particular act or series of acts upon public lands without the lessee possessing any estate or interest in the land itself.

Location:

The perfecting of a right to possession of a mining claim for mining purposes. This includes the staking of the claim, sinking a discovery shaft, discovery of a valuable mineral, posting a notice of location, and recording the claim.

L.P.G.:

Liquid Petroleum Gases.

Mineral:

Inorganic substances occurring naturally, with characteristics and economic uses that bring it within the purview of mineral laws; a substance that may be obtained under applicable laws from public lands by purchase, lease or preemptive entry.

Mineral Classification:

The classification of lands as mineral lands which are lands known to contain valuable minerals.

Mineral Investigation:

Synonymous with field examination.

Mineral Materials:

Minerals such as common varieties of sand, stone, gravel, pumice, pumicite and clay which are not obtainable under the Mining or Leasing Laws but which can be obtained under the Materials Act of 1947, as amended.

Mineral Permit:

A permit which authorizes prospecting for certain leasable minerals on public land described in the permit.

Mineral Reservation:

A restriction on federally owned minerals, or of public lands which contain minerals.

Noncompetitive Leasing:

Leases are issued to qualified applicants for lands not specifically known or presumed to contain mineral or petroleum deposits in quantity.

Patent:

A Government deed. A document that conveys legal title of public lands to the party to whom the patent is issued.

Public Law 167:

(The act of July 23, 1955, 69 Stat. 357.) Provides for multiple use of mining claims, and for a procedure where the Government may determine that it has the right to manage surface resources not required for mining purposes.

Public Law 359:

(The act of Aug. 11, 1955, Stat. 681.) Provides for the location of mining claims on lands reserved or withdrawn for power or powersite purposes.

Sale of Materials:

A competitive or noncompetitive sale by contract at not less than the appraised price of materials (timber and mineral material) under the Materials Act of 1947, as amended.

PART 2
BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS
CLASSIFICATION AND INVESTIGATION

Excluding timber and grazing activities, classification and investigation cases numbered 16,685 as of July 1, 1974. Case closures during the year amounted to 25,593 but 23,972 new and reactivated cases were received throughout the year bringing the Bureau's total backlog to 15,064 cases by the end of the reporting period (table 85).

Land classification conducted under the authority of the Taylor Grazing Act covered 180 separate tracts of land totaling 69,815 acres. Of these, 49,738 acres, or 114 different tracts, were found suitable for disposition (tables 87 and 88).

DEFINITIONS OF TERMS

Classification:

The designation of lands as being valuable, or suitable, for specific purposes, uses, or resources.

Investigation:

A fact-finding activity, which may include on-the-ground examination of lands, undertaken preliminary to determination and adjudication under the public land laws.

TABLE 85.—Classification and investigation operations, 1975

PART 2

BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS

PROTECTION—FIRE AND TRESPASS

As a part of its resource management responsibilities, the Bureau of Land Management protected, during fiscal year 1975, a total of 401,923,000 acres from fire. Of this total 5,936,000 acres were protected through contracts with State, private, or Federal fire protection agencies, and the remaining 396,025,000 acres by force account (table 94).

During the 1974 calendar year, 1,087,590 acres were burned (table 93). On land protected by contract, 481 fires burned 39,795 acres (table 93). The cost of contract protection for calendar year 1974 was \$2,034,000 (table 93). On lands protected by force account, 2,525 fires burned 1,047,795 acres. The cost of suppression was \$22,614,873 (table 93).

Fire damage for calendar year 1974 was \$15,675,100 Timber and reproduction losses amounted to \$2,144,600 Losses to watershed, recreation, range, wildlife forage, and other resources were \$59,915,200 (table 90).

In fiscal year 1975, 3,888 cases of unauthorized use were acted upon and 1,249 cases were closed. Pending at the end of the year were 2,639 cases (table 95). Unauthorized land occupancy made up a large portion of the cases. Collections totaled \$377,680 of this amount \$204,883 was received from timber trespass (table 97).

DEFINITIONS OF TERMS

Contract fire protection:

Fire protection rendered through formal contracts with other agencies or organizations for the complete job of fire protection on lands owned, leased, or controlled by the United States which are administered by the Bureau of Land Management.

Force account fire protection:

Fire protection given lands owned, leased or controlled by the United States and administered by the Bureau of Land Management, on which complete fire protection is extended through the use of fire protection forces and facilities supervised and operated by the Bureau of Land Management.

Fire presuppression:

Fire control activities related to the organization, training, instruction, and management of the fire control improvements, equipment, and supplies to insure effective suppression.

Fire suppression:

Fire control activities concerned with controlling and extinguishing a fire, starting with the time the fire is discovered.

Trespass:

An unauthorized use of Federal lands and/or resources.

PART 2
BUREAU OF LAND MANAGEMENT PROGRAM OPERATIONS
PUBLIC LAND SURVEYS

Public land surveys are fundamental to the proper development and effective administration of the vast areas of the public domain. Such surveys create and establish on the ground boundaries of divisions and subdivisions of the public lands in units that can readily be identified and recorded in the form of official field notes and plats.

At its maximum extent the original public domain consisted of approximately 1.8 billion acres, or about 78 percent of the total land area of the continental United States. The rectangular system of surveys has now been extended over 1.4 billion acres of this vast area. Of the 405,027,320 acres of land remaining to be surveyed at the close of the 1975 fiscal year, more than 77 percent is in Alaska (table 98). The remaining unsurveyed land lies exclusively in 11 Western States, the largest unsurveyed area being located in Nevada where approximately 28 percent of the area of the State is unsurveyed.

About 55 percent of the area within public land States other than Alaska is owned by the Federal Government. Many of the surveys of these government lands were made nearly a century ago and were marked by wooden stakes or other nonpermanent material which have since been obliterated by the elements or by man-made developments.

There is now an urgent need for a resurvey of over 50 million acres of land in this category in order to redefine the boundaries of those areas subject to administration by the Federal Government. During the 1975 fiscal year, 31,373,508 acres of cadastral surveys were officially accepted. Approximately 3 percent of this area was represented by resurveys (table 99). Numerous other investigations not measurable on a quantity basis were also executed in the field during the same period. These investigations ordinarily lead to approved surveys later.

DEFINITIONS OF TERMS

Cadastral survey:

A survey relating to land boundaries and subdivisions, made to create units suitable for management or to define the limits of title. The distinguishing features of the cadastral surveys are the establishment of monuments on the ground to define the boundaries of the land, and their identification in the records by field notes and plats.

Meander line:

A traverse of the margin of a permanent natural body of water, defining the sinuosities of bank or shoreline, in connection with a cadastral survey.

Original survey:

A cadastral survey which creates land boundaries and establishes them for the first time.

Protraction diagram:

A diagram representing the plan of extension of the cadastral surveys over unsurveyed public lands, based upon computed values for the corner positions.

Resurvey:

A cadastral survey to identify and re-mark the boundaries of lands which were established by a prior survey.

Special survey:

A cadastral survey other than at original survey or resurvey. This category includes such work as small tract surveys; townsite surveys; island and omitted land surveys; homestead, homesite, trade and manufacturing site surveys; also the survey and resurvey of section lines and connecting lines not involving a closed traverse.

⁴⁴ Reimbursable by the Forest Service, 21 monuments; reimbursable by the National Park Service, 27 monuments.

PART 3

ADJUDICATION, APPEALS AND HEARINGS

Adjudication operations started the fiscal year with a workload of 59,231 cases. New cases received and cases reactivated during the year added another 78,380 to this figure. The Bureau closed 82,113 cases (table 104). The unclosed adjudication case-load at the end of the year was 55,498.

Appeals from the Bureau of Land Management decisions numbered 987 cases at the beginning of the year. During the year 1,234 more cases were received. There were 708 cases closed during fiscal 1975 (table 106).

Bureau Hearings operations started the year with 219 cases. During the year 145 cases were received. There were 129 cases closed during 1974 (table 107).

DEFINITIONS OF TERMS

Adjudication:

The interpretation of statutes and regulations, and their application to a particular set of facts.

Appeal:

The regulations governing the Bureau's operations give all parties adversely affected by a decision of an officer of the Bureau of Land Management or of an examiner the right to appeal to the Board of Land Appeals (43 CFR 1842.2).

Decision:

A decision is the reduction to writing of the adjudicative process: a decision orders the disposition of a case in a certain way, and contains a statement of the facts, laws and reasoning which require that disposition.

Hearing:

Hearings in cases the adjudication of which is based on testimony and evidence adduced at proceedings ordered and held pursuant to the U.S. Department of Interior's Hearings Procedures (43 CFR 1850).

PART 4
ADMINISTRATION AND FINANCE

During the fiscal year 1975, the Bureau obligated \$288,226,099 appropriated by Congress or transferred to it from other agencies (table 108).

Gross receipts from the sale and management of public lands and resources during the same period totaled \$2,919,614,365. Sources of these receipts were: \$2,757,634,298 from mineral leasing, including \$2,427,965,140 from bonuses, rents, and royalties on the Outer Continental Shelf; \$108,154,926 from sale of timber; \$98,695,920 of which came from O&C timber sales; \$20,281,349 from sale of public lands; \$13,401,535 of which came from sale of Geothermal Steam; \$11,658,947 from grazing leases, licenses and permits; \$18,275,360 from fees and commissions; \$549,635 from rights-of-way leases, and \$3,059,850 from all other sources (table 110).

Receipts for the fiscal year 1975 were allocated as follows: \$172,297,383 to 23 States, of which \$49,347,960 went to 18 western O&C counties; \$172,220,514 to the Reclamation Fund; \$2,553,059,449 went into the General Fund of Treasury; \$15,148,329 to other Government agencies; \$1,453,758 to Indian Trust Funds, and \$5,434,932 for range improvements (table 116 and 117).

DEFINITIONS OF TERMS

Allocation of receipts:

Determination of moneys paid, or to be paid, to other funds, counties or States out of receipts collected during the fiscal year reported, as required and/or specified by law.

Geological Survey receipts:

Receipts collected by the Geological Survey in the U.S. Department of the Interior for mineral and petroleum rentals and royalties paid under the terms of leases, licenses, and permits initially issued by the Bureau of Land Management. These receipts are subsequently deposited with the Bureau of Land Management by the Geological Survey.

Nonoperating revenue:

Receipts of a miscellaneous nature, such as incidental receipts from taxes, fines, etc. which are not related specifically to or received in the process of conducting normal and regular business of the Bureau of Land Management as it pertains to the management of public lands and resources.

Obligations:

Payments, and amounts which the Government is obligated to pay for goods and services received or contracted for future delivery made from appropriations during the fiscal year indicated.

Receipts:

All money received and credited to the proper account required by law. Does not include collections held by the U.S. Treasury pending future determination of disposition by the Bureau of Land Management.

Reclamation fund:

A designated fund to which a portion of certain Federal receipts are allocated according to the law, and which may subsequently be used specially for land reclamation purposes when so appropriated by Congress.

Rental:

The amount paid periodically (usually annually) by the holder of a lease in payment for the right to use of the land or resources for the purposes set out in the lease.

Transferred funds:

Appropriated funds which have been made available to the Bureau of Land Management from appropriations originally made to other bureaus and agencies.

TABLE 108—Obligations incurred, 1975

Appropriation title	Amount obligated	Appropriation title	Amount obligated

¹ Act of Feb. 25, 1920 (41 Stat. 437; 30 U.S.C. 181 seq.).

² Before 1880, includes all receipts from sale or lease of public lands and resources. After 1880 includes sales of Indian lands, grazing revenues, rental of land, mineral leasing under special laws, and other miscellaneous sources.

Note.—Includes the collections of the General Land Office and its predecessor organizations (1785-1946), the Grazing Services (1943-46), and the Bureau of Land Management (1947-75). For annual data 1881-1946, see GLO Statistical Appendix for 1961; for annual data 1962-1975, see Public Land Statistics for 1975.

LU Lands (total grazing receipts)	Executive Orders 10787, 10890, Solicitor's Opinion March 11, 1971	¹³ 18.75	¹³ 56.25			¹⁰ 25.0
O&C and Coos Bay Wagon Road Grants Lands	43 U.S.C. 1181d	75.0	25.0			
Reclamation Lands (within Reclamation Project)	43 U.S.C. 394 and Cooperative Agreement March 8, 1972				100.0	
Other Receipts	Not specifically designated by law		100.0			

¹ Amount to Indian Thrust is for Alaska Native Fund.

² One-third of this amount is to reimburse Treasury for moneys appropriated for access roads and reforestation; counties receive at least 50% of gross receipts.

³ Amount to counties is available for payment upon receipt of tax bills. Any surplus after each 10 year period is paid into the General Fund.

⁴ Distributed by the Agency having jurisdiction over the lands in the same manner as prescribed for other receipts from the same lands.

⁵ Includes revenues from Reclamation lands outside Reclamation projects per Cooperative Agreement of March 8, 1972.

⁶ Payment to States represents 5% of net receipts.

⁷ Distribution same as LU Mineral Leases and Permits.

⁸ Payment to Reclamation Fund is made after deducting costs of sale, or 10% of revenue, whichever is less, to reimburse Bureau of Land Management for sale expenses.

⁹ Bureau of Reclamation may pay costs of sale from Reclamation Fund, or expenses may be paid and deducted by Bureau of Land Management prior to transfer to Reclamation Fund.

¹⁰ Range Improvement fees are appropriated and available to Bureau of Land Management for the construction, purchase, or maintenance of range improvements.

¹¹ Payment to State represents receipts in excess of the actual cost of administration of the grazing program in Alaska.

¹² Appropriated and available to Bureau of Land Management for the leasing of lands for grazing purposes.

¹³ Payments to counties and general fund represent 25% and 75% respectively of net receipts.

PUBLIC LAND STATISTICS

Alaska	90-94	receipts	116, 117, 121, 123
western Oregon	90-94	private construction	70
other lands	90-94	range improvements	69
Fire trespass	95	receipts	110
Fish and Wildlife Service	8, 9	soil and moisture conservation	68
Fish (commercial):		surveys in	99
pounds harvested	54	Pierce Act	57, 110, 118
pounds produced	54	Taylor Grazing Act	57, 116
pounds spawned	54	western Oregon	64, 65
Fishing:		Grazing trespass	95, 97
acres of lakes	53	Halogeton (see Weed control)	
miles of streams	53	Headquarters sites	14, 15, 23
acres of reservoirs	53	Hearings	107
Five acre tracts (see small tracts)		Homesites	14, 15, 22
Five percent funds	116, 119	Homestead entries (see Homesteads	
Flood control	27	and entries)	
Forest exchanges	26	Homesteads (see also Entries):	
Forest fire protection (see fire		adjudication of	100-105
protection)		area granted or sold	2
Forest Service (see also national		commuted	15, 16
forest)	8, 9, 27, 83, 84, 94, 99	enlarged	16, 21, 22
Forestry (see Oregon and California		field investigations of	85, 86
Railroad and Timber)		Indian lands on	14
Forestry (public lands):		land classifications, reports on	87, 88
area of commercial public forest		reclamation	13, 14, 16, 19, 22-24
land	34	Section 2289, Revised	
area of woodlands	34	Statutes	19, 22, 23, 25
free use of timber granted	41-44	stockraising	18, 29
land rehabilitation and		unperfected	23, 24
reforestation	47	Horses, Wild Free Roaming	63
non-timber forest product		Indemnity school land selections	5
dispositions	43, 45, 46	Indian:	
producing capacity of public		allotments	5, 23, 87, 88
forest	34	fees and purchase money	14
receipts from sale of forest		lands, ceded	14, 16, 24
products	109, 110	lands, entries on	14, 16, 24
Free-use permits:		lands, proceeds from patents	116, 117
grazing	59-62	receipts from Red River oil lands	116
timber	43, 44	selections	16
other	81	trust funds, payments to	116, 117
Funds, payment to	116, 117		
Fur farm leases	33		

	Table		Table
Inland water	1, 2	reservations on patented lands	17
Institutions, grants for States	4, 5, 15	surveys	99
Internal improvements, grants for	4, 5, 15	trespass	95
Investigations, field	85, 86	Mineral Leasing Act (see also	
Island possessions, area of	1	Mineral)	110, 114, 115
		payments to states	116, 120
		receipts	109, 110, 114
Land and inland water area of States and Possessions	1	Mining claims (see Mineral entries)	
Land classification (see also		Monuments (see national parks and monuments)	
Classification):		National forest:	
field investigations	85, 86	administrative sites	27
lands classified for small tracts	89	entries	14
reports on entries and selections	89	exchange	26
Land ownership, Federal	7-9	surveys	98, 99
Land Rent	109, 110	withdrawals	27
Land title cases, operations	100-105	National Park Service	8, 9
Land use permits special	32	Natural gas (see oil and gas)	
Land utilization projects	10, 58	Noncompetitive Leases	80
Leases:		O&C (see Oregon and California Railroad)	
adjudications of	100-105	Obligations	108
airport	33	Occupancy trespass	95, 97
campsite	33	Oil and gas:	
competitive, mineral	79	adjudication operations	100-105
fur farm	33	leases	75, 77, 79
grazing	64-66, 109, 117	production, volume of	73, 74, 76
medicine and mineral springs	33	receipts	111-113
mineral (see also name of		reservations in patents	17, 18
mineral)	77-80	Oregon and California Railroad and Coos Bay Wagon Road grant land:	
non-competitive, mineral	80	administrative districts	35, 36, 41, 45
Outer Continental Shelf	75	allowable cut	36
public works	33	area	35, 36
recreational	33, 48	controverted lands	35, 36
rights-of-way	86	cover types	36
small tract	31	districts	36
water well	33	fire protection and losses	90-94
Legislation, withdrawals in aid of	27	forest products (non-timber)	45
Licenses, mineral (see also Mineral Leasing Act)	72-77	grazing lands	57
Lieu selections (see Selections, State)		land rehabilitation (Oregon)	47
Livestock, permitted on grazing		master units	36
lands	59, 61, 66, 67	payments to counties	117, 123
Louisiana Purchase, area and cost of	2	potential cut	36
		prices, timber	38, 41
Master units, western Oregon	36	receipts	110-116
Matanuska Valley sales	14	sales, annual average	36
Mexican session, area and cost of	2	special land use permits	32
Military bounties, grants for	4	surveys or resurveys	99
Military leases	77	sustained yield (see allowable cut)	
Military purposes, land-use permits		timber cut, allowable	36
and withdrawals	27	timber permits	43
Military wagon-road grants	3, 4	timber sales	36, 38, 41, 45
Millsite patents	15	trespass	95, 97
Mineral (see also name of mineral):		watershed lands	35
adjudication operations	100-105	Oregon compromise, area and cost of	2
applications	13, 15, 83, 100-105	Original entries	12, 13
bonuses	79	Original homestead entries	13
entries	13-15	Original public domain, area and cost of	2
field investigations	86	Original selections	12, 13, 15
leases, licenses, and permits (see also Mineral Leasing Act)	72, 75, 77-80	Original surveys	98
locations, under Public Laws 167 and 359	84	Outer Continental Shelf:	
patents	15, 82	leases	75, 100-105
production, volume of	73, 76		
receipts	109, 110, 112-115		

	Table		Table
production	74	Outer Continental Shelf	109-115
receipts	109, 110, 116	Payments to funds from	116, 119, 122
Outdoor recreation:		Phosphate	79, 110, 112
facilities	49	potash	79, 110, 112
fishing streams	53	public auction sales	14
game species	55, 56	Red River oil lands (Indian)	116
leases	33, 48	sale of forest products	110
inventories	52	sale of Indian lands	109, 110, 116
sites	49	sales of miscellaneous resources	81, 110
visitor days	51	silica sand	115
water retaining structures	54	sodium	79, 110-112
Patents	15, 82	Taylor Grazing Act	110
Payments to states and counties	117-123	Reclamation:	
Penalties	97	exchanges	26
Permits:		funds, payments to	116, 119, 124
adjudication of	100-105	homesteads	13-16, 19, 21, 22, 23
crossing	60	land, sales	14, 15, 124
field investigations of	86	withdrawals	27
free use	43, 44	Recreation (see also outdoor	
grazing district	59, 62	recreation):	
mineral (see mineral)		leases	33, 48
O & C timber	43, 45	facilities	49
special land use	32	sales	14
Petroleum (see oil and gas)		sites	15
Phosphate:		withdrawals	27
leases	78, 79	Red River Basin (of the North),	
production, volume of	73, 74	acquisition of	2
receipts	79, 111, 112, 114	Red River oil and gas lands	115
reservations in patents	17, 18	Reseeding (see seeding)
