General Assembly.
As Mr. Wm. Shaw, general secretary of the C. E. Society, who was scheduled to address the faculty and students at yesterday's general assembly, did not show up on account of a delayed train, the band gave a musical concert which was highly enjoyed by all.

Vice-President Lewers made a few remarks before the concert on the excellent work of the band, and stated that music in the University as a whole should be encouraged, especially referring to the proposed chorus to be made up of all the University students.

Musical Recital on Thursday.
Under the direction of Mrs. Kate Woods there will be a musical recital in room 6 of Morrill Hall on next Thursday afternoon at 4 o'clock. The recital will be made up entirely from University talent. There will be a violin solo by Miss Irene Conkey, '10; vocal solos by Miss Brush, secretary to the president, and Miss Hauss, and a mandolin duet by Prof. Jones and L. Guirado, '11. Students and faculty are cordially invited to the recital, which will be entirely informal. Hereafter it is the intention of the music department to have a similar recital every week, to all of which faculty and students are invited.

Engineering Club.
On Wednesday evening at 8 o'clock Mr. A. M. Smith, an alumnus of this University, will address the engineering club on the subject, "The Nevada Goldfield Reduction Works." Mr. Smith graduated from the School of Mines in 1900. He was engaged in mining work in Costa Rica for some time before taking up work with the Nevada Goldfield Reduction Works, of which he has been the superintendent for some years.

Faculty Science Association.
There will be a meeting of the Faculty Science Association on Monday, February 14, 1909, at 4:40 p. m., in the lecture room on the first floor of the Mackay Mining building. The following addresses will be presented: "The Art of Illumination," Professor J. G. Scrugham; "Recent Development in Serum and Vaccine Therapy," Dr. O. P. Johnstone. Visitors are welcome.

Coed Tennis Club Will Entertain.
To the whole University, greeting, from the University Women's Tennis Club. Know that you are all invited to come on Washington's birthday in the evening to the "gym," beneath whose portals you will be admitted for

TRACK TRAINING BEGINS TUESDAY

Prospects of Meets With Big Colleges Will Spur Men on to Great Efforts.

A meeting of all persons interested in track work was held in the lounge room of the new training quarters on last Tuesday afternoon. There was a fairly good array of track material present, though there were a great many that intend coming out for track that were not present. A Senior class meeting prevented most of that class from attending.

After a short talk by Graduate Manager Standerwick there were some suggestions made by Rossi and Campbell, who are both experienced in track work. The question as to whether both track and baseball could be supported was asked and it was decided that neither would interfere much with the other. Those present unanimously decided in favor of having a track team and of having training commence next Tuesday afternoon, when a meeting is to be held in the "gym." Everybody who takes any interest in track work is expected to show up at this meeting that plans may be made for preliminary training.

The track is to be cleared of snow and with fair weather it can soon be used for training. It is now assured that our University will meet Washington, Oregon, California and Stanford Universities, probably about the middle of the season. It is almost certain, too, that there will be a preliminary meet in Reno with the Olympic Club track team of San Francisco, probably the last Saturday in April.

Within a month there will be an interclass track and field meet held on Mackay Field. Possibly the university preparatory school will also enter contestants. The winners in this meet will be the ones who will go into active training for the big college competitions. Though it has been several years since our college has had a track team, there is no reason why a good showing cannot be made this year. Some of the former crack athletes of California high schools are now registered at Nevada and can be depended upon to make good. Along with them are a good number of football men who ought to show up strong.

A small fee. The affair is to be a "she jinks" and "he jinks" combined. An extensive program has been laid out in which all will take part who come. Be forewarned and prepared, for what will happen to you, only those know who viewed the marvelous stunts of the recent "he jinks." After the strenuous exertion demanded by all present from everyone else present in the performance of stunts like the one of which has never before greeted mortal eyes, you will all be hungry.

Refreshments, both solid and liquid, that will satisfy the most delicate palate and every other kind of palate can be obtained by bringing forth from the recesses of your pockets that bright shining substance whose "jingling sound is sweeter than tinkling bells or sweet, sweet honey." The proceeds of the evening's entertainment will be used by the "coed" Tennis Club to repair and put in shape the women's tennis court, which needs repairing badly, in preparation for a big tennis tournament for ladies in the spring.

Every "coed" is raving over the new Eastern song hit, "A Garden of Roses." Go and hear it at the Emporium of Music, first store north of Virginia street bridge. All students have a personal invitation to make this store their headquarters.

"Live and Dead."
"I'm thinking just now of Nobody,
And all that Nobody's done,
For I've a passion for Nobody,
That Nobody else would own;
I bear the name of Nobody,
For from Nobody I sprung;
And I sing the praise of Nobody,
And Nobody mine has sung."

MILITARY BALL ENJOYED BY ALL

Excellent Music of Band a Feature—Considerable Money Cleared for Track Work.

Much credit is due those students who gave their time and efforts to make the military ball of last evening the great success it was. Above all others Prof. Martin and the bandmen are to be praised and complimented for the excellent music they provided. On all sides they are being deservedly praised, and especially by the townspeople of Reno who attended the ball, for these declared that never had they danced to better music. It must be remembered, too, that the members of the band were denied the privilege of dancing and gave up the evening to the hard work of playing for several hours. The University thanks the bandmen heartily.

The decoration committee also deserve praise for the artistic effect of the decorations of the ball room. The draping of the national colors in the form of a great flag over the band stand was especially artistic, while the large flag draped about Lincoln's picture as a centerpiece over the door opposite the main entrance greatly pleased the eye. The smaller flags about the gymnasium and the crossed Krag-Jorgensen rifles with their bayonets fixed and glittering which were fastened around the balcony railing added a military touch to the scene.

From a financial standpoint also the ball was highly successful. One hundred and thirty-four couples were on the floor, many of them being townspeople. One hundred and thirty-four dollars was taken in at the door, and it is probable that about \$100 of it will be cleared. This will be given to the athletic association for the benefit of the track team.

For Agricultural Students.
Dr. W. J. Beal is carrying out an experiment which was begun 30 years ago; the testing of the vitality of a variety of weed seeds. The test is showing how difficult it is to get rid of the weeds on a farm.

Out of twenty varieties of weed seeds buried 30 years ago for this purpose Dr. Beal has found four varieties that have already started to grow. As they were taken up only a few days ago there may be others which will yet germinate. Seeds 30 years old are slow and need the best of conditions. The varieties that have started are: (a) the common chick weed, (b) narrow leaf dock, (c) black mustard, and (d) shepherd's purse. The black mustard was the first to start.

There were originally 50 seeds in each variety. Dr. Beal has experimented on the assortment every five years, and has found that weed seeds have a very strong vitality.

The experiment is one of a series which the doctor has had great patience in carrying out.—M. A. C. Record.

The trustees of the Rhodes scholarships have issued a statement showing that 179 men were recipients of Rhodes honors last year. Of this number 90 were from the United States, 78 from the British colonies and 11 from Germany. All but one of the American students have returned to the United States for employment.

At a recent meeting of the faculty of Amherst College, the entire Sophomore class was penalized for participation in hazing. For the second semester the class will be allowed but thirteen cuts per man, instead of the usual twenty-five, not more than three to be taken in any one subject. The ruling affects the whole class, because the hazing was a class matter, and was a violation of the rules.

STUDENT AT OXFORD DISCUSSES FOOTBALL

Hering, Rhodes Scholar From New Jersey, Compares Styles of Play.

In connection with the controversy over football rules, which the Universities of the East are engaged in, the letter of Donald Grant Hering, Princeton, '07, one of the Rhodes scholars at Oxford, is one of unusual interest. Hering played for two seasons on the varsity eleven of Princeton, alternating between the positions of guard, tackle, center and half back. In 1907 he received the Rhodes scholarship from New Jersey, and immediately took up residence at Oxford. Because of his experience in the American game, he took a great interest in the English game, and was one of the Oxford forwards in the Oxford-Cambridge match last fall, which was won by Oxford 35 to 3.

Upon the request of friends, he wrote the Daily Princetonian, giving his opinion of Rugby football. The following are extracts from his letter to that paper:

"There can be no doubt whatsoever that Rugby is not nearly so dangerous as the American game. I make due allowance for the softer playing fields in England and for the fact that games are generally cancelled if the ground is frostbound or too slippery. But, in a season more than twice as long, with a much larger playing body, the serious injuries at Rugby are not more than four per cent of those of the American game. This is a conservative statement of opinion from which I will not recede.

"In Rugby there are no pads and no interference. Now, no interference necessitates an open passing game, and such a game seems to be at once spectacular to the watcher, which is of least importance, pleasant for the player, which is of more importance, and, lastly, a guarantee that the race will not be impaired through sprained hearts, wrenched and torn ligaments, brain concussions, spinal injuries and the like, to the men who are fit to be, and should form, an increasingly important section of the community.

"The Rules Committee, after prodigious labor, have brought forth many mole-hill changes in the rules. Let them now, after twenty years, rectify their greatest and most stupid blunder and give us back the game we used to have, before the runner was granted his protection."—Daily Californian.

English as It Is Germanized.

The class at Heidelberg, says Everybody's Magazine, was studying English conjugations, and each verb considered was used in a model sentence, so that the students would gain the benefits of pronouncing the connected series of words, as well as learning the varying forms of the verb. This morning it was the verb "to have" in the sentence, "I have a gold mine."

Herr Schmitz was called to his feet by Professor Wulff.

"Conjugate 'do haff' in der sentence, 'I haff a gold mine,'" the professor ordered.

Herr Schmitz proceeded: "I haff a golt mine, du hast a golt dein, he has a golt hiss. Ve, you or dey haff a golt ours, yours or deirs, as de case may be."—The Idea.

A Tale of the Gym.

 Went to the gym to stunt;
 In vain he tried to dodge the rising floor.

But with an awful hit,
 The hard cement he split,
 And now his hat won't fit him any more.

Blind Athletes Make Wonderful Time.

The Overbrook record for 100 yards is 10 4-5 seconds, very remarkable time when all things are considered. The runners being blind, it is obviously necessary that they shall have some means of knowing whether they are keeping to the right track or not. Therefore wire cables stretch the full length of the track. On these are rings large enough to run easily, and to these rings are attached short chains with handles. The racers hold each a handle, and are thus able to keep an exact course. The tape also takes a novel form. It consists of a hanging fringe of cords. This the blind runners strike with their faces, and so realize that they have reached the winning post. This fringe of cords is similar to that used on certain American railroads to warn the brakemen on the top of freight cars that a low bridge is near.—Illustrated London News.

Medical Schools Overcrowded.

Though there is a complaint that the medical profession is overcrowded, yet each year the number of students increases. Some interesting statistics come from Paris.

On the first of last December the number of first year students was 715, of whom 227 were foreigners; 558 of these were men, 157 women, but of the latter only 42 were French women.

These figures show that the profession of medicine is becoming more and more taken up by women, though French women are hesitating more than those of other nationalities.

A Church Saloon.

A number of well-known churchmen of Montclair, N. J., are planning to open a model saloon similar to the one favored by the late Bishop Potter in New York. The movement was started at a church meeting recently and at the next period for filing applications for liquor licenses steps will be taken to secure a license for the ideal saloon. Besides the spirituous drinks, the "church saloon" will furnish coffee, lemonade and soft drinks, as well as light luncheons. Qualified bartenders will be employed.—Ex.

A Commercial Maid.

She bought a machine that was new and clean

And that shone with a shine resplendent;

She said: "I swear and I do declare That I will be independent!

I'll learn my food, for I'm in the mood,

And my arm is strong and hearty; "Now is the time for all good men To come to the aid of their party." Exchange.

A Marginal Profit.

"Alas! That commercialite girl gave me a two dollar bill and a fifty-cent piece for those books and the bill is nothing but college currency," frantically exclaimed the assistant in the college book store after making a sale.

"Let it go," replied Professor Hochstetler, "look at the fifty-cent piece and if that is good we have still made twenty cents."—Ex.

When to the garden of untroubled thought
I came of late, and saw the open door,
And wished again to enter and explore
The sweet, wild ways with stainless bloom inwrought,
And bowers of innocence with beauty fraught,
It seemed some purer voice must speak before
I dared to tread the garden, loved of yore,
That Eden lost unknown, and found unsought.
Then just within the gate I saw a child
A strange child, yet to my heart most dear—
He held his hands to me, and softly smiled
With eyes that knew no shade of sin or fear;
"Come in," he said, "and play a while with me;
I am the little child you used to be."

The class at Kirk had been reading the story of Joseph and his brethren, and it came to the turn of the visiting minister to examine the boys.
