

August 16, 1923

Robert A. Allen, State Engineer,
Carson City,
Nevada.

Dear Robert:

Because of the need of immediate money, I am sending in the inclosed two bills for action, if possible, at the mid-month meeting of the Board.

To Edgar Brown's claim I am appending an explanitory note which you may submit with the claim if you wish. I would not know what to do without Edgar's help at this time, for I could not train another person in the short time available and am too tired to try to do his work myself. There is now but very little more to be done on the report; so if it seems best to discontinue Edgar's services, I shall soon be able to do so.

Could you send me a package of Claims Blanks for regular bills, Form 1/2E2-200-9-10-20 to my address here at Tahoe City, California, for I may have one or two bills to submit the first of September.

With best wishes,
