FULL FORCE AND EFFECT DECISION  
ROACH LAKE AND TABLE MOUNTAIN ALLOTMENTS

Davis-Whipple-Dawson  
c/o Dick Dawson  
P.O.Box 650 ST Rt70  
Jean, Nevada 89019

Dear Mr. Dawson:

On August 4, 1989 the U.S. Fish and Wildlife Service (USFWS) listed the Desert Tortoise within its range in the Mojave Desert as endangered under an emergency ruling in the Federal Register Notice, Vol. 54, No. 149 in compliance with the Endangered Species Act of 1973 as amended and 50 CFR 424.20.

On October 13, 1989 the USFWS published a proposed rule in the Federal Register Vol. 54, No. 197, to list the Desert Tortoise as an endangered species within its range in the Mojave Desert.

On April 2, 1990 the USFWS published Rules and Regulations in Federal Register Vol. 55, No. 63 listing the Mojave population of the Desert Tortoise to be a threatened species pursuant to the Endangered Species Act of 1973 as amended.

In accordance with Section 7 (a) titled Federal Agency Actions and Consultations of the Endangered Species Act of 1973 as amended and 50 CFR Sub Part B, 402.14 titled Formal Consultations "Each Federal Agency shall review its actions at the earliest possible time to determine whether any action may affect listed species or critical habitat. If such a determination is made, formal consultation is required..." The BLM has determined that livestock grazing on public lands within desert tortoise habitat is an action that requires formal consultation.

I have met with the Las Vegas District Grazing Advisory Board first on October 17, 1989 and later on a number of occasions during the development of the Las Vegas District's *Biological Evaluation for Managing Livestock Grazing in Desert Tortoise Habitat*. I requested and received recommendations from permittees that were considered along with monitoring data in the biological evaluation prior to initiating formal Section 7 consultation with the U. S. Fish and Wildlife Service. The Bureau of Land Management, Las Vegas District's *Biological Evaluation* was submitted to the USFWS on January 23, 1991.

A copy of the *Biological Evaluation* was mailed on February 12, 1991 with a letter to all affected interests. The letter stated in part that "You are entitled to an opportunity to submit information to the USFWS for consideration during the consultation (50 CFR Section 402.14 (d) (Vol. 51, No. 106, June 3, 1986))."

The *Biological Opinion for the Proposed Livestock Grazing Program Within Desert Tortoise Habitat in Southern Nevada* (File No.: 1-5-91-F-36), herein referred to as the *Opinion*, was issued on August 14, 1991, by the USFWS. The *Opinion* stated that "The proposed licensing of livestock within Desert Tortoise habitat in southern Nevada is not likely to jeopardize the continued existence of the Desert Tortoise." The *Opinion* also stated "In order to be exempt from the prohibitions of Section 9 of the Act, the Bureau must ensure that all allottees/lessees comply with various terms and conditions which implement the reasonable and prudent measures described . . ." in the *Opinion*. A copy of the *Opinion* is attached for your information.

The Bureau of Land Management, Stateline Resource Area staff specialists met with you on December 19, 1991 and discussed alternative management options for livestock grazing on the Roach Lake and Table Mountain Allotments consistent with the *Opinion*. As a result of that meeting and the consideration of alternatives, this decision reflects those agreed upon management actions which are to be implemented in accordance with the *Opinion* of August 14, 1991. Those portions of the allotment which are not categorized as Prescription 1 or 2 areas within the *Opinion* and can not be managed or grazed separately from the prescription areas are included in this decision.

Therefore, based on the opportunities for you to provide comments on this matter, the Opinion dated August 14, 1991, consultation with affected interests, and recommendations from my staff, my Final Decision is to modify your existing ten year Federal Grazing Permit dated September 11, 1985 and issue a new Federal Grazing Permit with the terms and conditions listed below effective 03/01/92 and expires 02/28/94. The term corresponds to the expiration date of your current 10 year permit. This Final Decision is to be placed in Full Force and Effect commencing March 1, 1992 in order to be in compliance with Section 7 (a) (2) and (b) (4) of the Endangered Species Act of 1973 as amended.

Your ten year Federal Grazing Permit for the Roach Lake and Table Mountain allotments will be modified as follows:

FROM:

EXISTING FEDERAL GRAZING PERMIT  
09/05/85 to 02/28/94

ALLOTMENT NAME	LIVESTOCK NUMBER	LIVESTOCK KIND	SEASON OF USE		PERCENT FEDERAL LAND	ACTIVE PREFERENCE
			BEGIN DATE	END DATE		
ROACH LAKE		CATTLE			100	
TABLE MOUNTAIN		CATTLE			100	

TERMS AND CONDITIONS:

This allotment is designated for ephemeral grazing use by decision and public notice dated: 11-12-69. When forage becomes available, you must file an application to include the desired number of livestock and period of use. When applicable fees are paid, your billing notice becomes your authorization to make a specific amount of grazing use.

TO:

NEW FEDERAL GRAZING PERMIT  
FROM 03/01/92 TO 02/28/94

ALLOTMENT NAME	NUMBER OF LIVESTOCK	KIND OF LIVESTOCK	SEASON OF USE		PERCENT FEDERAL LAND	ACTIVE PREFERENCE
			BEGIN DATE	END DATE		
ROACH LAKE		CATTLE	06/15	02/28	100	
TABLE MOUNTAIN		CATTLE	06/15	02/28	100	

SPECIFIC TERMS AND CONDITIONS  
FOR THE NEW FEDERAL GRAZING PERMIT BY STATE

Roach Lake and Table Mountain Allotments

1. Grazing will be permitted in accordance with grazing Prescription 1 for both allotments as identified in the Opinion as amended.
2. Grazing prescription areas within your allotments are delineated on Attachment 1, titled Roach Lake/Table Mountain Allotment Map.
3. Livestock grazing use shall be authorized in the Roach Lake and Table Mountain allotments from 06/15 through 02/28 each quarter (the 3 month period beginning 03/01) forage is determined available for the term of the permit. See the following table and Attachment 1.

SPECIFIC USE AREAS AND  
IDENTIFIED PERIODS OF USE  
FROM 03/01/92 TO 02/28/94

PRESCRIPTION AREAS <sup>1/</sup>	SEASON OF USE	
	BEGIN DATE	END DATE
Prescription 1	06/15	02/28
Prescription 2	06/15	02/28
Non-Prescription	06/15	02/28

<sup>1/</sup> Refer to Attachment 1.

<sup>2/</sup> Prescription 1, Tortoise Habitat Categories I, II, and Intensive III.

<sup>3/</sup> Prescription 2, Tortoise Habitat Category III non-intensive.

4. All vehicle use in desert tortoise habitat within the Roach Lake and Table Mountain allotments shall be restricted to existing roads and trails.

5. Trash and garbage shall be removed from each camp site that is associated with livestock grazing operations (branding, sheep herding, roundup, etc.) and disposed of off site in a designated facility. No trash or garbage shall be buried at camp sites.
6. Use of hay or grains as a feeding supplemental shall be prohibited in desert tortoise habitat to avoid the introduction of non-native plant species. Mineral, protein and salt blocks are authorized subject to 43 CFR section 4130.6-2(c).
7. The allotment shall include at a minimum the following key species for monitoring purposes where appropriate based upon density and availability: galleta grass (*Hilaria jamesii*) and (*H. rigida*), bush muhly (*Muhlenbergia porteri*), sand dropseed (*Sporobolus cryptandrus*), Indian ricegrass (*Oryzopsis hymenoides*), black grama (*Bouteloua eriopoda*), desert needlegrass (*Stipa speciosa*), range ratany (*Krameria parvifolia*), ephedra (*Ephedra spp.*), white burrobrush (*Hymenoclea salsola*) and winterfat (*Eurotia lanata*).
8. The following table identifies the maximum allowable use levels for specified periods of livestock grazing use, which shall be used at a minimum for monitoring purposes within prescription 1 and 2 areas.

ALLOTMENT NAME	PRESCRIPTION	ALLOWABLE USE LEVELS AND USE PERIODS PER GRAZING PRESCRIPTION FOR THE TERM 03/01/92 TO 02/28/94		
		06/15-10/14	10/15 - 02/28	03/01 -06/14
ROACH LAKE  TABLE MOUNTAIN	PRESCRIPTION 1	All Perennial species - <40%	Key Perennial grasses - <50% Key Perennial Shrubs & Forbs - <40%	No Livestock Use will be allowed during this Period
		06/15 -10/14	10/15 - 02/28	03/01 - 06/14
	PRESCRIPTION 2	All Perennial species - <40%	Key Perennial grasses - <50% Key Perennial Shrubs & Forbs <45%	All Perennial species - <40%
		06/15 -10/14	10/15 - 02/28	03/01 - 06/14

9. When allowable use levels are reached for prescription 1 and/or 2 areas, livestock will be removed from the allotment(s). Other management alternatives may be authorized by the Stateline Area manager consistent with this decision and the Opinion.
10. As key species and/or key areas are determined necessary for monitoring purposes, maximum allowable use levels will be established based upon the conditions as set forth in the Opinion for Prescription 1 and/or 2 areas, the Nevada Rangeland Monitoring Handbook guidelines and other BLM accepted monitoring policies and guidelines for Non-Prescription areas.
11. Applications for changes in grazing use must be in written form and be received by the Stateline Resource Area office no later than 15 days prior to the desired date of change.
12. Applications for changes in grazing use filed after a billing notice has been issued, and which require the issuance of a replacement bill or supplemental bill shall be subject to a ten (10) dollar service charge.
13. Grazing Applications will be issued on a quarterly basis showing all grazing use as active. If you desire to take all or partial non-use for the grazing year, you should indicate this in writing on your Grazing Application, along with your reason(s).
14. A statement of Actual Grazing Use made on the Roach Lake and Table Mountain allotments must be received in the Stateline Resource Area office no later than 15 days after the last day of authorized grazing use. In the case of year round grazing, this Actual Grazing Use statement must be received in the Stateline Resource Area office no later than March 15<sup>th</sup> of each year. Actual use shall be submitted by use within each prescription area as identified on Attachment 1.

15. If tortoise are determined to be active in the early spring prior to March 1st (February 1st to February 28th) in the Prescription 1 areas, no turnout of livestock shall occur within Prescription 1 areas until the amount of spring ephemeral forage in the allotment is at least 150 pounds of air dry forage per acre. Should the ephemeral production drop below 150 pounds per acre, the allottee/permittee shall be required to remove the animals from the allotment within 10 days.
  
16. The Roach Lake and Table Mountain allotments were designated for ephemeral grazing use by the decision and public notice dated November 12, 1969. When forage becomes available, you must file an application to include the desired number of livestock and period of use. When applicable fees are paid, your billing notice becomes your authorization to make a specific amount of grazing use. The specific application of the ephemeral classification is under study at this time. This may modify some allotment classifications by separate decision at a later date.

The authority for this decision is contained in Title 43 of the Code of Federal Regulations, which states in pertinent parts:

4100.0-8: "The authorized officer shall manage livestock grazing on public lands under the principle of multiple use and sustained yield, and in accordance with applicable land use plans. Land use plans shall establish allowable resource uses (either singly or in combination), related levels of production or use to be maintained, areas of use, and resource condition goals and objectives to be obtained. The plans also set forth program constraints and general management practices needed to achieve management objectives. Livestock grazing activities and management actions approved by the authorized officer shall be in conformance with the land use plan as defined at 43 CFR 1601.0-5(b)."

4110.3: "The authorized officer shall periodically review the grazing preference specified in a grazing permit or grazing lease and may make changes in the grazing preference status. These changes shall be supported by monitoring, as evidenced by rangeland studies conducted over time, unless the change is either specified in an applicable land use plan or necessary to manage, maintain or improve rangeland productivity."

4130.2 (c): "Grazing permits authorizing livestock grazing on the public lands and other lands under administration of the Bureau of Land Management shall be issued for a term of 10 years, unless; (iii) it will be in the best interest of sound land management to specify a shorter term."

4130.6: "Livestock grazing permits and leases shall contain terms and conditions necessary to achieve the management objectives for the public lands and other lands under Bureau of Land Management administration."

4130.6-1 (a): "The authorized officer shall specify the kind and number of livestock, the period(s) of use, the allotment(s) to be used, and the amount of use, in animal unit months, for every grazing permit or lease. The authorized livestock grazing use shall not exceed the livestock carrying capacity as determined through monitoring and adjusted as necessary under CFR 4110.3, 4110.3-1 and 4110.3-2."

4130.6-2: "The authorized officer may specify in grazing permits or leases other terms and conditions which will assist in achieving management objectives, provide for proper range management or assist in the orderly administration of the public rangelands."

4130.6-2 (c): "Authorization to use, and directions for placement of supplemental feed, including salt, for improved livestock and rangeland management on the public lands;"

4130.6-2 (d): "A requirement that permittees or lessees operating under a grazing permit or lease submit within fifteen (15) days after completing their annual grazing use, or as otherwise specified in the permit or lease, the actual use made;"

4130.6-3 "Following careful and considered consultation, cooperation and coordination with the lessees, permittees, and other affected interests, the authorized officer may modify terms and conditions of the permit or lease if monitoring data show that present grazing use is not meeting the land use plan or management objectives."

Additional authority is contained within the pertinent sections of the Endangered Species Act of 1973 as amended and in Title 50 of the Code of Federal Regulations, part 402, which identifies the procedures for complying with the Act.

Section 7 (a) (2) of the Act states in part "Each Federal Agency shall, in consultation with and with the assistance of the Secretary, ensure that any action authorized, funded, or carried out by such agency . . . is not likely to jeopardize the continued existence of any endangered species or threatened species or result in the destruction or adverse modification of habitat of such species . . ."

Under Section 7 (b) (4) (A) of the Endangered Species Act of 1973 as amended, it states in part that the Secretary will offer the Agency after consultation ". . . reasonable and prudent alternatives which the Secretary believes would not violate . . ." Section 7 (a) (2) of the Act.

Title 50 CFR, Sub Part B Section 402.14 (i) (1) (iii) states that the U.S. Fish and Wildlife Service will provide in the Opinion to the Agency requesting a formal consultation a statement that, "Sets forth the terms and conditions . . . that must be complied with by a Federal Agency or any applicant to implement the measures specified . . ." as reasonable or prudent measures.

In the Opinion, Reasonable and Prudent Measure number 5 states "Measures shall be taken to insure compliance with all conditions required in this Biological Opinion."

In the terms and conditions of the Opinion for the Proposed Livestock Grazing Program Within Desert Tortoise Habitat in Southern Nevada (File No.: 1-5-91-F-36) it states in part that, "Grazing prescriptions 1 and 2 shall be implemented prior to March 1, 1992, and shall take effect on that date as full force and affect decisions". This decision is placed in Full Force and Effect in order to comply with all provisions of Section 7 of the Act.

In Title 43 CFR 4160.3 (c): states in part: "The authorized officer may place the final decision in full force and effect in an emergency to stop resource deterioration. Full force and effect decisions shall take effect on the date specified, regardless of an appeal".

If you wish to appeal this decision for the purpose of a hearing before a Administrative Law Judge, in accordance with 43 CFR 4160.3 (c), 4160.4, and 4.470, you are allowed thirty (30) days from receipt of this notice within which to file an appeal with the Stateline Resource Area Manager at the following address: Bureau of Land Management, Stateline Resource Area, Attn. Area Manager, 4765 Vegas Drive, P. O. Box 26569, Las Vegas, NV 89126.

The appeal shall state the reasons, clearly and concisely, as to why you think this Final Decision is in error.

Sincerely,

Runore Wycoff  
Area Manager
