

Visalia, Apr.17,1894.

John Sparks Esq,
Dear Sir;

Your letter with deed from Alice Sparks enclosed just received. I do not think the new acknowledgment will answer as it is the acknowledgment of a married woman and should be that of a single person. However I will keep it, and I believe the first acknowledgment will hold good.

Our script will work all right on May 9th, at least that is what Miller wrote me, I think Miller has gone to Chicago, and intends going to Haily so as to apply the script on May 9th before coming home, now if you think we should have more land at the Point, we can use the script some wheres else, and have Myers locate it for us, but I think 80 acres there will control the water, and if we want any more we can probably get it in time (that is by May 9th) from the enclosed circular. You handle this matter to suit yourself, only let Miller know your wishes before May 9th so he can do as you want him to.

You might write to W.E.Moses telling him what you want and ~~whaxx~~ and find out what he will charge for it.

Tinnin is running no risk at all in signing the paper I sent him, if he dont want to sign it have be at Haily on May 9th to apply for th land in person.

very truly yours,

A. J. Barrell
