

Let me add my entreaties to those of Jessie for all
of you Nellie, Emma, & Hattie and your ^{husbands and} families
to be G.A. men for a short season and come on
East and see your Brothers and Sisters and nieces
and nephews once more. We can take care of you
all, and we will have jolly times while it lasts.
I don't believe there will again be cheaper rates,
but of course we cannot be sure of that -- the only
way is to do it when you can. there is no pleasant
time of year to travel in than now - a journey
from Nevada to Maine and back again will do more
for the health of a woman than 40 doctors in
Cases of "run down". You are sure to be wound up
in the tightest possible manner. Since Jessie went
West she has been physically a new woman and if
she keeps on growing she will rival the big trees
in girth. If Sam. will come on he shall have his
Chess revenge and I know he can make short work
of me here. I read the Appeal with great interest, it lacks
none of its usual vigor and its clean moral tone.
Certainly the Appeal is doing for Carson and vicinity the

same good work that the Salt Lake Tribune is doing for that benighted region - the work however is of a different application, but both tend to elevate the character of all ^{for a wide area} whether readers or not.

The influence of a newspaper for good or for ill is so great and so lasting that it cannot be counted or measured or prescribed.

I hope Nellie that your health is not impaired by your hard work on the ranch; do not persist in that labor and care if such a disaster can possibly be the outcome. I feel anxious to know just how you are. We think Grace will gradually get back her strength and health - of course this breaks up her school work and it will be a long time before she can expect to be thoroughly robust - she now weighs 80 - before her sickness she weighed 104 - she has gained about 10^{lbs} since the doctor ceased his visits.

Very little family news. Geo. Goss was sent to Insane Asylum last week. he will probably remain there a long time - his dementia has assumed a definite form and may continue as long as he lives.

Love to all, and to the babies kisses from their
Uncle. Wash. Uncle Wash
