

State of Nevada
Executive Chamber

Carson City, Nevada, Jan. 23, 1905, 190

Mr. W. H. Bancroft,
Salt Lake, Utah.

Dear Sir:-

Your letter asking for more copies of the Message duly received, and they have been sent to you. What do you think of my remarks about railroads. It has been my intention for several years to get our people to consider the great importance of encouraging the building of railroads in this State, and hope it has had a good effect upon our State Board of Assessors. I know they feel more liberal toward R.R.'s now, than they did two years ago, realizing that it is to the best interest of the State, and while some of the Board are in favor of abolishing this Board, I shall do my best to sustain the law compelling them to meet once a year.

Yours truly,

Geo. S. Ross
