MEMORANDUM.

3/26/26.

Mr. Devore.
Dr. Church.

Herewith attached you will find an approximate list of expenses and salaries for the local snow survey. I have based this estimate on 5.00 per day for leaders and 1.00 a day for understudies. The men were told at the meeting I had with them that they need not expect salaries this spring as the funds were very low. However if we have the money available it might be well to give the helpers a flat rate of \$1 a day as a matter of encouragement. Fred Herz is to receive \$10 a day for the time he is out as this is the salary he is losing by being away from the store. I have given him \$30 as he will be away only three working days.

I have allowed C. Gay five dollars for each the Mount Rose tip and the Big Meadows, but only three dollars for the Crystal Peak trip. This I think should be sufficient.

I have allowed three dollars for a car for the Big Meadows trip and the Mount Rose trip, but nothing for the Crystal Peak trip or the Marlette trip. The transportation for the Webber Lake trip is furnished by the Truckee River Power Company. I believe five dollars will be sufficient for our keep at Webber on top of the grub we take in ourselves.

The keep at Tahoe (Youngs Bijou and Fallen Leaf) is based on an estimate of \$ 2.00 a day a man for the four days - approximately \$30.00. Fred and I think it would be possible to explain to the men at these resorts and tell them of the financial condition of the survey - and in this way could eliminate the expense. But I think we'd better pay these men as usual so it will not be an imposition upon them.

As for Fred Herz' salary - he says he will be glad to volunteer his salary for the three working days and will donate his car for the transportation. But we might accept the transportation, but think we might strike a compromise on the salary. Better pay him at least some of his lost salary.

As for myself, if there is a lot of money left after everything is paid I would be glad to receive a gasoline camp stove, cheap binoculars, automatic fishing reel, or some not too expensive article - see. Otherwise I am glad to get out on the courses. Dont take this hint too strongly.

This might better be a revised estimate after we talk things over - all three of us.

I omitted this paragraph in the copy to
Mr. Devore.
