Dear Charles we got down to the City at night Mand & Island met us at Oakland wharf with a close carriage and we drove across to Mand from the Ferry on this side I am no better but worse so far as my numbness is concerned & I may never get my nerves restored if not they will of course all go to Moffatt & Montgomery offer to insure me but they are unable to tell what the medicine will do Mand judges me like a pig & that is what he prescribes, Charles & I went & had ~~me~~ in a ~~servicing~~ condition & a ~~servicing~~ man then people brought but I may pull through if not there is only one time to go & we all go when that time comes, I was in bed to long

at home but Mr St Clair
did good worse or my way
then can using some of
his medicines I hope you
will all sleep well I tell you
Talana is a point he grabs
hold of you & washes you
a bath as easy as John does his
Tidy Bear oh but he is
a great help to me I hope John
is entirely over poor little fellow
had suffered so much
Mr Taylor left for Galapagos
this I do not know
when or where he will go from
the I told him I was
absolutely up & going
it has a dice had to give
up I am to all

Your faithful
John Sparks
