TO SET ASIDE A SPECIAL DAY

Students Will Probably Plant Trees at Varsity on April 7

It is planned to hold the tree planting day this year on April 7. Arbor day has not yet been set apart by Governor Sparks for this year, but Prof Kennedy feels that as spring is coming on arrangements should be made immediately for a date somewhat earlier than is usually set aside for Arbor Day. Toward this end a large number of trees have been ordered, and tests are being made to render the soil suitable for the growth of the various kinds of trees. It is proposed this year to dig the holes at the expense of the University and the part the students will play will consist only of planting the trees. It is necessary to blast the hardpan which exists a few feet beneath the surface of the ground, in order to insure the permanent growth of the trees. Of course the students cannot be expected to do all this in one day. The trees planted this year will be on the vacant spaces between Lincoln Hall and the Hospital and between the Hospital and the Gymnasium evergreens will be largely planted.

An assessment of 25 cents will be levied on all the students. The part contributed by the men will be used for the purchase of one hundred evergreens, that of the women in supplying food for the hungry workers.

The tree planting of last year has been productive of very gratifying results. Over eighty per cent of the trees planted have thrived and give promise of fulfilling, in a very few years, the object for which they were planted. Birch, mulberry, silver maple, Carolina poplar and the weeping willow seem to be the species best adapted for the soil on the campus.

The University of Michigan speakers for the Michigan-Wisconsin debate have gone into hard training. They are not allowed to drink, smoke or eat any kind of fancy food. They also must be in bed by 10 o'clock.

WHY THERE HAS BEEN NO GAMES

Executive Committee Sets Forth the Reasons at Some Length

Much inquiry has been raised lately concerning basket ball. The Executive Committee of the Athletic Association makes the following report. At the beginning of the semester, Chico Normals, San Jose Normals, University of California and Mills, desired to meet Nevada.

Following are extracts from letters received later in the season. Chico Normal School, Feb 3

Much to our regret we cannot accept the challenge, principally because President Van Liern opposes games with outside teams. There is much reason too for the majority of our girls are boarding here and under the protection of the school."

San Jose Normal, March 9

"I have to say that we cannot possibly play now; four of our best players are to graduate March 24; and we cannot think of playing without them."

From Mills College, March 13-

Our physical culture instructor has been and is very critically ill, and the association feels that it is not quite suitable to leave her under such circumstances and also that the expenses entailed in bringing your team down (however desirous we are to have a game with you here) is more than we can conveniently cover at the present time.

From Berkeley, March 17-

"I am very sorry but it will be impossible for us to play with you this term. Either for us to bring your team down here or for us to go up there. I have tried to arrange it, but have been unable to do so. Our authorities will not let us go up there, even if we could bring you down here and that is impossible."

It is a great disappointment to the manager and the team that unfavorable replies have been received from California teams. Owing to the fact that the Basket Ball League is not in existence this year even the California teams have not arranged games among themselves. The team has practiced

WILL RELATE EXPERIENCES.

Captain Boyd Will Tell Students of Far East at General Assembly.

Captain Charles T. Boyd will deliver a lecture tomorrow at Assembly on the conditions existing in the far East. The lecture will be illustrated by lantern slides. On account of his ability as a lecturer and the general interest in his subject, the Captain will no doubt have a large audience. The lecture should be of especial interest to the men of this university and they no doubt will get some pointers on military manoeuvres by attending it.

Besides the general interest in the subject, the stereoptican views, which are taken from photographs of actual war scenes, should likewise be an incentive for the presence of all the students. The public is cordially invited to attend the lecture.

English Club Holds Regular Meeting

The English Club held its second regular meeting in Room 6 last evening. Rev. C. L. Mears of the Congregational Church rendered a paper on "Bacon's Life." Dr. Cushman gave an interesting account of Bacon's philosophy. After the papers of the evening were read, the members indulged in a discussion of the value of different English courses.

The basket ball game between the college team and the Reno High School team, which was to have taken place Wednesday was postponed for a week.

The March social, which was postponed because of the death of Miss Harvey, will take place tomorrow night. In his notice, the Manager, adds a strong injunction against the presence of "stags."

faithfully this year and deserves credit for the efforts it has put forth under the circumstances.

NEVADA GETS SILVER MEDAL

Her Exhibit Declared to Be among the Best at St. Louis

Nevada has received a silver medal from an exhibit of the work done by the mining and mechanical departments of the University last year. Nevada's exhibit was at the St. Louis exposition in connection with the other colleges and experiment stations of the country. Every college in this country was represented. Several months were required in determining the merits of different exhibits, and the results were announced only recently.

Prof. George J. Young supervised the work of preparing the exhibit from Nevada. Pictures were taken of the Seniors and Juniors in the mining department as they were performing their work in the field and the different class rooms.

The different buildings and all the various details of a student's at work were photographed. Lantern slides were taken of these different pictures, and were forwarded to St. Louis for the consideration of the judges. The inspection work was in charge of M. A. Scovell.

Students patronize those who advertise in the Record

The faculty of the University of Texas has forbidden Greek letter fraternities to begin their pledging until November 1

Clyde Taylor '93 was shot last Sunday at Hazen, Nevada by one of the knights of the road at that place. The bullet pieced his hip, and from present indications he will probably recover from his trying experience.

There has been little doing in baseball for the past fortnight. Weathera, unpropitious for practice, has been the main reason for the stay of proceedings, but it is thought that the very meagre promise of a game with Stanford has added somewhat to the lack of interest, recently displayed, in the national pastime.

Editor Today John S. Case

Rough housing is a recreation the College man likes to indulge in occasionally. It has a relieving and reviving effect upon burdened brains. But rough housing is not conducive to the longevity of furnishings and finishings, and the duty of those in charge of State property being plain, therefore it must be placed under the ban of disapproval. He who rough houses in Lincoln Hall jeopardizes his privileges of abiding in that famous inn. The gavel of authority over Lincoln Hall has been raised, preparatory to the descent for the canning of some rough house culprit for some time. Leniency and good will on the part of the man who holds this gavel in Lincoln Hall, and who has the love of every man who has ever been under his charge, have balked several raps. Last week, however, it descended and several men had to hunt a new lodging place. It is commendable that the men who carried suit cases out of the hall and down the hill expressed no dissatisfaction in the sentence. Each realized he had no cause for complaint. Some, however, have raised a hue and cry against the verdict. Each student knows rough housing to be prohibited and when he continually keeps at it sooner or latter he will be nailed and the argument that others were to blame or that sufficient warning against it was not given, is all bosh.

E. A. Schadler '01, returned from San Francisco yesterday, where he spent a few weeks. His health will not permit him to continue work on the Government Canal.

We are in possession of very convincing evidence regarding the proficiency of the Domestic Science department. It was the frequent use of proof similar to this, with respect to pudding, that resulted in the proverb, "the proof of the pudding, is in the eating." By the application of this axiom and referring to our knowledge of geometry, it can be easily demonstrated that the department above mentioned has at least reached the acme of perfection in the manufacture of candy. Through the generosity of one of the young ladies, registered in the science of the housewife, the Record Staff enjoyed the privilege of passing judgment upon the merits of a goodly quantity of the tooth destroying mixture. They are still alive and have individually expressed themselves as being satisfied with the sample and as a whole we feel that a consignment of the article in question would not be particularly out of place. Now for the application of geometric principles. The making of candy is only a minor consideration among the many subjects that are dealt with in the Domestic Science department and since such a high degree of perfection has been attained where but little attention has been paid, it stands to reason that in those subjects which are of primary importance the results must indeed be marvelous.

SELECTION OF

DEBATING TEAM

As a result of the final tryout for the Stanford debate, which was held last Saturday evening in the Chemistry building, Louis Goldstein, D. M. McDonald and J. D. Scott were named to defend the interests of Nevada. After considerable discussion on the part of the judges, Professors Frandsen and Reid, A. H. Hamlin was decided upon as alternate.

The men selected at Stanford to meet Nevada are W. L. Blair, of San Jacinto, A. W. Dibble, of Portland, Ore. and C. S. Osgood, of San Jose, with A. R. Fletcher, of Palo Alto, as alternate.

The Nevada team has already begun work upon the debate, and intend to make as good a showing as possible against Stanford.

LOCATION OF

DINING HALL

It has been currently rumored the new dining hall will be attached to Manzanita Hall. This fact has been the cause of considerable discussion among the faculty and students. Professor Thurzell thinks that the ground in the rear of Lincoln Hall would be a suitable place for the structure, although he admitted that it would be very inconvenient for the girls. Professor Brown believes that the vacant space of ground on the brow of the hill and overlooking the lake would be an ideal spot for the building. The President desires to secure the views of the other members of the faculty on this important subject, and wishes they would hand in their opinions in a few days.

The latest addition to the forms of amusement at Manzanita Hall, is a magic spirit board. Many of the young ladies express themselves as having great faith in its prophetic abilities. This belief was greatly actuated by the prompt discovery, through the agency of the board, of the identity of the party who had pilfered sundry articles of wearing apparel from the basement of the dormitory.

An Omission

Through some unaccountable error the name of W. J. O'Brien '06, was omitted, in Sunday's issue, from the list of those who received their first degrees in the T. H. P. O. last Saturday night.

**PICTURES PLACED
IN CLASS ROOM**

Dr. Cushman received pictures of Milton and Emerson a few days ago from the East. They were purchased by the members of his different classes, and are indeed worthy of being placed in the English room by the side of eleven others that were secured in the same way. The Doctor experienced much difficulty in getting the pictures. Two portraits given by the English classes this year have not been received.

**ASSEMBLY LECTURE
WILL BE REPEATED**

Prof. J. E. Weir, of the History department of the University, will deliver a lecture in Wadsworth next Friday evening on the subject: "Goal of the Golden West." The lecture was given in Room 6 Morrill Hall several weeks ago before the academy of Science, and was appreciated by all who heard it. At the request of many of her friends she has kindly consented to repeat the lecture before the people of Wadsworth.

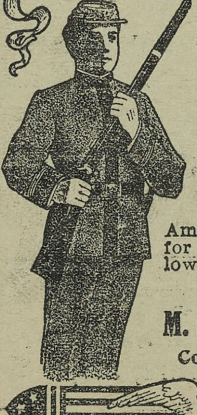

Gertrude Sheehy '03, of Virginia City, paid a visit to friends on the campus, Monday.

The academic senior class at Yale has voted to wear caps and gowns every Sunday morning after Easter.

"Ajax" Wolfe '03 spent a few days on the campus last week. He was engaged in government work relative to the streams in the vicinity of Reno.

Dr. Adams visited the southern portion of the State, recently, with the express purpose in view of establishing a uniform list of textbooks for use in the public schools of the State. He was present at a number of teacher's institutes held in several counties and found conditions for the educating of Nevada's children very encouraging.
