Number 38

STUDENTS HELD ANNUAL ELECTION

Officers Were Chosen to
Fill Various Positions
of Ensuing Year.

Owing to a good day, together with the common interest in electing officers for next year's Athletic Association, the entire student body attended assembly. Everybody seemed to share in the interest and excitement of the moment. Although there were nominees for six different offices, yet the general interest exhibited itself most in the election for President of the Student Body. John S. Case and B. G. McBride, both very popular among the students, were the only two contestants for president, the other nominees having drawn out during the past week. The entire number of ballots cast amounted to 155. Of these Case received 102 and McBride 53. Case will therefore occupy the rostrum at the student body meeting, next term.

In the election of vice president two of the nominees drew out thus leaving the office clear for the third, Alfred Hamlin. Harry Cazier withdrew his name owing to the fact that he is track manager for next year and that he cannot hold two offices. Gus Hoffman withdrew his name, for a similar reason, as he is baseball manager for next year.

In the election of Treasurer Fred Stewart received 74 ballots, J. Spencer 44 and A. Champagne 36. On the second ballot Stewart received 81 and Spencer 31. It will therefore be incumbent upon Stewart to handle the finances of the Association for next year.

Miss Ada Morse will be Secretary for next year having received 82 ballots, while Miss Weeks and Miss Sielaff received 36 and 35 votes respectively.

Waite Borden and Andy Curran were the aspirants for yell leader. Curran received 85 ballots and Borden, 62. Andy will therefore look after the rooting department, next year.

The second ballot for Debating Manager was not taken and therefore the election to that office will be held at the next Student Meeting. From the first ballot, however, James Ezell had the majority with Joe Scott and Louis Goldstein close contestants for second and third.

REMARKABLE WORK OF NEVADA'S GRADUATES

*Many of Our Alumni Are Winning
Laurels for Their Alma Mater
in South Africa*

Nevada's graduates, especially from the School of Mines, are doing excellent work in all parts of the World. A large number of these graduates are at present employed in South Africa. In proportion to its size the University of Nevada is without doubt the best represented school in the world, in South Africa. The work of these progressive men from our University, is excellent in every particular, and is in several cases remarkable. At the Simmer & Jack mine there are employed about seventeen Nevada graduates. This speaks well for the small University, when the larger colleges representatives at that mine, number scarcely over twenty.

Mr W. H. Seagrave, '96 who has been employed in the Simmer & Jack mine as mining captain during the past nine years, has returned from South Africa to his home in Reno, on a leave of absence. His work in that country has been excellent and the company considers him a most useful employee. Mr. Seagrave brings good reports of all the Nevada boys working in that foreign country. He says that they are winning a name for themselves and for their University.

E. A. Hardack '92 is the pioneer of the Nevada graduates employed in South Africa. He commenced work for Simmer & Jack in 1893 and has been its employ ever since. He at present holds a position as mining captain.

T. A. Bristol '93 is employed as mining captain in the Robison Deep near Germiston. He is also a pioneer, having departed for South Africa immediately after his graduation.

F. C. Frey '94 holds a position in the Simmer & Jack mine, as

underground manager, having been promoted to that position from mining captain. He has been in South Africa for several years also.

F. H. Saxon '95 is employed as special surveyor by the same company. Like the rest, he has proved a very useful man.

J. M. Henry '96 is a mining captain in Simmer & Jack's mine. He went to South Africa in 1903.

Fred Linscott '98 has very recently accepted a position as shift boss, in the mine. Mr. Linscott has made an enviable reputation in military affairs.

G. R. Bliss '97 lately accepted a position as surveyor for the company.

J. J. Bristol '99 is employed by the company as chief surveyor. His work in his line has been remarkable and he is considered by the company as the best surveyor in its employ.

J. M. Fulton '98 resigned his position as chief surveyor to accept a position as mine manager at the Sky Blue mine.

W. B. Gault '00 holds a position as shift boss at the Simmer & Jack mine. His work has proved very satisfactory in this line.

Sam Durkee '93 is a shift boss for the mine, while his brother Joe Durkee '95 holds a position as mining captain.

A. Hanson '96 is employed as a surveyor on Heights Deep.

J. B. Higgins '97 recently changed from mining captain to surveyor at Knights Deep.

B. C. Leadbetter '02 is employed in the Simmer & Jack survey office.

F. H. Luke '03 is employed as sampler of the same mine.

E. P. Arnot '02 is also employed as sampler for Simmer & Jack

It will probably be decided next Friday, who is to fill this office.

Harford Southworth '02 has been visiting on the campus for the past two days. He has been employed

on the government survey in the vicinity. He intends to spend a few weeks in the mining districts of the southern part of the state.

TALKED ABOUT TRANSMISSION

Prof. Schrugham Gave
Short, but Interesting
Address at Assembly.

Prof. Schrugham delivered a short but interesting address Friday, at general assembly. His subject, "The Longest Power Transmission in the World," was clearly discussed. The professor showed how water could be used to generate power, and how that power could be transmitted. He took for example a large plant in California which transmits power for a distance of two hundred miles. This, he said, was the greatest distance at which power can be transmitted.

The professor stated that in many cases water can be employed to advantage in place of fuel, in generating power. This is done in parts of the country where there is a great deal of water power and little fuel. With the increasing knowledge of Long Distance Transmission, it is safe to say that in a few years the waste water power in the mountains will be utilized by the cities and thus lower the price of fuel.

COMMITTEE FOR FIELD MEET HOLDS SESSION

The executive committee of the University held a meeting last Friday in the regents' room for the purpose of arranging the minor details for the coming field day between the various high schools of the state. Allen Ede, principal at Wadsworth, Arthur Brandon of the Reno High School and captain Martin of their track team, were present and assisted in transacting the business of the meeting. The list of men eligible to take part in the contest were handed in and considered by the committee. All protests were speedily disposed of. The field day will take place on May 19.

Miss Lucy McDermott of the '02 Normals, has been visiting her sister for several days.

The Alpha Beta society elected their officers last evening.

Sunday May 7, 1905.

Editor Today J. P. Arnot

The present conditions that exist in track and baseball athletics, should serve as an example to impress the minds of the members of next year's Athletic Association, of the necessity of apportioning funds to each branch of athletics. This year we have no track team. This is not due to lack of material, however. The present dead state of affairs in track, is due to the fact that there has been no money put aside for it. The same condition exists in baseball. In this branch of athletics, excellent material has shown up, but owing to the lack of money, nothing has been done. The truth is that most of the money in the Athletic treasury, has been spent for football, while the small remainder has gone for basketball. This of course leaves nothing for baseball or track. Let it therefore be the determination of the newly elected members of next year's Athletic Association, to improve the condition of affairs to the best of their ability.

Small as the University of Nevada is, yet it can be shown by example that the school is on a level with the largest colleges in many respects. The mining course of this university is hard to be excelled anywhere. In all parts of the world, graduates of the mining department of this university, are winning glory for themselves and their Alma Mater. This testifies that the principles taught in the mining department, have proved successful to the greatest degree.

Not only may the university feel proud of its mining students,

but also of the standard reached in the military department. The drill of the cadets has been nearly as good as that of regular troops. This has been due to the efficient and thorough instruction of the different military professors together with the conscientious work of the cadets. In fact no college in the west can surpass the drill of the Nevada cadets. The Government has recently appointed one of the cadet officers to fill a responsible position in the Phillipines. No better example than this can be cited to show the excellent standing of the university in military affairs.

The Purchasing Power of \$15.00

As applied to clothes buying was never shown to better advantage than in the extraordinary values we offer at \$15 in Men's and Young Men's Spring and Summer Suits. They would cost you \$20 at other stores, and you couldn't buy their equal in style workmanship and fit at a custom tailors for less than \$30. Try it—examine the styles, fabrics and prices at other stores—then come here look over our large assortment of styles, fabrics and patterns.

We are convinced that after you examine the garments and try on your size, you will be satisfied with our clothing and want no other. They are made by the Kuppenheimer and W. S. Peck Co., two of the leading clothes makers in the country, and are in all the newest patterns and colorings in cheviots, tweeds and worsteds.

**Officers Elected
for Ensuing Year**

The T. H. P. O. fraternity held a
meeting in Room 6, Friday evening,
and elected officers for next year.
Lloyd Skinner was elected to H. R.
M. J. 1st., the highest office of the
fraternity. H. Updike was elected
H. R. C. W. 2nd. John Case re-
ceived the office of K. T. L. B. E.
Comford was chosen H. R. R. N.

**Annual Banquet of
Sigma Alphas**

The Sigma Alpha Fraternity
held a banquet in the Overland
Cafe, Friday evening. All of the
members, numbering about twenty-
eight were present with their ladies.
Many toasts were made and re-
sponded to, and while the jolly
crowd partook of the feast, Keils
Orchestra, dispensed sweet music.
The event was most enjoyable and
those who were present will long
remember it.

**Crescent Club
Holds Meeting**

The Crescent Club held a meet-
ing last Friday evening, in Room
6, and Candidates for next year's
officers were nominated. These
nominees will be elected at the
next regular meeting of the Club.
After the nomination were made,
the members discussed the finan-
cial affairs of the club.

All those desiring Artemesias
should sign a contract with the
Manager DEAN BRADLEY be-
cause there has only been a limited
number of books bound.

President J. E. Stubbs has been
confined at his home with an at-
tack of lagrippe. From last re-
ports he was resting easily and he
hopes to resume his duties within
three or four days.

The girls of the Theta Epsilon
were entertained last Thursday
evening, at the home of Miss Irene
Mack. After a business meeting
of the sorority a social time was
enjoyed, after which the hostesses
of the evening, Miss Mack, Miss
Miller and Miss Souchereau, ser-
ved dainty refreshments.

FOR FRAT HOUSE**

**The T. H. P. O. Fraternity
Will Build a Home Op-
posite Manzanita Hall**

The T. H. P. O. Fraternity of the University of Nevada recently purchased the plot of ground adjoining the residence of Professor DeLaguna and Bardenwerper, and are contemplating the erection of a fraternity house. They expect to begin the work of constructing their new home next September. None of the minor details have been sufficiently developed as yet, so it cannot be definitely announced what the nature of the building will be. The site of their new home is an ideal one as it is situated so near the University that no hardships will be experienced in going to and from their classes.

**ENGLISH CLUB WILL
GIVE ANNUAL BANQUET**

The members of the English club will hold a banquet on May 13 immediately after Professor Gayley's lecture has been delivered. Professor Gayley will be the guest of the club at the evening. Toasts will be given by the different members of the club. The election of the club's officers for the next year will occur on that evening. Means for the general improvement of the club will be discussed.

—President W. L. Bryan of the University of Indiana advocate the reduction of the regular college course from four to three years, and proposes to compensate for the lost time by additional collateral work.

Ben Jonson's "Silent Woman" was acted in March by the Harvard chapter of Delta Upsilon. The same comedy was chosen six years ago for the first play to be presented on the Harvard Elizabethan stage, the only Elizabethan stage in the country with the exception of that at Stanford.

The Young Women's Christian Association delegates to Capitola have been leading the Young People's Meeting in the various churches since their return, giving each society one evening's account of their experience and the benefits of their stay at the Conference
