

August 2, 1923.

Dear Doctor Church,-

At your suggestion I have been taking a few days' rest. I felt the need of it, and it will fit me for closing up the MS even more quickly.

The copy of pages 1-140 which Professor Boardman expressed to me arrived safely. I shall send it to you for assembling, if you prefer, for you have all of my notations regarding blanks which appeared in that section. Anyway, I have a goodly task assembling the remainder and appendix.

I have not sent you in any of my time for several months. So I am sending herewith my statement. Just so I can be paid by Sept. 1st all will be well.

Thank you so much for your wishes that Mrs Broue and I could be with you in camp. We would enjoy it so much. Maybe some summer we can.

Sincerely yours
Edgar (over)

P.S. The newsboys are just now crying
out the dreadful tidings of our President's
death. We trust that there are worthy,
capable hands to carry on in this
extremity.

[Faint, illegible handwriting, likely bleed-through from the reverse side of the page.]
