

Friday.

Dear Charles:

Bernie went in to Elko last night and asked me to send this thesis in to you and tell you he would like to have one of the new copies as soon as it is done.

We found Margaret and her husband here, so had a re-union. They are so very happy and just as silly as anyone. Gordon went to Tahoe for the day and phoned down a few minutes ago to ask if she were alright! Laurena says she doesn't know what she will do with two of us in her hands.

The girls want to be remembered to you and I am sending you, as always, a very generous amount of love.

Always faithfully,

Ethel M. McBride.
