## STUDENTS WILL OBSERVE DAY

### Washington's Birthday Will Be Properly Observed.

At the meeting of the student body last Friday it was decided to observe Washington's Birthday and a committee was appointed to make all the arrangements for a suitable program. At 12 o'clock the Y. W. C. A. will serve a luncheon in the dining hall at 25 cts. a plate. The exercises will be held in the gym at 11 o'clock. The following is the program as it has been arranged by the committee:

Opening Remarks, --- Hon. J. W. Wright. Star Spangled Banner, --- Girl's Glee Club. Solo, --- Miss Ailene Gulling. Washington's Farewell Address, --- Miss Ada Morse. Selection, Glee Club. Short Address, --- Mr. S. Charnock. Solo, --- Mrs. Dr. Frank. Address on Military studies and Student life at Annapolis, --- Mr. H. B. Maxson. Selection, --- Glee Club. Address, --- Captain C. T. Boyd. Solo, --- Mrs. Halliday.

The cadet band will be in attendance and will dispense sweet music during the progress of the exercises.

The condition of our walks during inclement weather has been the cause of much unfavorable comment from various sources. In spite of the unanimity of sentiment, it was believed that no relief could be afforded the students, and that it would be necessary to continue under the old state of affairs. Dr. Stubbs created some surprise in General Assembly Friday when he announced that the University would have cement walks throughout the campus next semester. The large appropriation asked for this year is said to be responsible for the new walks. The need of such walks cannot be questioned at the present time, and anyone who has been compelled to carry a portion of the University campus around on the soles of his shoes, will feel that he has been relieved of a great burden.

## EXECUTIVE COMMITTEE SEVERELY CENSURED

### Appropriation of Athletic Funds Central Topic of Discussion at General Assembly Friday.

The student body meeting held last Friday was the most interesting of any held this school year. It is the purpose of the RECORD, in giving an account of the meeting, to describe it from an editorial standpoint. The questions discussed there are of great interest to the University. The proper appropriation of the athletic funds is a question, difficult to solve and one that requires much thought. The excitable nature of the meeting Friday did not tend towards a proper consideration of this important question. On the other hand, because of the attack on the executive committee and the apparent attack on the 1904 football manager, and the resulting feeling and dissension aroused, the harmony necessary for progress in the different branches of athletics was ruptured.

The blame for the present condition of our athletic treasury, as a result of the meeting, is placed on the football manager. Even though some of the students understand that the executive committee has complete control of the athletic funds and on them alone rests the responsibility of appropriating the money, yet, very many will believe that the football manager is at fault. This is about as contemptible a treatment of our football manager as it is possible to give him. After a season of hard and strenuous work in the interest of football he receives instead of the thanks of appreciation, the abuse of misconception. Such actions as these tend to lower that responsible position until it is regarded only with contempt.

In justice to the 1904 football manager, the Record publicly expresses its appreciation for his work. We believe his expenditures were prompted by the one idea of promoting a successful season. In another column is published a correspondence from a member of the 1904 football squad, in regard to the of-

fice of football manager.

While the proceedings of the meeting were of an excitable nature and did not tend towards the good of the association, yet the points brought out are of deep interest and should not be overlooked. Credit is due the different speakers for bringing to light the disregard of the constitution which has characterized the work of the executive committee.

The apportioning of the athletic funds this semester has been a violation of Article XIII "The apportionment of money shall be according to the needs of the various branches of athletics." To apportion 3/4 of all the funds to one branch out of four is not according to the needs of the different branches of athletics.

The amendment to article XV, reading that, "The report of the executive committee shall be published monthly in the college paper, THE STUDENT RECORD and it shall be placed monthly on the bulletin board in Morrill Hall," has been violated in its entirety.

The attendance of captains of athletic teams at the meetings of the executive committee has been a violation of Article I Section I "The executive committee comprises the President, Vice President, Secretary, and Treasurer of the association and the managers of the different athletic teams."

A flimsy excuse given by the executive committee, that it did not know such clauses were in the constitution, required more than passing comment. To admit it did not know this is to practically admit it was unfamiliar with the constitution which evidently proves the contention of the speakers that the constitution had been entirely disregarded.

The A. A. Hibbard Realty Co. is offering special inducements in the real estate line. See their new ad in another column.

Students patronize our helpers the advertisers.

## APPROPRIATION WAS GRANTED

### Assembly Passed Bill for University Dining Hall.

The bill for the University dining hall passed the Assembly by an almost unanimous vote last Thursday. From the opinions expressed by the various senators while they were visiting the University last week, there is no doubt but that the measure will secure the required number of votes when it is carried to the upper house for consideration.

The minor details for the new dining hall have not yet been arranged, but now that the appropriation of \$6,000 is already assured, it is probable that all the matters regarding its construction will be speedily attended to.

The building will occupy a prominent position on the vacant ground north of Manzanita Hall. The dimensions of the structure have not yet been determined, but the building will be sufficiently large to accommodate the needs of students. Brick will be used in its construction and those who have charge of its erection decided that one story and a basement would meet all the requirements. The basement will be used principally as a storeroom. A large refrigerator will be installed in the lower portion for the purpose of keeping vegetables and other perishable articles from decaying.

The comforts to be derived from the new dining hall are many and can only be truly appreciated when the building is completed. According to the plans of Superintendent Richard Brown the dining hall will be ready for occupancy on September first, when the new term of school opens.

The appropriation for the portico on Manzanita Hall and the President's house was reported unfavorably by the Ways and Means committee in the assembly. Although the minority presented a report recommending its passage, yet they were unable to overcome the opposition to the bill. When the measure was considered in the Assembly, the appropriation was voted down by a vote of 21 to 9.

**A Communication**

The football expense question has taken a form that is not a credit to the University and not encouraging to the manager and those engaged in the sport that has given the University of Nevada its present Athletic standing.

The question is, who deserves the credit for this; coach, football squad or manager. This question is difficult to answer, but it is not difficult to answer for the one on whom it is thrown, the fault of every mishap that befalls the football squad box, blundering management of the executive committee on misdoing of the team. It is the manager who is at fault, and his executive associates are most willing that he should stand the blame. What is more, his feelings are not consulted in any way either by members of the Students Body or his more closely called football squad.

It is the members of this squad that make his trips most miserable with their constant complaint of restrictions, that he unwillingly must put upon them to keep within bonds of his scanty allowance. It is these men who complain of being misused and urge him to give them more which he cannot do. This year tells the story; yet never before have we been fortunate enough to have a manager as careful of the Athletic funds and more competent to manage them. After his tireless efforts of last season he receives a reception that shows the most thankless spirit ever shown by members of this institution.

E. D. Skinner.

The bill for the metallurgical laboratory and the new dining hall passed the Assembly last week by a large majority, and it is expected that the senators will take a favorable view of the measure when they come before that august body. The members of the present legislature recognize the needs of these buildings, and have no desire to hinder legislation on this measure.

**FIRST MEETING OF  
 ENGLISH CLUB**

the first meeting of the English Club met in Room 6. After some informal discussion in the Club Miss Knemeyer was chosen temporary Chairman. A committee on organization was appointed, consisting of Miss Berry, Miss Sielaff and Mr. McDonald. Upon the report of this committee Miss Bersy was elected president. Miss Knemeyer was elected Secretary.

The Chairman appointed, Miss Knemeyer, Miss Sielaff and Mr. McDonald were appointed a committee on By-Laws. The Club will meet once every two weeks.

The Committee on Organization met in The Normal Room Friday afternoon. The By-Laws drawn up by this committee will be submitted to the club at the next regular meeting.

The Committee, acting in an executive capacity made provision for a program for the next meeting of the club. It was decided that the initial program should be devoted to a general discussion of the study of English, both as a culture study and as a discipline.

The time and place of the next meeting will be published by bulletin

The Ben Greet company of actors attempting a reform in our modern stage customs. The reform consists in a return to simplicity in stage settings, scenery and "make up", with a corresponding increase in attention to elocution and to acting. The result is, at first, a shock. The stage seems base, but soon the spectator is becoming absorbed in the plot and the poetry of the play. There is nothing to distract the attention.

Another ideal of the company is the revival of old stage customs especially those of the time of Shakespeare. This is illustrated in Ben Greet's Hamlet. He reproduces Hamlet just as Shakespeare wrote it and acted it. His presentation of Hamlet requires five hours and a cast of fifty-four characters.

My heart is a clock—

## ASSEMBLY LECTURE

### VERY INTERESTING

A very interesting general assembly was held last Friday morning. Prof. Weir was the speaker of the day and addressed the students on the subject, "The Goal of the Golden West." Her lecture was illustrated by lantern slides, which added materially to its interest. She traced the development and rise of many of our western cities and especially the marvellous rise of San Francisco. At different points throughout her lecture she cited a number of pleasing anecdotes connected with the California missions. One incident relating to the old San Francisco mission was especially interesting. While rummaging through the old cemetery, one day last December, she chanced upon the tomb of the first editor of the San Francisco Bulletin, who had been murdered during the early days of the city. She brought her lecture to a close by an allusion to the star of empire, which is continually wending its way Westward. A beautiful slide portrayed a maiden with the star on her forehead, bearing in her right hand a volume, representing the education of the East, in her left hand, the ends of the telegraph lines communicating with the East. Through the clouds she takes her way, while stretched out behind and on either side, are the pony express, the old stage coach, the miner with his pick and shovel and the three trans-continental railroads. Thus, since the beginning of the American nation, has its people followed the star of empire to its goal in the Golden West.

Miss Weir has spent a great deal of her life studying the historic conditions of the world from the very beginning of time and judging from Friday's lecture she has very thoroughly mastered her subject.

## SOCIETIES ARE GETTING BUSY

Since manager F. D. Bradley posted a notice on the bulletin board requiring that all society and fraternity pictures be taken before next Wednesday in order to insure their appearance in this year's Artemesia, the different University organizations have exhibited signs of activity during the past few days. Owing to the short notice that was given, F. P. Dann, who has charge of the photographic work, has been kept very busy taking photographs. All the available time has been allotted, and, if present indications count for anything, the work will be finished within the required time.
