

May 20, 1920.

Dear Mr. Henshaw:

Upon receipt of your letter of May 12 I called up the Freight Office of the Southern Pacific again and was assured that the boxes had long since been sent out. But still, if your New York house would send a train from the east, yours is sure to be obtained. I sent bill of lading to New York when I shipped the two boxes. If you desire, I will send a copy of bill of lading.

Your house doubtless received a bill from the state of Nevada for \$11.50 in payment of the portion of the tubing and for the samples. The bill for the remainder has been sent to the state of California.

Very truly,

J. W. Church, Jr.
