Dear Old Pal:

Your letter at hand
& contents noted. Say if you don't
stop this Yert. Yert. stuff, there will
be trouble. see!

I am going to Round Mt. Saturday
night. Harriet told me to make
the date so she could have
the two darlings (Net & Gladys)
come to the ranch & welcome
Jack & I. Stung for 136500 so
shows an I.? well we will see
about it.

I told Harriet, Bill was going

you are a poor judge of hats
look what I say about it on Bill's letter

to be cook at your oil camp. & she
replied thusly - "If Bill applies for
the job at our house he can have
the job, but we must convert
him first." (hit him if you want
too) I think he has a better stand
in than you, but not as I.

The weather is O.K. now. just
like those good old time spring
weathers. I got spring fever now.

The milk business is pretty
fair. the inspector came out on
the 6th & laid down the laws
to me - I will have to some
extensive improvements on
my bovineary. (taken from
word apiary - granary etc.)

Mr Peckham said you sent
a postal to Doodle when you

P.S. Yes Bryson ask me to send
you his best regard. He hadnt seen
you for a long time. + was looking
for you & Bill. He tho't you were
around Reno yet

were in Bakersfield. + said he
guessed you fellows were celeb-
rating, after having received
your wages.

Miss Morgan is O.K. During
the cold weather, I used her
muff to keep my hands warm
she said I am the one she calls
kiddo. Cute little kid + I surely
have the big standie.

You say there is plenty of
good horses down that way.
I wish you would send me
some. I had to shoot my old
grey horse + old Doc has
a nail in his foot.

I would like to take that trip with you guys over the hills but I am afraid I will have too much farming to do.

Biddemen Bros sold their interest in the "level". Bill is on the ranch. Geo is running a milk route. he is milking 73 cows.

Our estate will be settled on the 15th of Feb. & you don't know how glad I am of it. I am tired monkeying with this court "bis".

So Washington for sure next Sept. for much. My uncle writes me that he has bot 320 acres of land & will give me a share.

he wont come down until I go & see him. Well bidde be good & please dont mention Bert. got name again.
