

New Haven, Aug. 20. 1866.

My Dear Nellie: —

I have been thinking of late that it is time to hear from you. Hope you arrived safely and had a happy welcome, and, if consummated, a happy wedding, but I don't dare to congratulate you yet!

We are all doing nicely here. Flora is up and walks about the room and feels and looks nicely. The baby is very good indeed and grows "fat and handsome" very rapidly. Weighed yesterday $9\frac{3}{4}$ lbs! I took a photograph of him a week ago Saturday and will send you a copy, I hope

you have got, or will get, a stereoscope. as I shall have more to send presently, I might send a card vignette of the baby but think the stereograph is better.

Tell me know how you like his looks?

I have heard nothing new from Maine of late.

Sidney went home last week and Miles left before and so I am alone now. During vacation it is very dull here, but I have been doing considerable photography.

Gloria sends much love. Please give my regards to Henry.

Sincerely your brother
A. E. Verrill
