## SITES SELECTED FOR NEW TREES

**Dr. Kennedy Decided Upon Most Favorable Location Yesterday.**

Prof. P. B. Kennedy selected the sites for the different trees and evergreens which the University authorities intend to have planted within the next two weeks. The plots of ground chosen for the planting of trees are located between Lincoln Hall the Hospital and the gymnasium. Evergreens will receive a large share of attention this year. According to the intentions of Dr. Kennedy fewer trees will be planted than last year, but the work will be much more thorough.

Students will begin the work of digging the holes immediately Dr. Kennedy intends to have suitable soil placed by them. The only work then left to the students is the planting of the trees.

Birch trees will form a background to the shrubbery, which will be arranged according to their height. Drainage will be provided for these plots, and Dr. Kennedy says that he expects successful results from the coming University day.

## BASEBALL AGAIN TO THE FRONT

Baseball practice will be resumed this week if weather conditions permit. On account of the inclemency of the weather during the past two weeks it was not possible to do any work on the baseball field. Coach H. T. Thompson, who has been instructing the team for over a month, will begin work again in a short time.

The team expects to play a large number of games. Two games with the Winnemucca ball teams have already been arranged, and will be played in the near future. The surrounding ball teams will be given an opportunity to show their abilities on the diamond. No definite arrangements toward that end have been made, but it is expected that all the minor details will be settled before the season is far advanced.

## RIGID RULES AT LIBRARY

**New Regulations Have Gone into Effect, and Will be Enforced.**

The Library committee with Dr. J. E. Church as chairman has drawn up a set of new rules for the library, and all students are requested to become acquainted with them. Under its provisions no student is allowed to enter the stack room without permission. An ordinary book can be taken from the library for two weeks. Class reference books cannot be secured until after 4 o'clock and must be returned promptly at 9 o'clock the next morning. A fine of five cents will be imposed for each day that a book is kept overtime.

Such regulations are now in force in other libraries, and have proven satisfactory. The action of students in drawing out books for an unlimited period of time caused the committee to form these rules. The new system has already gone into effect and its regulations will be rigidly enforced.

## OUR GRADUATES ARE SUCCESSFUL

W. P. Catlin '04, is visiting friends in Reno. He has been in Goldfield since his graduation last June and has been spending his time prospecting in the southern gold belt. He met with splendid success from the start and is on a fair way to fortune. Mr. Catlin has a great deal to say of interest concerning the welfare of many of Nevada's graduates and former students. Through lack of space this information was crowded out of today's issue, but it will appear in full, Thursday.

President Schurman of Cornell University has been notified that none of the candidates taking the qualifying examinations for the 1905 Rhodes scholarship from New York State succeeded in passing. The scholars for New York State will have to be chosen from the men who passed the qualifying examination last year.

## LAND OF THE CHRYSANTHEMUM

**Captain Boyd Tells About China and Its Peculiar Customs**

Captain Charles T. Boyd was the speaker at General Assembly last Friday. He took for his subject the experiences he passed through during his trip to the Orient. The incidents of the Japanese-Russian war are interesting to all classes of people. For this reason the Captain had no difficulty in securing the attention of his audience throughout the entire lecture.

During the earlier part of his lecture the Captain devoted considerable time to a discussion of the Chinese temples. Many of their peculiar features were pointed out. He related his experiences with a noted handit of that region who was leading a peaceful life, but who seemed anxious to return to his former manner of living. He pointed out the many methods of travelling, in vogue among the Chinese, and showed how difficult it was to make a journey of any great distance, owing to the rugged mountains of that section. The peculiar way of shoeing a horse was told by the Captain. Four men are required to perform the operation.

The Captain watched the Chinese troops at drill, during his travels, and observed very carefully the different movements they executed. He says that they drilled as well as the troops of other nations, and that the Chinese cavalry were efficient in their line of work. He said that the Chinese soldiers could never succeed unless they would cast aside their cumbersome uniforms, throw away the shoes they are now using and cut off their cues. The lecture was illustrated by stereopticon views of photographs taken by the Captain during the course of his travels. The views were prepared by S. B. Doten, and added greatly to the interest of the lecture.

Dr. J. E. Stubbs is expected to return this morning from his visit in the different cities of California.

## DEBATERS WILL ENTER TRYOUT

**First Contest for San Jose Team Will Occur Next Thursday**

The first tryout for the San Jose debate will take place in the Gymnasium next Thursday evening, March 28. Six men will be chosen from those who enter the tryout, and these men will exhibit their abilities in two contests to be held later. The judges for the two final tryouts will weigh the arguments presented by the different debaters, and decide what men shall constitute the team that will try for honors on the rostrum with San Jose on May 8.

The question which will be debated is: "Resolved that the provisions of the Geary exclusion act should be extended to the Japanese." The question of restricting the immigration of the Japanese into this country has been taken up by several of the leading newspapers of the country, and is of great importance to the American people at the present time.

## CADETS DISCOVER OLD FIRST BASE

Most any member of the Cadet Battalion will probably recall his having stumbled over a square of wood protruding a few inches above the ground on the campus between the shop and the chemistry building. But probably very few know that during the early nineties, the students, then in attendance at the University, played baseball on this portion of the campus and the block of wood in question was the home plate of their diamond.

The regular monthly social which was postponed on account of the death of Agnes Harvey, was held in the gym Friday evening. Since many of the students are remaining from many of the pleasures of life during the Lenten season, only a small crowd was present, but they seemed to enjoy themselves thoroughly.

Sunday, March 26, 1905

Editor Today J. M. Ezell

Looking over our file we discover that the executive committee was severely censured, not so very long ago, for neglect of certain duties incumbent upon them. One of the duties, entirely ignored, was a monthly statement to be published in the college paper and to be posted on the bulletin board, as well. Be it far from our intention to make any personal allusions in this matter, but speaking of the executive committee as a whole, they have made very little effort to rectify their faults. No statements have been received by us for publication, neither have they appeared on the bulletin board. Many of the students have expressed themselves, in no uncertain terms, with regard to this neglect and with much reason. Each student has paid eight dollars into the treasury of the Athletic Association thus far this term and, it was only after a storm that threatened the security of the very foundation of this institution, that information regarding the expenditure of the above money, was forthcoming. The students are as much in the dark as ever with respect to any of the expenditures since that time. Therefore, we reiterate that it is with much reason that many of them have registered a "kick". Now as to the point in question, at best, and hour would suffice for making out the monthly report and a minute for posting it on the board and turning a copy in at the Record office. Then why should not the executive committee give a little of their valuable time to the consideration of this matter, thus avoiding a repetition of last month's unpleasantness.

A movement is on foot at Brown University to establish one insignia for the varsity teams and to do away with the present complicated system of letters and monograms:

The writing of the Senior farce has been completed and will soon be ready for rehearsal. The entire cast has not been selected, but in a few days all arrangements will be concluded.

## RUSHES ARE DYING OUT

**Fierce Inter-Class Fights  
Are Waning in  
Popularity**

The Oregon Weekly voices the sentiment of the majority of the universities in the following editorial, the subject of rushes.

The ferocious inter-class fights, called rushes, are evidently waning in their popularity. At California there has recently been a rather heated discussion about the abolition of what is known as the Charter eve rush. A small minority of the rough-house element has tenaciously held out for the rush, while the better sentiment of the freshmen and sophomore classes and the rest of the University have properly sat down upon the practice. Such acts by the majority of a large University like California augur good. The Daily Californian says: "No matter what may be your personal feelings in the matter we must admit that the inter-class Charter eve rush is dead. The attitude of the faculty is so decidedly opposed to the rush that even under the most favorable circumstances it cannot amount to a class affair. Charter day is the University's birthday; why should her children celebrate the happy event by tying each other with rope and leaving them in the cold canyon the remainder of the night?"

Harvard has combined with 17 institutions for engaging in geological field work during the summer, including Amherst, University of Chicago, Columbia, John Hopkins, North Carolina, Michigan and Yale. Courses are described in an intercollegiate pamphlet and students of Harvard accomplishing satisfactorily the courses given by any of the other institutions will receive credit toward their degree.

**STUDENTS WERE BLASTING HOLES**

Several students were engaged in blasting holes yesterday in the lawns in front of Morrill Hall. Their chief object was to provide suitable drainage for the different lawns on the campus. Before the work is completed, every lawn will be treated in the same way.

The University authorities have experienced considerable difficulty in keeping up the lawns on the University grounds owing to the peculiar soil. After a slight depth has been reached, the grass comes in nontact with a hardpan or alkali formation. In the watering of the lawns, the hardpan prevents the water from seeping futher into the soil. It rises to the surface, and carries a large amount of alkali which kills off the lawns in a short time. Those in charge of this work expect to overcome the difficulty. When a suitable system of drainage has been completed, it is expected that all the inconveniences existing at present will be done away with.

DR. FRANCK'S professional card appears in this issue.

The People's Store for bargains in gents furnishing goods.

A. S. Thompson has taken over the management of the Overland restaurant. He will make it a cafe of the highest class. He is prepared to serve banquets and wedding suppers to any size parties.

The silver medal which Nevada received from the St. Louis exposition for its exhibit was awarded to the mining department of the University. The mechanical department was not connected with the exhibit in any way.

The Ladies Relief Corps of Reno presented the Kindergarten association with an American flag a few days ago. In order to properly celebrate this gift suitable exercises were held yesterday afternoon. The school children purchased a flag pole, and the dedication ceremonies were held at the same time. The University band was present and rendered two selections for the occasion.

H. W. Huskey has announced himself as a candidate for City Attorney. He is a member of the law firm of Huskey & Matinson, and is one of the prominent lawyers of this city. He succeeded in earning his way through the Stanford Law School by practicing law on the outside. If elected he will not be influenced by any clique or secret organization, and will endeavor to perform the duties of his office to the satisfaction of all.
