Dear Ms. Lappin:

This letter is to inform you of updated/corrected information regarding the FOIA that you forwarded to us dated September 24, 2003.

A change in Table 2 consists of the addition of the filly named Shoshone gathered from the Nevada Wild Horse Range during the summer of 2003. She was adopted Oct. 12, 2003. In addition, the status and disposition of the two demonstration horses (Amigo and American Spirit) have been added to the bottom of the Table.

A change in Table 3 consists of a mistake in the addition of the totals row of column 6. The total number of horses initially held at the Oliver Ranch Facility was 36, not 35 as originally stated.

As a result of the error in Table 3, a change was required in Table 4. The number of horses currently being held at Oliver Ranch from the Muddy Mountain HMA is 1, as opposed to 2 as previously documented. In summary for animals being held from the Muddy Mountain HMA, there is 1 mare currently being held at Oliver Ranch, 2 were euthanized in 2002 due to complications from starvation, and 1 young horse was sent to the adoption program in 2002.

Please replace any previously sent Tables with these new Tables. I am sorry for any inconvenience this may have caused.

Please feel free to call Amy Torres of my staff at (702) 515-5106 in you have further questions.

Sincerely,

John Jamrog
Assistant Field Manager
