

F. Lincoln D. T.

Dec. 17/78

My dear Miguel,

I enclose

you slips from the S. Paul
Pioneer Post & The Army
& Navy Journal, containing
letters from myself and
from an officer of the 17.
Michigan, in regard to
the death of Capt. Reno.

Will you please read them
(though no doubt you have
already seen them in print)
and let me know how

my recollection of the said
affair tallies with yours.

The whole thing is just as
plainly before me now as
it was at the time - so far
as I saw - but it was you
as I remember, who took
poor Reno from his horse
and you no doubt have a
vivid remembrance of the
circumstances. I remember
very distinctly that Dr
Cutler gave it as his pro-
fessional opinion after
a careful examination
that Reno was killed
by our own troops.
Hoping you see

~~not~~ running smooth &
all is going well with
you. I remain with
kate your sincere
friend

P. D. Stuyvesant

P.S.

If your recollection agrees
with my narrative, I
think it would be well
for you to come out with
an article corroborating

Keep this.
