## NEVADA GIRLS AT CAPITOLA

Members of Y. W. C. A.  
Will Attend Annual  
Conference.

The season has come again at which Y. W. C. A. sends its delegates to the annual Summer conference at Capitola. This conference is an event that is looked forward to all the year in Y. W. C. A. circles, and every girl who is interested hopes that at least once during her college life she may attend.

This year four delegates go from Nevada, namely Misses Beulah Hershiser, Lucia Scott, Nellie Cazier and Ada Morse. They leave on tonight's local for that place.

The association has raised part the money to defray the expenses of the girls, and some has been contributed from outside sources or given by the girls themselves.

Capitola, a popular summer resort on the Monterey Bay, near Santa Cruz, California, is a delightful place at any time, but to the girls it is especially alluring at this time, when the great conference meets there, and the large hotel is filled with over 300 girls with common interests, and the men and women of renown who come to instruct and lecture.

A royal good time is always assured the delegates, but that is not the primary motive of their going for ten days and leaving their college work at this busy season.

The purposes of the Conference are to promote Christian fellowship, to train the leaders of students and City Associations in Bible study and Christian Methods, and to enlarge their vision of the world's need of missions and of the scope of Young Women's Christian Association Work.

Dr. J. E. Stubbs has appointed Professors Young, Frandsen and DeLaguna as a Committee on Commencement Exercises. A meeting of the new committee will be held with Dr. Stubbs to-day at 11 o'clock for the purpose of making arrangements for the coming Commencement Day.

## NEVADA MEN IN NEW GOLD BELT

*Many University Graduates Are Interested in mining Claims in the Southern Country*

Many of our graduates have wandered into the marvelous gold belt of the southern portion of the state. The following account of them and their scenes of activities, as told by W. P. Catlin, will undoubtedly prove interesting: Frank Lockman is overseeing the construction work of the New Combination Mill, at Goldfield. He is in possession of some very valuable mining stock and owns some good real estate, as well.

George Saxton ex-'01, and Carl Stoddard ex-'00, have built up a good reputation as mine surveyors. They are at present operating in the Bull Frog district, where they are interested in a number of valuable claims. The controlling interest in the Bonanza town site is also among their possessions.

P. S. Moorman is interested in three different groups of claims, one of which is incorporated under the name of Armogosa-Bull Frog Co. These properties are in good locations and all have fair prospects.

W. Wedertz sp-'01, is the owner of a group of claims near Bull Frog. He expects to sell his property in the near future.

C. E. Southworth ex-'02, is at the present time, a stock broker in Bull Frog. He also owns a half interest in some promising claims. H. C. Southworth '02 is visiting Charles at present. He is thinking of giving up his government position and going into business with his brother.

Dave Ward '02 and George Ward ex-'04, leased for several

months on the St. Ives claim in Goldfield. They are now interested in some Bull Frog property.

Pat Quinn '02, is in Tonopah where he expects to obtain a good position, in the near future, with one of the large mining companies of that place.

Scott Jamison '00, recently resigned his position as principal of the Tonopah School and is now a stock broker in Goldfield. He and his brother Harry '02, are leasing on the Apex group near Diamond Field.

M. G. Bradshaw '03, is assayer at the January mine, in Goldfield. He is considered by the company a most valuable employee.

A. W. Kelley '03, recently quit his position as shaft boss in the Combination and is now prospecting in the Slate range, south of Goldfield. It is reported that he has made a rich strike.

E. J. Erickson '03, is employed by the Tonopah Milling Co., as assayer and bookkeeper.

J. H. Price '04, is employed in Tonopah. He will start an assay office very soon, in the new Gold Reed district. Price is also interested in some claims near Death Valley.

G. F. West '04, and Dripps, Sp., are conducting a surveying and assaying business in Lida. They are enjoying a good deal of prosperity.

L. P. Bryant, ex-'06, is now in Bull Frog. He is interested in a number of claims in Bull Frog and Lida.

## JUNIORS WILL GO TO VIRGINIA CITY

The faculty has granted the request of Professor Etchevery in regard to taking the Juniors in the mining course to Virginia City for two weeks special work in mine surveying. The Juniors will take

their examinations several weeks earlier on account of the proposed trip. During their sojourn in Virginia City a thorough examination will be made of all the mines in that vicinity. The Juniors will complete their work in time to attend the Commencement exercises.

RECORD ads pay.

## OBSERVATORY FOR MT. ROSE

Prof. McAdie Writes to  
Washington for  
Instruments.

Dr Church is in receipt of a letter from Professor McAdie of the Weather Bureau, in reply to a communication asking for a maximum and a minimum thermometer and a rain gage to be used on Mount Rose. Prof. McAdie states that he will take the matter up with the Central office at Washington and will make every effort to secure the instruments with as little delay as possible.

The faculty has decided definitely that April 7, will be University Day. Dr. P. E. Kenedy has charge of the arrangements and will give notice of the minor details to the faculty and students in a few days. There will be no assembly lecture on that day. Fewer trees will be planted than last year, but it is expected that the work will be more thorough this year.

It is Dr Church's intention to establish a station on Mt Rose and by occasional trips up the mountain keep a line on the temperature.

Dr Church is an enthusiastic mountain climber, and anyone entering a discussion with him on the subject is impressed with the idea that an excursion in his company would be interesting and fascinating.

Mt Rose being situated near the University offers a good opportunity for those who desire to climb a high mountain. It is not definite when the instruments will be received and whether an ascent of the mountain will be made this semester.

## UNIVERSITY MAY HAVE NEW FENCES

If the plans of the University authorities are carried out, the University campus will be provided with a new fence. The subject has been discussed quite fully. Photographs and drawings of the proposed fencing will be submitted to the faculty at a subsequent meeting.

Thursday, March 30, 1905

Editor Today D. M. McDonald

The question as to where the new dining hall shall be located still remains unsettled. Different suggestions have been offered, but only one of the proposals seems satisfactory to all concerned. The girls object to having the new dining hall adjoin Manzanita hall, and their objection appears to be well founded. They claim that the appearance of their dormitory would be spoiled by having it joined to a one story brick building. The general opinion is that the girls have taken a correct view of this important subject.

The vacant space of ground in the rear of Lincoln hall has been mentioned as a suitable location for the building. If the dining hall were placed here, the girls at Manzanita hall would be inconvenienced greatly, so this spot must not receive any consideration.

The site on the brow of the hill and overlooking the lake seems to be an ideal one for the dining hall. Nearly all the students are in favor of having the building erected here, and, as it is suitable in every way, why not place the dining hall on this spot.

The University Battalion of Cadets will be inspected on May 12. This information was received from headquarters at Washington a few days ago, and the university authorities are not satisfied with this date because they think that inspection should be held later in the season. The annual inspection takes place several weeks earlier this year. The students will not be compelled to drill after inspection.

Samuel B. Doten will deliver the address at General Assembly tomorrow. He has taken for his subject "The Standard of Student Life."

J. A. Champagne has taken the agency for the Reno Steam Laundry at Lincoln Hall. Washing will be collected every week.

**LADIES' W. B. and Royal Worcester Corsets . . .**

We carry in stock at all times a complete assortment of the Royal Worcester and W. B. We consider them the two best brands of corsets in this country, and we are enjoying a very large trade in corsets on that account.

The W. B. We have added several new lines in this brand of corset, some in high, some in low bust, with deep Princess hip. Made with a good quality of whiet-batiste with front or hip hose supporters. Price \$1.

The Royal Worcester. We have several models in pink, blue and white Dresden effects with high or low bust, Princess hips, and hose supporters of frilled silk elastic. Price \$5 and \$6.

We have the Royal Worcester corsets in many different models, ranging in price from \$2 to \$6.

## CHANGE IN HIGH SCHOOL COURSES

In the work of the High School the following changes have been suggested by most of those directly interested; namely, make the history three hours per week instead of two throughout the three years; make the English three hours in place of two in the Senior High year; reduce the physics from five to four hours per week in the Senior High year; put plane geometry, solid geometry and arithmetic in the senior high school; put one hour of manual training in each of the three years for the young men and one hour of domestic science in each of the three years for the young women; substitute the name science course for German course and put German and French in place of German in the middle high and senior high years.

## NOVEL SCHEME FOR SELECTING TEAM

Dr. Cushman has evolved a rather novel scheme for the selection of a debating team to try conclusions with San Jose. Out of his Freshman English class, two teams of three each have been selected, to engage in a joint debate. At this debate, the three who, in the estimation of competent judges, make the best showing, will be selected to debate any team in the University for the honor of representing Nevada in the forensic contest with San Jose. The preliminary debate will take place on Monday next and the six who have been chosen to partake in the event are the following; J. D. Leavitt, A. St Clair, Miss Edna Folsom, Miss Isabel Miller Geo. Commons and Loyd Lonkey.

## BELEIVES DRAINAGE IS NOT POSSIBLE

The preparations for reseeding the lawns on the campus have begun. Dr. Stubbs fears, however, that the cement which underlies the soil will come together again even after it has been broken up and will be impervious to the water. In order that the work already accomplished might not prove fruitless, Dr. Stubbs has appointed Regent O. J. Smith, Superintendent Richard Brown, Professors, Kennedy, Reid and True as a committee to consider this subject. The committee met yesterday afternoon in front of Morrill Hall and made a thorough study of the subject.

**NEVADA STUDENTS  
GET POSITIONS**

Upon the recommendation of Professor G. F. Blessing A. H. Steckle '05 and W. J. O'Neil, students in the Mechanical department, have already secured positions with large engineering firms in the East. Shortly after his graduation Mr. Steckle will depart for Trenton, New Jersey, where he will be connected with the Erecting department of the Reeves Engine Co. When Mr O'Neil completes his work here, he will leave for Beloit, Wisconsin, to take a position with the Fairbanks-Moise Co. His first work will be in the nature of testing engines. These companies take a certain number of students each year from the different engineering schools in the country.

**NEW DATE FOR  
STANFORD DEBATE.**

The debate between Nevada and Stanford which was originally scheduled for April 22, will take place on April 29. April 22, falling the Easter vacation at the University; and, as many of the students spend Easter with their parents, it was found advisable to select a new date. John S. Case, the debating manager, informed Stanford of the condition of affairs and mentioned April 15, 18 or 29 as suitable dates for the debate. A reply was received from H. M. Lewis, debating manager at Stanford, stating that April 29, would be satisfactory to them.

**SYNOPSIS OF  
WORTHY LECTURE**

Several attempts were made by Dr. Stubbs to secure Dr. Henry Van Dyke, professor of English at Princeton University, for an Assembly Address. He was so pressed with work in California and elsewhere, that he could not stop off at the University. As his address at the Charter Day Exercises at Berkely was worthy in every respect. Dr. Stubbs will probably prepare a synopsis of the speech, and deliver it to the students and faculty at General Assembly on Friday.

The Philomathean society will hold its regular meeting next Saturday evening in Room 6 at, 8 o'clock. Quite an interesting program has been arranged for the occasion.  
Watch for Skinner and O'Brien's ad in the next issue.
