Mrs. Sparks

Dear Madam

I am a widow like yourself - but unlike you I am entirely without means -

When Wallace Hopkins was in Chicago he told me that I would without doubt make large money - & having had a legacy of \$50⁰⁰ I bought that amount of shares in a leasing Co. and the enclosed certificates are all the return I have had - and a justice cell to Hopkins is his return for all the false statements he made - This is my only venture of the kind, and of course the last - He was considered very skillful and he gathered in a great amount of money for himself and others connected with him - Because the President was the Governor of the state I had full faith that it would be conducted honorably - I inquired and learned

that the Governor bore a good
name - I hear that you have
an abundance - Could you
not give back what I put in?
I am sure if your husband
could - he would tell you to
do so - for it is only justice
and I belong to the class that
the Bible tells us to deal justly
with - I have no means as
I told you - and I would bless
you all my life for the return
of this money - I am sure it
would bring a blessing to you
I am aware I have no
legal claim - I do not want
to ever see these certificates
again - They have caused me
too much pain - I had always
heard ill of such work and
ought not to have put
credit in Hopkins's stories

Yours truly
Julia C. Angell
