Hi Folks,

I'm due (over due in fact) to write you a letter so I guess I might as well let Uncle Sam's paid men do it for "free".

He came over here this AM. - rather we left Atugi about 0900 + got here about 1415 I think (I think = local time) He came over in an R4D. It is a 2 engine transport the A.F. calls them C-47 + I think they are called DC-3 by civilian air lines. It was a very smooth + uneventful trip. Some of the guys played cards - I read most of the way but slept some.

Nothing much to write about - mostly just the same old monotonous grind.

It doesn't look to much as though we will fly our hop, the weather isn't so good for what we do.

I guess that's all for now, tell
me I'd write to her but I left
her address back "home" (atuzgi)
