

UNIVERSITY LIBRARY

November 1, 1911.

Professor *Fergusson*:

The President and Regents cannot spare the library for books more than the \$10,000 originally apportioned to us. The subdivision of this according to my letter to you of April 5, 1911, will not permit me keep up our present periodical list, pay important back bills, and do some binding. These are so necessary to be done that the President permits me at my request to act on the subdivisions of the book fund mentioned in his letter of March 22, 1911. This gives each department four-tenths of the amount indicated in the printed report.

Accordingly for 1911 and 1912 you have

40.—

The third quarter of it is now available making to date

30.—

You have already used *(Reg's 8.12) Bills 1.08; average*

4.60

Balance for books for Spring term, 1912

about 25.40

The final quarter will be available April 1, 1912, for books for the fall of 1912.

Respectfully,

J. D. Jayman,

Librarian.
